

ADDENDUM NO. III

DATE: February 1, 2017

TO: All Proposers

FROM: Janice McClelland, Assistant Purchasing Agent

SUBJECT: Addendum No. 3 – McClung Warehouses Brownfields Cleanup

PROPOSALS TO BE OPENED: February 6, 2017, at 11:00:00 a.m.

This addendum becomes a part of the Contract Documents and modifies the original specifications as noted.

Question Submitted to the Office of the Purchasing Agent

Q. With regard to the insurance requirements for the brownfields cleanup RFP, my client has an Environmental Combined Form policy with Contractors Pollution Liability coverage and Non-Owned Disposal Site coverage. He does not carry “Environmental Impairment Liability” coverage since he does not own the site where is performing operations. Please confirm the Contractors Pollution Liability coverage is sufficient which does not have an exclusion for Asbestos as required and would cover his operations at the site. He also carries a follow form excess liability policy with 1 million limit so he would meet contract coverage requirements.

A. An Environmental Combined Form policy with Contractors Pollution Liability coverage and Non-Owned Disposal Site coverage that does not have an exclusion for asbestos will be sufficient if the policy meets all the other requirements, including limits of at least \$2 million per occurrence and at least \$3 million aggregate. The requirements would apply to both underlying coverage and any umbrella.
