

# **PRESS BOX JONES COUNTY HIGH SCHOOL**

2023

## **OVERVIEW**

### **1. Project background and description**

The Jones County School System is looking to remove the existing press box at the Jones County High School and replace it with a new press box to meet all State of Georgia Building and Safety Codes.

### **2. Project scope**

The price shall include:

1. Stamped engineered drawings for an 8'0" X 42'0" Press Box
2. Two landing platforms.
3. Covered camera platform will consist of the entire rooftop of press box being covered and safety railing all the way around.
4. Six viewing windows.
5. Stainless steel scoring tables.
6. Two inside dividers.
7. Two interior roof hatches with ladders.
8. Three air conditioners / heaters.
9. Include crane work, delivery and installation of Press Box.

### **3. High-level requirements**

All vendors shall visit site to inspect existing under structure that it meets the requirements of the new press box. If present under structure is deemed unusable, please provide a price option for new under structure.

The new Press Box will include lighting, plug outlets, a/c power hook ups, and breaker box. All electrical requirements dealing with-in the Press Box. The Jones county School System will be responsible for the power hook up from power source to the Press Box.
