REQUEST FOR PROPOSALS (RFP)

BID NUMBER: 22-025

ISSUE DATE: Friday, April 22, 2022

OPENING DATE: Wednesday, May 11, 2022

OPENING TIME: 3:00 PM (ET)

Bid Opening Location: Georgetown County Courthouse, Suite #239, (Purchasing Conference Rm)

Pre-Bid Site Inspection: [By Prior Appointment Only]

PROCUREMENT FOR: Professional Fleet Repair & Maintenance

All bids must be submitted electronically through the Purchasing Department's Vendor Registry webpage. Please click on the following link <http://www.georgetowncountysc.org/172/Purchasing> for instructions on how to submit bids electronically through this system. As always, emailed/faxed bids will not be accepted. Your bid must be submitted electronically through Georgetown County's Purchasing Vendor Registry page to ensure it remains sealed until the scheduled bid opening date and time.

Any scheduled bid openings will still be opened at the designated date and time as listed in the bid document or related addendum. However, at the time of this bid issuance, these bid openings may be conducted virtually, in-person, or by a hybrid method (both virtually and in person). See the timeline on page 3 for location and method specified. As always, bid openings will be accompanied by at least one witness and bid tabulation results will be posted online for the public's viewing after the bid opening.

Purchasing Contacts: Nancy Silver
Phone: 843-545-3076
Fax: 843-545-3500
E-mail: nsilver@gtcounty.org

This solicitation does not commit Georgetown County to award a contract, to pay any cost incurred in the preparation of the bid, or to procure or contract for goods or services. It is the responsibility of each bidder to see that they submit their bids on or before, the date and time specified for the bid opening. No bid will be accepted thereafter. Georgetown County reserves the right to reject any or all bids and to waive any informalities and technicalities in the bid process.

RFP #22-025
Professional Fleet Repair & Maintenance
Requirements and Specifications

The County of Georgetown, SC is soliciting sealed proposals to provide a continuation of the existing Professional Fleet Repair and Maintenance Operation. The contractor will be responsible for providing preventive maintenance, repair, and reporting for the County’s fleet of vehicles and equipment, and performing related responsibilities.

Georgetown County reached an estimated population of 63,404 in 2020 according to the U.S. Department of the Census, with a land area of 813.55 square miles. The County is governed by a Council–Administrator form of government.

Independent Voluntary Facility Site Visits:

Inspection of the County’s existing maintenance facility will be conducted by prior appointment only. Requests must be coordinated with the purchasing office per the contact on page one (1). The County will schedule site inspections through the close of business on **Wednesday, May 4, 2022**. The Fleet Maintenance Facility is located at 2210 Browns Ferry Road in Georgetown, SC 29440.

SITE INSPECTION OF FACILITIES:

- 1) The bidder is expected to have become familiar with and take into consideration, site conditions which may affect the work and to verify all dimensions and facilities. The bidder shall examine the premises and the site and compare them with any applicable drawings and specifications.
- 2) Each bidder shall acquaint themselves thoroughly as to the character and nature of the work to be done. Each bidder furthermore shall make a careful examination of the site of the work and inform themselves fully as to the difficulties to be encountered in performance of the work, the facilities for delivering, storing and placing materials and equipment and other conditions relating to construction and labor.
- 3) No plea of ignorance of conditions that exist or may hereafter exist on the site of the work, or difficulties that may be encountered in the execution of the work, as a result of failure to make necessary investigations and examinations, will be accepted as an excuse for any failure or omission on the part of the Contractor to fulfill in every detail all the requirements of the contract documents and to complete the work for the consideration set forth therein, or as a basis for any claim whatsoever.

- 4) Insofar as possible, the Contractor, in carrying out his/her work, must employ such methods or means as will not cause interruption of or interference with the work of any other Contractor, or County personnel at the site.

BACKGROUND

The County of Georgetown currently operates a fleet of 568 units, which includes vehicles and pieces of off- road equipment, when including attachments and subcomponents the County's total fleet is 606 assets. Below is a summary of equipment by asset type classification, for specifics and details about each unit, see Attachment B. The Public Services Department is responsible for rolling stock asset and operation management.

The maintenance of the fleet is currently performed at a central maintenance garage facility within the County of Georgetown by **First Vehicle Services**. The current contract will expire on June 30, 2022. This approach to equipment maintenance is in effect for all County vehicles and equipment.

COUNTY'S INTENT

It is the intent of the County of Georgetown to procure the services of an experienced Contractor who will assume responsibility for the management of the County's fleet preventive maintenance and repair operation, acquire the County's current useable parts inventory and continue to manage the inventory for the County's fleet maintenance and repair, and to perform other functions routinely associated with the efficient management of the County's fleet.

The goals of this solicitation include:

- Reduced overall fleet maintenance cost.
- Improved vehicle and equipment availability.
- Increased overall fleet operating efficiencies including a reduction in capital expenditures for fleet assets.
- Improved services offered to the County's departments using fleet vehicles by enhancing the professionalism of the total fleet function..

