2. SPECIFICATIONS

Overview

Invitation to Bid for a contract to provide a July 4th Fireworks Display for the City of Murfreesboro.

Specifications

The fireworks will be shown on July 4, 2017, beginning approximately between 9:00 p.m. and 9:15 p.m. with the exact time to be determined by the City and the Contractor on site. However, if inclement weather is approaching, an earlier show time will be mutually determined by the City and the Contractor on site. The display will be held at McKnight Park, Murfreesboro, Tennessee. A map of the area is attached. If inclement weather prevents the presentation of the display on this date, the City and the successful bidder will meet and discuss postponement. If the mutually satisfactory postponement date is beyond the day following the scheduled exhibition, and the successful bidder is required to return to its point of origin, then the City shall have the option of paying an additional charge for transportation and travel of material and personnel to the display site, not to exceed fifteen percent (15%) of the contract price, or the City may terminate the contract with no obligation to pay the remaining balance of the sum to be paid and with the deposit to be returned to the City less any and all reasonable costs and expenses incurred by the successful bidder in anticipation of presenting such display, including but limited to costs associated with set up and take down of equipment (if, and only if, the bidder has actually set up the equipment prior to the decision to postpone the display) and transportation of materials and personnel.

By submitting a bid, a bidder represents that bidder has visited and inspected the site and has the ability to safely provide an electronically fired fireworks display at the specified location.

Bidder further represents that bidder has qualified personnel available including a qualified pyrotechnician to provide the show on the date scheduled. If a gas-run generator is needed to power the electronic firing board, the bidder is responsible for providing this equipment and any other equipment or supplies necessary to provide the fireworks display.

The successful bidder will be required to provide all shells, equipment, supplies and personnel for the show, along with all permits and licenses required by the City, State or other regulatory authority. Safety glasses or goggles, hearing protection or similar safety protection are to be included.

The successful bidder shall be responsible for all shells and equipment from the time of the arrival of the shells and equipment upon the show location until removal of all shells and equipment from the show location.

The bidders represents that the bidder has at least 3 years' experience in the pyrotechnical industry, and have conducted at least 5 shows of comparable size and scope.

Contractor shall comply with all federal, state and local regulations and with the provisions of the NFPA 1123. Attached is a map of our location for the display to assist in compliance with NFPA 1123.

Contractor shall submit with its bid a Certificate of Insurance and Endorsement as evidence of insurance. Contractor shall provide: public liability insurance coverage of not less than Two Million Dollars (\$2,000,000); motor vehicle liability insurance coverage of not less than One Million Dollars (\$1,000,000); and workers compensation coverage as required by law. These insurance policies and certificates shall further name the City of Murfreesboro as an additional insured for the display.

The show must include the following: an opening rally of fireworks of not less than 30 - 4" inch shells, not less than 35 - 5" inch shells, and not less than 25- 6" inch shells for a minimum total of 75 with a firing time between shells of 1½ to 2 seconds or less; the main body of the fireworks display must have a variety of fireworks of shell sizes not less than 300 - 5" inch shells, and not less than 175 - 6" inch shells for a minimum total of 475; and a grand finale consisting of an additional 250 - 4", 30 - 5" and 24 - 6" fast firing color shells with reports or equal. The body of the show should not be less than 16 to 17 minutes with the finale lasting an additional 1½ minutes. The total show shall be sequenced to run at least twenty-two (22) minutes. These requirements are intended to offer a base, minimum show. Quantities of 4", 5", and 6" shells will be the determining factor in the bid award. Smaller shells (2 ½" and 3") may be added, but will not be considered in the shell count as a determining factor in selection as explained herein.

The bidder will be required to provide secure facilities to store any fireworks up until the time of display. The City of Murfreesboro will not provide facilities for the storage of fireworks.

The location where the fireworks will be shot is on an athletic field in the center of an athletic complex. (See Attachment B) To avoid damage to the facility due to impending inclement weather, early staging or late removal of equipment may be required. Therefore, the main body of the fireworks is to be shot from the bed of a flatbed trailer. If necessary, the finale can be placed on the ground in secured boxes immediately adjacent to the flatbed trailer. Shells may be loaded into the mortars loaded on the trailer on Monday, July 3, 2017. See Attachment B. Bidder shall be responsible for the security of the shells and equipment regardless of the location of such items.

Staging of the flatbed trailer(s) may be scheduled earlier in order to avoid inclement weather and damage to athletic fields where the fireworks will be fired. Removal of the flatbed trailer may also be delayed to avoid damage the athletic fields as well. Additional vehicles will not be allowed if unfavorable weather and turf conditions exist in order to prevent damage to the turf.

On Tuesday morning, July 4th, 2017, after the appropriate interior park street is blocked off, the wiring of the shells to electronic firing device(s) may begin.

All bids must remain open for a period of sixty (60) days from the bid date to enable the City of Murfreesboro to evaluate the bids and to obtain approval of the successful bidder and award the contract by the City Council.

The bidder must attach a descriptive list to the bid submittal of shells, their sizes and the approximate total firing time required in order to produce an approximate twenty-minute fireworks display. The cost for all shells, services of pyrotechnician

transportation, shipping, an electronic firing board and all other related charges and fees shall not exceed Twenty-five Thousand Dollars (\$25,000).

A deposit not to exceed fifty percent (50%) will be paid upon request to the successful bidder before the display is performed. The balance will be paid within thirty (30) days of the successful completion of the display.

All equipment must be removed within 48-hours after completion of the display. Contractor is responsible for the security of any equipment left on the premises. The contractor shall perform an initial sweep and cleaning of debris immediately following the completion of the show so that the interior park street may be opened to traffic flow. Any additional cleanup must be completed after park is cleared. All live shells shall be removed from the site and the area inspected thoroughly before departing the site.
