Please let me know if you have any questions.

Thanks,
Kathy Hair

SECURITY INTEREST: Seller hereby retains a security interest pursuant to Georgia Title 11-2-101 or the applicable state UCC enactment, in the above described property to secure Customer's obligation to pay as set forth above. Customer also agrees that the security interest will cover all accessions (goods that become affixed to or installed in the property) and also to the proceeds (whatever received upon sale, exchange or collection) of the property. Such grant shall not be construed that Seller consents to any sale or transfer of collateral. Seller and Customer agree that a carbon, photographic, or other reproduction of this security agreement is sufficient as a financing statement filing and for perfection purposes. By accepting this quotation, you are agreeing that Direct South, Inc. can file a UCC Financing Statement protecting Direct South's security interest for merchandise contained within this quote.

RETURN OF GOODS: All merchandise is subject to a minimum restocking fee of 25%, plus freight, providing the manufacture will authorize the return of the merchandise. In some cases, the restocking fee will be more than 25%, depending upon the manufacturer. If a manufacture will not authorize the return of the merchandise, then Direct South will not be able to accept the return of the merchandise.

FREIGHT DAMAGE: **Per new 'NMFC' National Motor Freight Class guidelines, effective April 18, 2015, concealed damages must be reported to carriers within 5 days after delivery.**

Currently, concealed damages can be reported up to 15 days after delivery for consideration of a valid claim, but per NMFC guidelines effective April 18, 2015, the time period for reporting concealed damages is being reduced 5 days. I have attached a document with all changes being implemented by the NMFC effective April 18, and below is a summation of the concealed damage rule change.

Please be aware that this is not a ReTrans policy/rule, rather a change being enacted by the NMFC. Please make sure that you are instructing ALL your customers to inspect their freight when it is delivered. They should be making note of any damages on the Bill of Lading when the delivery is made and notify Boelter so that a claim can be processed right away. Any supporting document helps with claims – i.e. pictures of the damaged freight. It is also very important to keep any packaging. This will assist if an inspection is required.

Supplement 1 to NMF 100-AO, effective April 18, 2015

ITEM 300135-A REPORTING CONCEALED DAMAGE

(a) When damage to, or loss of, contents of a shipping container is discovered by the consignee that could not have been determined at time of delivery it must be reported by the consignee to the delivering carrier upon discovery. (b) Reports must include a request for inspection by the carrier's representative. (c) Notice of loss or damage and request for inspection may be given by telephone or in person, but in either event must be confirmed by a written or electronic communication. (d) While awaiting inspection by carrier, the consignee must hold the shipping container and its contents in the same condition they were in when damage was discovered, insofar as it is possible to do so. (e) **Unless otherwise specified by the carrier, notice of loss or damage should be provided to the carrier within five (5) business days from the date of delivery.** (f) If five (5) business days, or such other period as specified by the carrier, pass between the date of delivery of the shipment by carrier and date of report of loss or damage and request for inspection by consignee, it is incumbent upon the consignee to offer reasonable evidence to the carrier's representative when inspection is made that loss or damage was not incurred by the consignee after delivery of shipment by carrier.

SUPPLEMENT 1 TO NMF 100-AO PROCEDURES GOVERNING THE INVESTIGATION AND DISPOSITION OF FREIGHT CLAIMS FOR LOSS OR DAMAGE

Only participants in the NMFC® at the time the transportation occurs may use the

Initial: _____

provisions herein. 14 For explanation of abbreviations and reference marks, see last page of this Supplement. ©NMFTA 2015 ITEM 300135-A-Continued s (g) Reasonable evidence includes, but is not limited to: 1. sIdentifying the party(ies) responsible for unloading, 2. sIdentifying the chain of custody of the article, including prior transportation by any mode, 3. sLocation(s) of the article(s) once the shipment was received until the damage was noted, 4. sAny mechanical or physical handling by the consignee subsequent to delivery by the carrier. s (h) If a clear delivery receipt is available on the shipment, e.g. no damage or shortage is noted, the claimant must provide documentation showing that damage or loss occurred prior to delivery.
