Notice is hereby given that the City of Kingman (City) is conducting a Request for Qualifications to retain up to three (3) Contractors (for each of the trades specified above) for a Job Order Contract (JOC) to provide annual services for the City of Kingman. Individual job orders could be up to Two-million dollars (\$2,000,000). This is a "one-step" qualifications-based selection process for Construction Services pursuant to A.R.S. § 34- 601 *et seq.* The initial activity will involve an evaluation and ranking of Contractors' qualifications and experience with similar contracting options through a review and evaluation of qualifying Statements of Qualifications (SOQ). The City, at its sole discretion, may make its determination of the final list and rank of the final list solely on the SOQ review and evaluation. The City may select three (3) to five (5) of the highest ranked Contractors for interviews and make its determination of the final list on the combined results of the SOQ review and evaluation and the interview.

The term of this contract will be two (2) years with three (3) additional one-year renewal options. However, services will be requested on an as-needed and if-needed basis and the resultant contract is neither exclusive nor is there commitment by the City that the Contractor's services will be required. Any work issued via a JOC will be estimated at the time of letting and prices will be negotiated one Contractor at a time. If a price cannot be mutually agreed on, the City may contact another qualified Contractor for pricing. There will be no opportunity to re-open negotiations for the specific project with the previous Contractor.

2. THE CONTRACT: ITS EXECUTION AND INTENT

2.1 The Contract

2.1.1 The documents in the Contract include any amendments, drawings, change orders and approved Contractor submittals.

2.1.2 The Contract comprises the entire agreement between the City and the Contractor concerning the Work and supersedes any prior negotiations, representations or agreements, either written or oral. The Contract may be amended or modified only by an instrument in writing and fully executed by the authorized parties to the Contract.

2.2 Intent of the Contract

2.2.1 The intent of the Contract is to include all labor, materials, equipment, transportation and all other costs and expenses necessary for the proper execution and completion of the Work by the Contractor.

2.2.2 The Contractor shall take no advantage of any apparent error or omission in the plans, estimated quantities or specifications. In the event the Contractor discovers such an error or omission after contract award, the Contractor shall immediately notify the Project Manager. The Project Manager shall then make such corrections and interpretations as may be deemed necessary for fulfilling the intent of the contract.

2.2.3 The Contract shall be construed in accordance with the laws of the State of Arizona, and all such laws regulating the construction of public works by the City are hereby incorporated herein by reference and made a part hereof.

2.2.4 Materials or work described in words, which have a well-known technical or trade meaning, shall be held to refer to such recognized standards.

2.2.5 The organization of the Contract into divisions, sections or articles is merely for the purpose of convenient reference, and neither the headings nor divisions shall have any legal or Contractual significance and shall not control the division of the Work by the Contractor among the various subcontractor or trades.

2.2.6 The Contractor shall include all applicable utility fees, permits, licenses, etc. in each estimate or proposal submitted.

2.3 Execution

2.3.1 Execution of the Contract by the Contractor is a representation that the Contractor has thoroughly examined the Contract.

3. ADMINISTRATION OF THE CONTRACT

3.1 Lines of Authority and Communications

3.1.1 The City Council has overall authority and responsibility for the award and administration of City Contracts. The City Council or their designated Finance Department representative after consultation with the Project Manager has the ultimate authority to resolve disputes concerning Contract performance and to stop the Work whenever such stoppage may be necessary to ensure the proper execution of the Work.

3.1.2 The City Contract Representative (Project Manager) is the designated representative of the particular City department for which the Work is being constructed (the “user department”) or the City department which is responsible for the oversight of the work.

3.1.3 Day-to-day administration of the Contract is the responsibility of the Project Manager. The Project Manager is the City’s representative during the prosecution of the Work and shall act as surveillance and technical advisor for the City. The Project Manager duties are more fully described in Section 3.2 of this Article.

3.1.4 The Contractor shall supervise and direct the Work and shall be solely responsible for, and have control over, construction means, methods, techniques, sequences and procedures, and for coordinating all portions of the Work, unless the Contract gives other specific instructions concerning these matters. The Contractor’s duties and responsibilities are more fully described in Article 4 of these Contract conditions.

3.1.5 Except where the Contract otherwise provides or where direct communication has been specifically authorized, the Contractor shall initially communicate with the Project Manager.

3.2 Project Manager’s General Authority and Responsibilities

3.2.1 Unless the Contractor is responsible for the design of the Work, the Project Manager shall furnish to the Contractor, free of charge unless it is provided otherwise in the Contract, up to three copies of drawings, specifications and instructions available for the execution of the Work. The Project Manager **may** furnish additional clarifications or interpretations in writing or by drawings as may be necessary for the proper progress and execution of the Work. Such additional clarifications and interpretations shall be furnished with reasonable promptness, and the Contractor shall not do work without drawings or written clarifications where needed. All drawings, specifications and copies thereof furnished by the Project Manager are City property. They are not to be used on other work and, with the exception of the signed Contract, are to be returned to the Project Manager at the completion of the Work.

3.2.2 The Project Manager shall make general surveillance of the Work. By making sufficient periodic visits to the site of the Work, the Project Manager will become thoroughly familiar with the progress and quality of completed portions of the Work, and will assess if the Work is being performed in a manner indicating that the Work, when completed, will be in accordance with the Contract.

