

---

## **Addendum #1**

Please find enclosed a revised Bid Form, with the addition of Pit Filling as an add alternative.

These are 150 separate Pit Fillings.

In order to ensure the integrity of the water presently in the tank, we will not allow anyone to enter the tank, this includes opening either hatch on the roof. We have enclosed several pictures of the inside and outside of the tank. Anyone who would like to visit the tank is requested to call 423-823-2123 and we will have the inspector be available to visit the site.
