1. All other terms, conditions, dates and times remain in full force.

**To follow are the questions and answers submitted:**

**QUESTION:** I am confused on where to include the asphalt for the two areas to be widened to 24'. One area is the long 740' or so area where the new pipes are going and that has been changed to Full Depth Reclamation. The other is the smaller area with the monument sign. In the second amendment, I asked question #2. The question was whether the asphalt should be included in the LS "Road Widening" line item. The County answered yes. But in the third question, for the widening by the monument sign, the county said to NOT include the asphalt in the LS pricing. And then, on another question, someone asked whether the asphalt for the road widening (both areas noted) should be included under the LS for road widening or be paid per unit pricing for the asphalt. The county here answered "Paid for in the unit item".

Which is it? To make things clear, this is what I'd like to see posted by the county if the intent is for the asphalt for these areas to be paid under the unit price for 9.5mm and 19mm asphalt.

**ANSWER: All of the asphalt both 19mm and .95 mm is included in the quantity pricing. The LS pricing is to include the base work and the FDR.**