3.2.3 The Project Manager will decide all questions which may arise as to the quality and acceptability of materials furnished and Work performed and as to the rate of progress of the Work, and all questions which may arise as to the interpretation of the drawings and specifications.

3.2.4 The Project Manager shall have the authority to reject work that is not in conformity with the Contract and to order additional inspections and testing of the Work. The Project Manager's failure during the progress of work to discover or reject materials or work not in accordance with the plans, specifications or contract documents shall not be considered an acceptance of the work or materials or a waiver of defects. Neither the failure of the Project Manager to properly perform inspections, tests or approvals required by the contract documents nor the activities or duties of the Project Manager in the administration of this contract shall relieve the Contractor from the contractor's responsibility for the means, methods, techniques, sequences or scheduling of the construction or the obligation to perform the work in strict accordance with the contract documents.

3.2.5 The Project Manager shall conduct an initial review of, and approve or deny, written Change Orders submitted by the Contractor, and may prepare Change Orders and provide field clarifications and corrections. All Change Orders shall be approved by the City Council or their designee prior to any work being done. However, in emergencies endangering life or property, the Project Manager may act and issue orders which are deemed necessary to avert the loss of life or property.

3.2.6 The Project Manager, pursuant to Article 10 of these General Conditions, shall make recommendations to the Contract Officer as to all claims of the Contractor.

3.2.7 The Project Manager will review and process the Contractor's monthly Estimates for Payment, as more fully set forth in Article 7 of these General Conditions.

3.2.8 The Project Manager will conduct and cause to be conducted inspections to determine the dates of Substantial Completion and Final Completion and will certify such dates to the Contract Officer.

3.2.9 The Project Manager will not have control over or charge of, and will not be responsible for, construction means, methods, techniques, sequences or procedures, or for safety precautions and programs in connection with the Work, since these are solely the Contractor's responsibility.

3.3 Public Inspections

3.3.1 Unless otherwise specifically provided in the Contract, Public Inspectors who perform daily inspections of the Work for compliance with applicable codes will have authority to require compliance with drawings, specifications and applicable codes, and may provide clarification of any unspecified or unclear item or situation.

3.3.2 If the drawings or specifications, laws, ordinances, or any public authority requires any work to be specially tested or approved, the Contractor shall give the Project Manager timely notice of its readiness for inspection. If the inspection is by an individual, authority or entity other than the Project Manager or the Public Inspectors, the Contractor shall advise the Project Manager of the date fixed for such inspection.

3.3.3 All tests, inspections or approvals required to be performed by the Project Manager, Public Inspectors, or other authorities or entities shall not relieve the Contractor of their obligation to perform the Work in accordance with the Contract.

3.4 Special Inspections and Testing of Materials

3.4.1 All equipment and materials used in the construction of the Work, especially those upon which the strength and durability of the structure may depend, will be subject to adequate inspection and testing in accordance with accepted standards, to establish conformance with specifications and suitability for the use intended, as determined by the Project Manager.

3.4.2 The performance of tests and the engagement of testing laboratories or agencies must have the prior approval of the Project Manager. Except as provided in subsection 3.4.3, the City

will pay for approved tests and services rendered by the approved laboratory or agency in addition to the Contract price for construction.

3.4.3 When initial tests indicate that any portion of the Work is not in conformance with the Contract because of faulty workmanship, the Contractor shall be required to pay for necessary re-tests. When initial tests indicate that the work is in conformance with the Contract, any re-testing that's ordered by the City shall be paid for by the City.

4.1.2 The Contractor shall be required to use, for data and dimensions, figures marked on the drawings in reference to what the drawings may measure to scale; but in the absence of figured dimensions, scale dimensions may be used with the prior written concurrence of the Project Manager. The Contractor shall verify all dimensions shown and check all measurements in connection with any present building or buildings, level or grades, walks, driveways or other existing conditions before executing any work. Errors or inconsistencies shall be reported to the Project Manager immediately. **It is the responsibility of the Contractor to provide BLUESTAKE verification of underground utilities on which may impact construction site.**

4.1.5 Notwithstanding the above provisions, if the Contractor is responsible for the design of the Work, the Contractor shall ensure the accuracy and completeness of the drawings, specifications and instructions. Unless the Contract specifically provides otherwise, the Contractor shall be solely responsible for and shall exercise control over construction means, methods, techniques and procedures and shall coordinate the sequences of all portions of the Work.

4.2.2 The Contractor shall ensure that the key personnel submitted in response to the Request for Qualifications and assigned to this Contract are available throughout the term of the Contract. In the event that the Contractor requests substitution of key personnel, the Contractor shall obtain prior approval from the City for key personnel substitution. The Contractor shall ensure that substituted personnel are equally qualified and capable. Information on the qualifications of proposed substitutes shall be provided to the City for its consideration and approval prior to substitution taking place.

4.2.3 The Contractor agrees that it is as fully responsible to the City for the acts and omissions of its subcontractors and of persons, either directly or indirectly employed by the Contractor, as it is for the acts and omissions of persons directly employed by the Contractor.

4.3 Materials and Labor; Warranty

4.3.1 Unless otherwise stipulated, the Contractor shall provide and pay for all materials, labor, equipment, tools, construction equipment and machinery, water, gas, heat, utilities, transportation, and other facilities and services necessary for the execution, completion and delivery of the Work within the specified Completion Time.

