Water Reclamation Facility**

Request for Information 1:

Question:

For the Grit, Grease, & Screenings containers please confirm the bid requires seventeen (2 cubic yard) containers. The original bid reads (17) twenty two (22) cubic yard containers. The industry standard for front load containers are 2, 4, 6, 8 cubic yard containers.

Answer:

Item 3.4.3.1 reads “seventeen (17) twenty two (22) cubic yard containers for these disposals”. **This should read seventeen (17) two (2) cubic yard containers for these disposals.** Please prepare your pricing using two (2) cubic yard containers.

Clarification of Information:

Due to the above mentioned item change, the bid opening date has been delayed for one week in order to allow for any necessary corrections to proposal information that may have already been done based on twenty two (22) cubic yard containers. **The new bid opening date is Friday, March 29, 2019 at 2:00pm.**
