

Q & A 2016-11-04

Per our discussion today. Section 2.18 contains wording from our standard RFP boiler plate that pertains to multiyear agreements. This section does not apply to this RFP. You are proposing for a single project only.

Section 2.18 should be not be considered in this RFP.

If any of those who attended today's Mandatory Pre-Proposal meeting wish to throw this RFP out and start fresh with the Section 2.18 removed, I will do that. However, re-issuing the RFP with Section 2.18 removed will not change the November 11, 2016 deadline for submission. Additionally, I will need notification by close of business today if we are to re-issue the RFP.

Thank you for your participation and please forgive the oversight on my part.

Jim Fugate