4.3.2 The Contractor shall pay all applicable taxes associated with the Work.

4.3.3 The Contractor warrants to the City that all materials and equipment furnished under the Contract will be new unless otherwise specified, and that all of the Work will be of good quality, free from faults and defects and in conformance with the Contract. All Work not conforming to these requirements, including substitutions not properly approved and authorized, may be considered defective.

4.3.4 The Contractor shall furnish all materials required to complete the Work, except those specified to be furnished by the Agency. The Contractor shall receive, inventory, store, inspect, protect, distribute, and install Agency furnished material unless otherwise specified. The cost of handling and placing all materials after they are delivered to the Contractor shall be considered as included in the contract price for the item in connection with which they are used. The Contractor shall be held responsible for all material delivered to the Contractor. Deductions shall be made from any monies due the Contractor to make good any shortages or deficiencies, from any cause whatsoever and for any damage which may occur after such delivery, and for any late delivery charges.

4.3.5 The Contractor will be held to furnish all Work as specified in the Contract. After a price proposal for the Work has been accepted by the City, changes of brand named, trade named, trademarked, patented articles, or any other substitutions will be allowed only by written order signed by the Project Manager. Unless otherwise agreed to via Change Order, the City shall receive all benefits of the difference in costs.

4.3.6 Materials not conforming to the requirements of the specifications, whether in place or not, shall be rejected and shall be promptly removed from the site of the Work, unless otherwise directed by the Project Manager. No rejected material, the defects of which have been corrected, shall be returned to the work site until such time as approval for its use has been given by the Project Manager.

4.4 Construction Schedules and Submittals

4.4.1 Before commencing the Work, the Contractor shall provide the Project Manager with a construction schedule for the Work, fixing the dates at which various pre-determined events shall occur in order to promote a timely completion of the various parts of the Work in accordance with the Contract. The schedule may be revised from time to time as may be required by conditions of the Work, but shall not exceed time limits, or any extensions thereof, set forth in the Contract or in the individual job order, unless approved by the Project Manager as appropriate.

4.4.2 The Contractor shall prepare and keep current for the Project Manager approval, a schedule of submittals which shall be coordinated with the Contractor's construction schedule and allow the Project Manager reasonable time to review such submittals.

- To promptly pay the subcontractor in accordance with applicable State statute.
- That, at all times, the subcontractors' total payments shall be proportionate to the value of the labor and materials provided by them. Payment may be preconditioned upon the subcontractors providing the Contractor with requested significant partial or final lien waivers.
- To pay the subcontractor to such extent as may be provided by the Contract or the subcontract, if either of these provides for earlier or larger payments than the above.
- To ensure timely payment to subcontractors for their work as performed and for materials fixed in place, less any applicable retention, despite any delay by the City in making payments to the Contractor for any cause not the fault of the subcontractor.
- To share or forward, as appropriate, with its subcontractors or, as appropriate, with the City, any fire insurance money received by the Contractor under the insurance provisions of the Contract.

- That no claim for services rendered or materials furnished by the Contractor to the subcontractor shall be valid unless written notice thereof is given by the Contractor to the subcontractor during the first ten (10) days of the calendar month following that in which the claim originated.
- To give the subcontractor an opportunity to be present and to submit evidence in any Contractual claim, controversy or dispute.

5.1.6 Nothing in this Article shall create any obligation on the part of the City to pay to, or to see to the payment of, any sums to any subcontractor, except as may otherwise be required by law.

5.1.7 Each subcontract agreement for a portion of the Work is hereby assignable by the Contractor to the City provided that:

5.1.7.1 Assignment is effective at the sole option of the City and only upon termination of the Contract for cause pursuant to Article 9 of these General Conditions, and only for those subcontract agreements which the City determines to accept by notifying the subcontractor in writing, and

5.1.7.2 Assignment is subject to the prior rights of the surety obligated under the Bonds relating to the Contract.

5.2 Separate Contracts

5.2.1 The City reserves the right to perform construction or operations related to the Work with the City's own forces and to let separate Contracts in connection with other portions of the Work or other construction or operations on the Work site.

5.2.2 The Contractor shall afford other Contractors on the Work site reasonable opportunity for the introduction and storage of their materials and the execution of their work, and shall properly connect and coordinate its work with theirs.

5.2.3 The Project Manager shall coordinate the activities of the City's own forces and of each separate Contractor with the work of the Contractor. The Contractor and all other Contractors on the Work site shall be required to review their construction schedules and cooperate with the Project Manager in coordinating the various portions of the Work with the schedules of such separate contractors.

5.2.4 If any part of the Contractor's work depends, for proper execution or results, upon the work of any other contractor, the Contractor shall inspect and promptly report to the Project Manager any defects in such work that render it unsuitable for continuance of the Contractor's Work. Failure to inspect and report may constitute an acceptance of the other contractor's work as fit and proper for the reception of the Contractor's Work, except as to defects not then reasonably discoverable.

5.2.5 Costs caused by the Contractor because of delays or by improperly timed activities or defective construction shall be borne solely by the Contractor.

5.2.6 If the Contractor causes damage to any separate contractor on the site, the Contractor, upon due notice, agrees to settle with such separate contractor by agreement or arbitration, if he will so settle. If such separate contractor sues the City on account of any damage alleged to have been so sustained, the City shall notify the Contractor, who shall defend such proceedings and, if any judgment against the City arises therefrom, the Contractor shall pay or satisfy it.