The County is particularly interested in the following maintenance performance:

- Car and light truck availability.
- Sheriff, EMS, Fire and other essential vehicle availability.
- Medium and Heavy Construction equipment.
- Preventative Maintenance (PM) scheduling and completion performance.
- Unscheduled repair performance.
- Parts availability.
- Quality of work.
- Road call performance; 24-hours a day, 7-days a week.

The Contractor will purchase and manage all of the active, useable, and non-obsolete parts inventory. Purchase of such parts inventory may be made in equal installments over the first 12 months of the Contract. The Contractor will assist the County with disposal of the inactive, excess and obsolete automotive parts in the County stock, with complete proceeds from the sale of excess and obsolete parts being credited to the County.

The County will pay for actual services received. The Contractor will be required to designate an hourly rate for actual service on the attached Labor Cost Proposal Form.

Substantial deviations from the minimum requirements of this RFP and the Statement of Work may cause disqualification from further consideration at the discretion of the County.

1. SCOPE OF WORK

The Contractor shall provide scheduled preventive maintenance, remedial repairs, towing, parts inventory acquisition and management, and other associated fleet management services required to ensure the continuity of effective and economical operation of the County vehicles and equipment.

Alternate 1: Additionally, the Contractor shall provide scheduled preventive maintenance, remedial repairs, parts inventory acquisition and management, and other associated management services, excluding annual load testing for County Emergency Generators, see attachment C.

Alternate 2: Additionally, the Contractor shall provide scheduled preventive maintenance, remedial repairs, parts inventory acquisition and management, and other associated management services for stationary recycling equipment, see attachment D.

The Contractor will furnish all necessary supervision, labor, parts, supplies and sub-contract work required to maintain the fleet in a state-of-repair and service consistent with generally accepted industry fleet practices and as more specifically defined in this RFP. The Contractor will effectively manage the fleet assets of the County and implement a life-cycle costing program for the County's fleet management.

The Contractor must provide and maintain a permanent, detailed, automated real-time record system (see sections FMIS & Reporting) for each vehicle and vehicle category in order to provide a basis for optimum fleet management and provide detailed maintenance and operating information to the County as a digital export on a daily basis.

2. DEFINITIONS

Where the following terms occur herein, the intent and meaning shall be as follows:

2.1. Capitalization Repair

A repair performed on a vehicle that is beyond its useful life as defined by good fleet management practice as defined herein and which extends the useful life of the Unit by one or more years.

2.2. Contract

Contract shall mean an agreement executed by the County and the Contractor for the performance of the work and services, and the furnishing of materials or equipment, or both, as set forth in this Request for Proposal. Any contractual changes shall be made through the County's Purchasing Officer as a written amendment to the original contract.

2.3. County Manager

The County Administrator has designated the Director of Public Services to represent the County in connection with all work, responsibilities and obligations under this Contract, including, but not limited to coordination with the Contractor's representative regarding priority of repairs and maintenance and purchasing of equipment.

2.4. Contractor

Contractor shall mean the individual, partnership, or corporation (or legally authorized representative if the context so requires) who or which agrees, for a stipulated sum, to perform the work or service, or to furnish materials or equipment, or both, as set forth in a contract with the County of Georgetown, State of South Carolina.

2.5. County

Shall mean GEORGETOWN COUNTY, SOUTH CAROLINA, or its authorized and legal representative, including, but not limited to, its County Manager.

2.6. Downtime

Downtime shall mean the percentage of time a piece of equipment is unavailable for use due to a need for

repair or preventive maintenance work. Downtime is calculated as follows:

Number of hours unit is not available for use, divided by
24 Hours per Day (Emergency Vehicles) over a 365 day period.

Number of hours unit is not available for use, divided by
8 Hours per Day (Non-Emergency Vehicles) over a 281 day period.

Downtime begins when a Unit is brought to the garage for authorized repair work, or upon receipt of notification that a Unit requires towing to the garage for authorized repair work. For heavy equipment in the field, downtime begins when the Contractor is notified of a breakdown.

Downtime ends when the Unit is fully operational, available for use, and the department to which the Unit is assigned is notified that the Unit is available for service. Downtime does not include the time to make repairs necessary as a result of vehicle abuse, accidents, warranty, vandalism, or Acts of God.

2.7. Fire Apparatus and Ambulance Preventative Maintenance Program

Fire Apparatus and Ambulance PM services will be administered based on a recommended annual schedule using manufacturer's recommendations and national standards (National Fire Protection Association-NFPA #1911, 2007 or most recent version). Due to the Fire Department's mission- critical emergency response priority needs, front line fire apparatus and ambulances should not be in for PM services for more than one day.

2.8. Fleet

Fleet shall mean all of the units listed in Appendix G, as well as units that may be added to or deleted from the County fleet, subject to agreement by the Contractor.

