**BID OPENING TIME CHANGE:**

The Bid Opening time for the Northeast Aeration Basin Diffusers Replacement has changed from 2:00 p.m. to 3:00 p.m. local time on Tuesday, March 1, 2022.

**QUESTIONS:**

1. In reviewing the documents, you have a duration of 60 calendar days to complete the project. I have contacted the manufacture and found out that the diffuser are not shelf items and at best after, approved shop drawings, it would be 12 to 16 weeks for fabrication/delivery of the product. (112 calendar days) Then to remove the old system and install the new diffuser you would be looking at 6 to 8 weeks each tank. That another 120 days. In conclusion, you are looking at 240 calendar days necessary to complete this contract. Please revise.

Answer: The schedule will be revisited and determined if 240 calendars is acceptable.

2. Is the Owner going to drain and clean the tanks?

Answer: Refer to Division 4 Section 1-Specification 1.10 Execution Item A.

3. Can the digesters be taken out of service for a two-month period?

Answer: Only (1) One digester can be out of service at a time. A two-month period is possible.

4. We are assuming that only one digester can be taken out of service at a time. Please confirm.

Answer: Refer to Division 4 Section 1- Specification 1.10 Item A.

5. Will there be a requirement for testing the air distribution prior to placing them back on-line?

Answer: Refer to Division 4 Section 1- Specification 1.11 Functional Test.