5.2.7 Should separate contractors on the Work cause any damage, cost or loss to the Contractor, the City shall not be held responsible or liable therefore in any way other than extensions of completion time in accordance with Article 6 of these General Conditions.

6. TIME FACTORS; LIQUIDATED DAMAGES

6.1 Time

6.1.1 Unless otherwise provided in the Notice to Proceed, the Completion Time is the number of calendar days, including authorized time extensions, specified for completion of the Work.

6.1.2 Completion Time shall commence on the day specified in the Notice to Proceed. The date shall not be postponed on account of the failure of the Contractor, or of any of its subcontractors to take any action required to commence the Work.

6.1.3 The date of Substantial Completion is the date certified by the Project Manager pursuant to Subsection 7.4.1 of Article 7 of these General Conditions. It is expressly agreed that the time for completion is a reasonable time, considering average climatic conditions and usual industrial conditions prevailing in the Kingman area.

6.1.4 The term “day” as used in the Contract shall mean calendar day.

6.1.5 By execution of the Contract documents, or by concurrence with the Notice to Proceed in the case of a job order, the Contractor acknowledges that the time described is a reasonable period for a competent Contractor to complete the Work.

6.1.6 The Contractor shall proceed expeditiously with adequate forces and shall achieve Substantial Completion within the agreed upon time frame. If the Contractor is delayed on any portion of the Work for any reason whatsoever, it shall expeditiously proceed on other portions of the Work which are not affected by such delay.

6.2 Liquidated Damages

6.2.1 Failure to complete on time will result in Liquidated Damages: For each and every calendar day that work shall remain in completed after the time specified for the completion of the work in the proposal, or as adjusted by the Engineer, the sum per calendar day shown in the MAG Table 108-1, unless otherwise specified in the proposal form, may be deducted from monies due to or to become due to the Contractor, not as a forfeit or penalty but as liquidated damages. This sum is fixed and agreed upon between the parties because the actual loss to the Contracting Agency and to the public caused by delay in completion will be impractical and extremely difficult to ascertain and determine. Permitting the Contractor to continue and finish the work or any part of it after the time fixed for its completion, or after the date to which the time fixed for its completion may have been extended, will in no way operate as a waiver on the part of the Contracting Agency of any of its rights under the contract.

TABLE 108-1		
LIQUIDATED DAMAGES		
Original Contract Amount		Daily Charges
From More Than \$	To and Including \$	Calendar or Fixed Date \$
0	25,000	210
25,000	50,000	250
50,000	100,000	280
100,000	500,000	430
500,000	1,000,000	570
1,000,000	2,000,000	710
2,000,000	5,000,000	1,070
5,000,000	10,000,000	1,420
10,000,000	---	1,780

The Contractor has been put on notice that the City shall enforce the liquidated damages set forth in the Contract documents or Notice to Proceed.

6.2.2 The Contractor agrees that the City will incur damages if the Contractor fails to complete the Work within the Completion time or any approved extensions thereof and that the liquidated damages specified in the Contract or, in the case of a job-order, in the Notice to Proceed, represents a fair and equitable approximation of the City's damages.

6.2.4 Each calendar day that the Contractor shall fail to achieve Substantial Completion after the calendar date agreed to for the completion of the Work provided for in the Contract, the sum set forth in the Contract documents will be deducted from any monies due the Contractor, not as penalty, but as liquidated damages; provided however, that due account will be taken of any adjustments of the Completion time for the completion of the work allowed under the Contract.

6.2.5 Permission allowing the Contractor to continue and finish any part of the Work after the time fixed for its completion or after the date to which the time for completion may have been extended shall in no way operate as a waiver on the part of the City of any of its rights under the Contract.

6.2.6 Once substantial completion is granted, the Contractor shall achieve final completion within thirty (30) calendar days, unless otherwise agreed upon. If final completion does not occur within the agreed upon number of days, liquidated damages will commence on the first day after the agreed days, until final completion occurs.

6.3 Delays and Time Extensions

6.3.1 It is agreed that the City's only liability for any delay from any cause shall be limited to granting a time extension to the Contractor and that no extended general conditions for any delay will be applicable unless agreed to by the City. There is no other obligation, express or implied, on the part of the City to the Contractor for delay from any cause.

6.3.2 Force Majeure

Except for payment of sums due, neither party shall be liable to the other nor deemed in default under this Contract if and to the extent that such party's performance of this Contract is prevented by reason of Force Majeure. The term "Force Majeure" means a major occurrence that is beyond the control of the parties affected and occurs without its fault or negligence. Force Majeure shall not include late performance by a sub-contractor unless the delay arises out of a Force Majeure occurrence in accordance with this Force Majeure term and condition.

If either party is delayed at any time in the progress of the work by Force Majeure, the delayed party shall immediately notify the other party in writing of such delay of the commencement thereof, and shall specify the causes of such delay in such notice. Such notice shall be hand-delivered or mailed certified-return receipt and shall make a specific reference to this article, thereby invoking its provisions. The delayed party shall cause such delay to cease as soon as practicable and shall notify the other party in writing when it has done so. The time of completion shall be extended by contract modification for a period of time equal to the time that results or effects of such delay prevent the delayed party from performing in accordance with this Contract.

