Clarification

The bid form has included alternate sizes of plant species that may be installed. The option of sizes was included to address a potential lack of supply for a specific size of plant. Based on the pre-bid questions on 12/15/2021, the County would like to clarify the following:

1. For groundcover and shrub species, it is requested that the largest size available (on the bid form) be included in the bid.
2. For tree species it is requested that smaller sizes presented on the bid form are included in the bid, unless they are unavailable in the quantities needed. In that instance, larger sizes are acceptable.
