1. In each IDF/ MDF rack, are we using the existing UPS or do you we need to supply one at each?
 - a. You may use the existing UPS available. If it is not sufficient for any additional equipment added, Randolph County will be responsible for upgrading the UPS.
2. What type of cabling CAT5e or CAT6?
 - a. CAT5e will be sufficient.
3. Will we need to supply our own CAT5e Patch Panels?
 - a. Yes, you will need to provide CAT5e patch panels that may be mounted in the provided racks. They should be properly labeled as well.
4. Are unmanaged switches appropriate?
 - a. Yes, unmanaged switches will be accepted in the bid.
5. Will the work need to be done outside regular business hours?
 - a. No, however, scheduling around the court schedule will be required.

Additional information:
All work must meet local building codes and IEC standards.