6.3.3 The completion time shall be extended when delay in completion of the Work by either the Contractor or the subcontractors is due to any preference, priority or allocation order duly issued by the Federal Government.

6.3.4 Time extensions shall only be granted for delays caused by the City, changes authorized in accordance with Article 8 of this agreement, or delays pursuant to sections 6.3.2 and 6.3.3.

6.3.5 Should a dispute arise between the Contractor and the City regarding a delay or time extension, the Contractor shall continue progress on the Work until the dispute is resolved.

7. PAYMENTS TO THE CONTRACTOR

7.1 Contract Price; Request for Payment; Schedule of Values

7.1.1 The Contract amount or coefficient stated in the Contract documents or, in the case of a job order, in the Notice to Proceed, plus or minus any authorized adjustments, is the amount payable by the City to the Contractor for performance of the Work under the Contract or for a specific job order.

7.1.2 During the course of construction, the Contractor shall request payment for work actually performed during the preceding month or some other time period as mutually agreed to, using "ESTIMATE FOR PAYMENT" forms, which are furnished by the City or a Project Manager. A schedule of values and an updated project schedule shall accompany the request for payment.

7.2 Certification and Payment

7.2.1 The City by mutual agreement may make progress payments on Contracts of less than ninety days and shall make monthly progress payments on all other Contracts as provided for in this paragraph. Payment to the Contractor on the basis of a duly certified and approved estimate for payment of the work performed during the preceding calendar month under the Contract may include payment for material and equipment. An estimate of the work submitted shall be deemed approved and certified for payment after seven days from the date of submission unless before that time the City or the City's designee prepares and issues a specific written finding setting forth those items in detail in the estimate of the work that are not approved for payment under the Contract. The City may withhold an amount from the progress payment sufficient to pay the expenses the City reasonably expects to incur in correcting the deficiency set forth in the written finding. The progress payments shall be paid on or before Thirty days after the estimate of the work is certified and approved. The estimate of the work shall be deemed received by the City on submission to any person designated by the City for the submission, review or approval of the estimate of the work.

7.2.2 On completion and acceptance of each separate building, public work or other division of the Contract on which the price is stated separately in the Contract, except as qualified in paragraph 7.2.5, payment may be made in full, less authorized deductions. In preparing estimates, the material and equipment delivered on the site to be incorporated in the job shall be taken into consideration in determining the estimated value by the architect, engineer or other person, as specified in the Contract.

7.2.3 The Contractor shall pay to the Contractor's subcontractors or material suppliers and each subcontractor shall pay to the subcontractor's subcontractor or material supplier, within seven days of receipt of each progress payment, unless otherwise agreed in writing by the parties, the respective amounts allowed the Contractor or subcontractor on account of the work performed by the subcontractors, to the extent of each subcontractor's interest, except that no Contract for construction services may materially alter the rights of any Contractor, subcontractor or material supplier to receive prompt and timely payment as provided under this section. The payments to subcontractors or material suppliers shall be based on payments received pursuant to this section. Any diversion by the Contractor or subcontractor of payments received for work performed on a Contract, or failure to reasonably account for the application or use of those payments, constitutes grounds for disciplinary action by the Registrar of Contractors. The subcontractor or material supplier shall notify the Registrar of Contractors and the City in writing of any payment less than the amount or percentage approved for the class or item of work as set forth in this section.

7.2.4 A subcontractor may notify the City in writing requesting that the subcontractor be notified by the City in writing within five days from payment of each progress payment made to the Contractor. The subcontractor's request remains in effect for the duration of the subcontractor's work on the project.

7.2.5. Nothing in this section prevents the Contractor or subcontractor, at the time of application and certification to the City or Contractor, from withholding the application and certification to the City or Contractor for payment to the subcontractor or material supplier for unsatisfactory job progress, defective construction work or materials not remedied, disputed work or materials, third party claims filed or reasonable evidence that a claim will be filed, failure of a subcontractor to make timely payments for labor, equipment and materials, damage to the Contractor or another subcontractor, reasonable evidence that the subcontract cannot be completed for the unpaid balance of the subcontract sum or a reasonable amount for retention.

7.2.6 If any payment to a Contractor is delayed after the date due interest shall be paid at the rate of one per cent per month or fraction of a month on the unpaid balance as may be due.

7.2.7 If any periodic or final payment to a subcontractor is delayed by more than seven (7) days after receipt of the periodic or final payment by the Contractor or subcontractor, the Contractor or subcontractor shall pay the subcontractor or material supplier interest, beginning on the eighth day, at the rate of one per cent per month or fraction of a month on the unpaid balance as may be due.

7.2.8 Notwithstanding anything to the contrary in this section, this section applies only to amounts payable in a construction services Contract for construction and does not apply to amounts payable in a construction services Contract for design services, preconstruction services, finance services, maintenance services, operations services and other related services.

7.2.9 The Project Manager, with reasonable dispatch, will review the contents of the ESTIMATE FOR PAYMENT submitted by the Contractor, determine the sufficiency of the estimate, satisfy himself that the City has received full value, certify the estimate and submit it through normal channels for payment.

7.2.10 Neither the certification nor payment made to the Contractor, nor partial or entire use or occupancy of the Work by the City shall constitute an acceptance of any portion of the Work.

