

**RFP- Catch -all Roll off Containers**  
**Addendum #1**

Below please find responses to questions, clarification, or additional information for the above referenced RFP. You will need to consider this information when preparing your proposal.

**Clarification:** All containers are to be the bathtub style

1. Is there a specific color that Jones County wants the containers to be? **PURPLE**
2. The last item under specifications states " 62" hook". Is that a typo and supposed to say 62" Height (referring to the height to the top of the rails when the container is sitting on the ground) , or is that refereeing to the point on the container that the truck connects to while loading the container onto the truck? There are two types of roll off trucks. The most common type is a cable hoist, and the other style is a hook hoist. On the hook hoist style, the containers have to have the correct hook height in order to be compatible with the truck for loading. I want to be sure to provide the correct response in my submittal. **THE HOOK IS AT THE BASE OF THE CONTAINER. THE CABLE LEADER FROM THE TRUCK IS APPROXIMATELY 62" LONG.**
3. Can you provide the specific addresses to the locations the containers will need to be delivered to? **ALL CONTAINERS WILL BE DELIVERED TO THE SAME ADDRESS (454 CUMSLO ROAD, GRAY, GA. 31032)**
4. Can you provide the number of containers to be delivered to each specific location? **SEE RESPONSE TO QUESTION #3**
5. To be clear, this bid is for the purchase of Roll-Off's only. That is correct, containers only.

**Please sign the "Receipt of Addenda" in the bid package and include it with your submission.**