7.3 Payment Withheld

7.3.1 If the Project Manager is unable to certify a request for payment in whole or in part because, after observing the Work and the data comprising the ESTIMATE FOR PAYMENT, the Project Manager determines that the Work has not progressed or the quality of the Work is not in accordance with the Contract, the Project Manager shall promptly notify the Contractor. If the Project Manager and the Contractor cannot agree on a revised amount, the Project Manager will promptly issue a certificate for payment in an amount they determine is justified.

7.3.2 The Project Manager or other City official, as a result of subsequently discovered evidence, may also withhold or nullify the whole or a part of any certification to such extent as may be necessary to protect the City from loss on account of:

- .1** Defective work not remedied.
- .2** Third party claims filed or reasonable evidence indicating probable filing of such claims.
- .3** Failure of the Contractor to make payments properly to subcontractors or for labor, materials, or equipment.
- .4** Reasonable doubt that the Work can be completed for the unpaid balance of the Contract amount, or reasonable evidence that the Work will not be completed within the Completion time and that the unpaid balance would not be adequate to cover actual or liquidated damages for the anticipated delay.
- .5** Damage to another contractor or to the City.

- .6 Damage to the real or personal property of another and failure to repair or replace the same.
- .7 Persistent failure to carry out the Work in accordance with the Contract.

7.3.3 When the grounds for withholding payment have been corrected to the satisfaction of the Project Manager or other City official concerned, the City shall proceed to process any amounts due.

7.4 Substantial Completion

7.4.1 When the Contractor considers that the Work, or a portion thereof which the City has agreed to accept separately, is ready for its intended use, it shall notify the Project Manager in writing that the Work, or the agreed upon portion thereof, is substantially complete and request the Project Manager to issue a Certificate of Substantial Completion. Within a reasonable time thereafter, the Project Manager will inspect the Work, or the designated portion thereof, to determine the status of completion. If the inspection discloses any item that is not in accordance with the Contract, the Contractor shall, before issuance of the Certificate of Substantial Completion, complete or correct such item. The Contractor shall then submit a request for a re-inspection by the Project Manager. When the Work or designated portion thereof is determined to be substantially complete, the Project Manager will prepare a Certificate of Substantial Completion for signature of the parties, fixing therein the date of Substantial Completion and establishing the responsibilities of the City and Contractor, pending final payment by the City, for security, maintenance, utilities, damage to the Work, and insurance, and shall fix the time within which the Contractor shall finish all items on the punch list attached to the certificate.

7.4.2 Warranties required by the Contract shall commence on the date of Final Completion for a period of two years, except where a specific provision of the Contract provides otherwise.

7.5 Final Completion and Final Payment

7.5.1 Upon receipt of notice from the Contractor that the Work is ready for final inspection and upon receipt of a request for final payment, the Project Manager will determine that all items on the punch list have been completed or corrected and the City will make payment for such work or portion thereof as provided for in the Contract.

7.6 Consent of Surety/ Lien Waivers and As-Built Drawings

7.6.1 Final payment shall become due when the Contractor provides to the Contract Officer a Consent of Surety Certificate from their bonding company, or lien waivers, at the Contract Officer's discretion and all completed as-built drawings.

7.7 Partial Utilization

7.7.1 The City may occupy or use any portion of the Work which the City and the Contractor agree constitutes a separately functioning and usable part of the Work that can be used by the City without significant interference with the Contractor's performance of the remainder of the Work. Such use or occupancy may commence whether or not the portion is substantially complete, provided the City and the Contractor have accepted in writing their mutual responsibilities regarding the used portion, including but not limited to insurance coverage, maintenance and utilities.

7.7.2 Partial use or occupancy of the Work by the City shall not constitute acceptance of Work not complying with the requirements of the Contract.

8. UNCOVERING AND CORRECTION OF WORK; CHANGES IN THE WORK

8.1 Uncovering of Work

8.1.1 Piping, wiring, ducts, etc., shall not be covered up before proper inspection, approval and certificates, if required, are issued. Should any work that is designated for inspection by the Project Manager or the Contract before covering is covered before such inspection, it must be uncovered by the Contractor at their expense when examination is ordered by the Project Manager.

8.1.2 If a portion of the Work not designated by the Project Manager or the Contract for inspection has been covered and the Project Manager or a Public Inspector orders such work uncovered for inspection, the Contractor shall immediately uncover such work. If such uncovered work is found to be in accordance with the Contract, an appropriate Change Order shall be issued to compensate the Contractor for the expense of uncovering and replacing the work. If such work is found to be not in compliance with the Contract, the Contractor shall pay such costs, unless the condition was caused by the City or a separate Contractor.

8.1.3 The City shall not be responsible for or bear the cost of any re-examination and replacement occasioned by defects in the work caused by subcontractors.

8.2 Correction of Work

8.2.1 Correction of Work Before Final Payment: The Contractor shall promptly remove from the site of the Work all materials and/or associated portions of the Work rejected by the Project Manager as failing to conform to the Contract, whether incorporated or not, and the Contractor shall promptly replace and re-execute the Work in accordance with the Contract, without expense to the City, and shall bear the expense of making good the work of other contractors destroyed or damaged by such removal or replacement. If the Contractor does not remove such rejected Work and/or materials within a reasonable time, fixed by written notice, the City may remove it and may store the materials at the expense of the Contractor.

8.2.2 Should the Contractor fail to repair such defective material and/or workmanship or to make replacements within five (5) calendar days after written notice by the City, it is agreed that the City may, at its sole discretion, make such repairs and replacements and the actual cost of the required labor and materials shall be chargeable to and payable by the Contractor or his surety.

8.3 Changes in the Work

8.3.1 The Project Manager may order extra work or make changes by altering, adding to or deducting from the Work, the Contract price being adjusted accordingly by Change Order without invalidating the Contract. All such work shall be executed under the conditions of the original Contract except that any claim for extension of time caused thereby shall be adjusted at the time of ordering such change.

8.3.2 If, instead of requiring corrections or removal of Work not conforming to the requirements of the contract, the Work is determined to be acceptable with diminished value in the sole judgment of the Project Manager, a change order shall be issued incorporating the necessary revisions in the contract, including an appropriate reduction in the contract price. Such a change order does not require the signature or approval of the Contractor. Such acceptance of non-conforming Work shall not constitute a waiver of any other work required under this contract.

8.3.3 The value of any extra work or change ordered under the Contract shall be determined in one or more of the following ways:

- By estimate and acceptance in a lump sum.

- By unit prices in the Contract or subsequently agreed upon prices.
- By a fixed fee.

9. SUSPENSION OR TERMINATION OF THE WORK

9.1 Suspension of the Work for Cause; City's Right to Perform the Work

9.1.1 If the Contractor fails to correct Work which is not in accordance with the Contract, or persistently fails to carry out the Work in accordance with the Contract, the Contract Officer, after consultation with the Project Manager, may order the Contractor in writing to stop the Work, or any portion of the Work, until the cause for such order has been eliminated.

9.1.2 If the Contractor fails to prosecute the Work properly or fails to perform any provision of this Contract, the City may, five (5) days after written notice to the Contractor, and without prejudice to any other remedy the City may have, make good such deficiencies and may deduct the cost thereof from the payment then or thereafter due the Contractor. If payments then or thereafter due the Contractor are not sufficient to cover such amounts, the Contractor and its surety shall be liable to the City for such deficiency.

9.2 Termination by the City for Cause

9.2.1 The City, upon certification by the Project Manager, without prejudice to any other right or remedy of the City and after giving the Contractor seven (7) days written notice, may terminate this Contract as to all or any part of the Work for any of the following reasons:

- If the Contractor abandons the Work, or unnecessarily delays the Work.
- If the Contractor should persistently or repeatedly refuse or fail to supply enough properly skilled workers or proper materials or competent subcontractor.
- If the Contractor fails to make payment to subcontractor for materials or labor in accordance with the respective agreements between the Contractor and the subcontractor or as expressly set forth herein.
- If the Contractor persistently disregards laws, ordinances, or rules, regulations or orders of a public authority having jurisdiction, or persistently violates the conditions or covenants of this Contract.
- If the Contractor should be adjudged bankrupt.
- If the Contractor should make a general assignment for the benefit of its creditors or if a receiver should be appointed on account of its insolvency.
- If the Contractor is otherwise in substantial breach of a provision of the Contract as determined by the City.

9.2.2 Upon termination of the Contract for any of the above reasons, the City, subject to any prior rights of the surety, may:

- Take possession of the Work and of all materials, equipment, tools, and construction equipment and machinery at the Work site or adjacent thereto belonging to the Contractor.
- Accept assignment of subcontracts pursuant to Subsection 5.1.8 of Article 5 of these General Conditions.

- Finish the Work by whatever reasonable method the City may deem expedient. In completing the Work by a new contractor or by doing the Work itself, the City may use such equipment, materials, supplies, machinery, implements, tools and plant of the Contractor in the City's possession and may make all necessary repairs and replacements thereto.

9.2.3 If the City terminates the Contract for one of the reasons stated in Subsection 9.2.1, the Contractor shall not be entitled to receive any further payment.

9.2.4 The cost of fully completing the Work provided for under any new contract shall include the sum or sums of money to be paid by the City to other Contractors, all costs of repairs and replacements of machinery, implements, tools and plant of the Contractor hereunder, and also all sums of money paid for additional management and administrative services, including but not limited to the cost of the Project Manager's additional services and added expenses made necessary by the termination of the Contract.

9.2.5 If the unpaid balance of the Contract price exceeds costs of finishing the Work, such excess may, at the City's discretion, be paid to the Contractor. If such costs exceed the unpaid balance, the City may sell all materials, supplies, machinery, implements, tools and plant of the Contractor's then on hand, at public sale, on giving the Contractor twenty (20) days' notice of the time and place of such sale, and the net proceeds derived from the sale of said property shall be applied against such costs. Should the amount received from the sale be insufficient to pay such deficiency, the Contractor and its surety shall be liable to pay the amount of the deficiency.

9.3 Suspension by the City for Convenience

9.3.1 The City may, without cause, order the Contractor in writing to suspend or interrupt the Work in whole or in part for such period of time as the City may determine whenever such suspension or interruption would be in the best interest of the City.

9.3.2 If the City suspends the Work for convenience, an adjustment shall be made for substantiated increases in the cost of performance of the Contract, if any, including profit on the increased cost of performance, caused by suspension or interruption. No adjustment shall be made to the extent:

- That performance is, was or would have been so suspended or interrupted by another cause for which the Contractor is responsible, or
- That an equitable adjustment is made or denied by the City.

9.4 Termination by the City for Convenience

9.4.1 The performance of the Work under this Contract may be terminated by the City, in whole or in part, in accordance with this clause whenever the City reasonably determines that such termination is in the best interest of the City. Any such termination shall be affected by delivery to the Contractor of a written Notice of Termination specifying the extent to which performance of the Work is terminated, and the date upon which such termination becomes effective.

9.4.2 If the Contract is terminated by the City as provided herein, the Contractor shall receive compensation for any Work performed and accepted, together with profit in proportion to the Work performed and accepted. The compensation shall include payment for contractual obligations reasonably incurred prior to termination. No amount shall be allowed for anticipated profit on unperformed Work.

9.4.3 In the event the City terminates the Work, in whole or in part, for cause pursuant to Section 9.2 of this Article 9 and the termination is later deemed to be unjustified, then such

termination shall be automatically deemed a termination for convenience and the provisions of this Section 9.4 shall apply.

9.4.4 Termination of the Contract or portion thereof by the City for convenience shall not relieve the Contractor of their contractual responsibilities for the Work completed, nor shall it relieve the surety of its obligation for and concerning any just claim arising out of the Work completed.

9.5 Contractor's Right to Terminate Contract

9.5.1 The Contractor may terminate the Contract for any of the following reasons:

- If the Work should be stopped under an order of any court of competent jurisdiction or other public authority for a period in excess of one (1) month through no act or fault of the Contractor or of anyone directly or indirectly employed by him.
- If the City has failed to pay the Contractor within sixty (60) days after the date when any sum is certified for payment by the Project Manager, or
- If repeated suspensions or interruptions ordered by the City pursuant to Section 9.3 total in the aggregate more than one-hundred percent (100%) of the total number of days scheduled for completion, or one hundred twenty (120) days in any three hundred sixty-five (365) day period, whichever is less.

9.5.2 If one of the above reasons exists, the Contractor may, upon seven (7) additional days, written notice to the Project Manager, stop Work and terminate the Contract and recover payment from the City for all Work executed and accepted by the City and any loss sustained upon any plant or materials and reasonable profit and damages.

10. CLAIMS AND DISPUTES

10.1 Project Manager's Resolution of Claims and Disputes; Review by Contract Officer

10.1.1 This Article relates to claims for additional compensation and any other differences between the parties arising under and by virtue of the Contract. Such claims are to be resolved at the earliest possible time and at the first responsible level so as to increase the possibility that such matters will be resolved without the vexation of an administrative hearing process, arbitration or litigation.

10.1.2 All claims, including but not limited to, claims relating to adjustments or interpretations of the Contract, payments of money, or other relief with respect to the terms of the Contract, shall be referred initially in writing to the Project Manager for action. The responsibility to substantiate claims shall rest with the party making the claim.

10.1.3 Claims by either party must be made within twenty-one (21) days after the event giving rise to the claim or within twenty-one (21) days after the claimant first becomes aware of the condition giving rise to the claim, whichever is later.

10.1.4 Pending final resolution of a claim, the Contractor shall proceed diligently with performance of the Contract and the City shall continue to make payments in accordance with the Contract.

10.1.5 The Project Manager shall, within twenty-one (21) days of receipt of a claim, issue one of the following:

- Issue a decision either rejecting or approving the claim.

- Suggest an equitable compromise of the claim.
- Provide a schedule to the Contractor indicating when they expect to be able to take action, which shall be within a reasonable time.

10.1.6 The Project Manager may require the submission of additional documentation from the Contractor to facilitate a decision.

10.1.7 The Contractor shall have ten (10) days from the date of the Project Manager's final decision rejecting or approving a claim, or suggesting a compromise, within which to accept or object to the decision. Failure of the Contractor to accept or object to the decision in writing within such ten (10) day period shall be deemed an acceptance of the decision. If the Contractor rejects the decision of the Project Manager in writing within such ten (10) day period, the matter shall be referred to the Contract Officer for de novo review.

10.1.8 The Contract Officer shall have sixty (60) days from receipt of a written objection by the Contractor to the Project Manager's final decision, or such longer period as the parties may stipulate in writing, to review the matter and issue a response. During such period, the Contract Officer may require such additional documentation or testimony as deemed necessary to support his/her response.

11. MISCELLANEOUS PROVISIONS

11.1 Governing Law

11.1.1 The Contract shall be governed and construed according to the laws of the Kingman City Code and the State of Arizona.

11.2 Written Notice

11.2.1 Written notice shall be deemed to have been duly served if delivered in person to the individual or a member of the firm or entity or to an officer of the corporation for which it was intended, or if delivered at or sent by registered or certified mail to the last known business address known to the party giving notice.

11.3 Conflict of Interest

11.3.1 The City shall also have the right to terminate this Contract pursuant to the conflict-of-interest provisions of A.R.S. Sec. 38-511 and to exercise any and all remedies provided in such statute. The City may cancel this Contract if any person significantly involved in negotiating, drafting, securing or obtaining this Contract for or on behalf of the City of Kingman becomes an employee in any capacity of any other party or a consultant to any other party with reference to the subject matter of this Contract.

11.4 Contractor

11.4.1 It is clearly understood that each party shall act in its individual capacity and not as an agent, employee, partner, joint venture, or associate of the other. An employee or agent of one party shall not be deemed or construed to be the employee or agent of the other party for any purpose whatsoever.