2.9. Good Fleet Management Practice

Shall mean that fleet management practice generally recognized as the standard by fleet operators for obtaining the optimal economic and functional utility from fleet Units during an optimum period of retention such as the American Public Works Association (APWA) vehicle life expectancies or other agreed upon industry standard to include Georgetown County RFP and to situations where low usage and good user maintenance practice has reasonably extended the life of the equipment. The County currently utilizes the standard of APWA life, plus one additional year.

2.10. Performance Bond

Performance Bond shall mean the security approved by the County and furnished by the Contractor as a guarantee that the Contractor will execute the work in and will pay all lawful claims in accordance with the terms of the Contract.

2.11. Surety

Surety shall mean the party who is bound with and for the Contractor to ensure the payment of all lawful debts pertaining to and for the acceptable performance of the Contract.

2.12. Unit

The term Unit, when used herein, shall be the heavy and light equipment, trucks, cars and other vehicles listed in appendix G.

3. COUNTY PROVIDED FACILITIES & SERVICES TO CONTRACTOR

Work will be performed at the County's vehicle shop facility located at 2210 Browns Ferry Road in Georgetown, South Carolina. Such facility and the equipment provided within will remain the property

of the County, and will be leased to the operator for the sum of one dollar (\$1) per year, including such vehicles identified as provided for mobile fleet maintenance and detailed herein.

3.1. Use of Facilities

County will provide Fleet Maintenance Facilities, including utilities and parking areas, located at 2210 Browns Ferry Road in Georgetown, SC 29440.

3.1.1.

In addition to the consideration paid by the County, the Contractor shall be allowed to use the facilities identified herein for its own repair services, provided all work on County fleet and property shall be a priority. In the event that the facilities are being used by Contractor for services other than County, they will be cleared and County services completed prior to the additional uses.

3.1.2.

Work is to be performed at the Facility, which will be provided to Contractor for its use during the term of this Contract.

3.1.3.

The Facility shall remain the property of County. County shall be responsible for utility costs and for all necessary repairs, maintenance (excluding light housekeeping, janitorial cleaning and supplies), permits, inspections, certifications, renovations and replacements to the Facility and all systems and components thereof.

3.1.4.

Contractor will employ energy conservation practices that meet Fleet Industry best practices and County of Georgetown facility guidelines.

3.1.5.

The County (owner) will supply utilities to include gas, water and electricity at no cost to the Contractor. Owner will also provide local telephone service on the County network, and fiber-optic high speed internet availability. Only long-distance phone calls associated with the management and maintenance of vehicles may be included in the contractor's target cost.

3.2. Facilities

Contractor agrees to accept the County facilities in "as is" condition.

3.3. Facility Maintenance and Repair

Maintenance and repair of real property facilities will be accomplished by the County.

3.3.1.

Contractor's General Manager shall be designated as the building manager. General Manager shall identify routine maintenance and services and submit work orders to the County through the County Manager or designee. Maintenance beyond normal "wear and tear" shall be the responsibility of the Contractor.

3.3.2.

The Contractor shall be responsible for cleaning supplies. Interior housekeeping and janitorial maintenance labor will be provided by the Detention Center inmates, provided laborers are available per Sheriff Department.. The above-mentioned routine facility maintenance costs shall be included in the target cost.

3.4. Facility Inspection

Within 10 (ten) days of contract award, the County will schedule with Contractor a joint inspection of all facilities for the purpose of identifying and documenting the utility systems and other assets to which the Contractor will have access during the course of the agreement period.

3.4.1.

Contractor and the County will together make a complete and systematic inspection and inventory of all structural, mechanical, electrical and utility systems, equipment and furniture.

3.4.2.

Contractor will prepare and submit to the County a condition report describing all observed deficiencies pertaining to the building structures, systems, equipment or other assets noted during the joint inspection. This report shall be submitted not later than 5 (five) business days after the joint inspection.

3.4.3.

The joint inspection will be repeated annually and a report noting any new deficiencies will be delivered to the County each year. County will determine the appropriate action to take in response to deficiencies identified.

3.4.4.

The Contractor will perform, at Contractor's cost, an environmental inspection of the facility prior to contract commencement. All results of the required environmental inspection will be reported to the County when available.

3.5. Shop Equipment

The contractor shall be responsible for repair, update, and maintenance of shop equipment including the following: engine analyzer, a/c recycling machine, computer and spin balance equipment, hydraulic press, welders, jacks, lifts, hoists, truck and car tire mounting machines, battery chargers, battery analyzer, and any other specialized equipment. The contractor shall maintain a parts washer, including maintaining washer fluid and the proper disposal of fluid.

When and if the County installs electric vehicle charging station(s), the contractor will be responsible for the repair, update and maintenance of stations.

Normal wear, repair, update, & maintenance shall be included in the target cost.

3.6. Shop Equipment Accountability

Thirty (30) days prior to completion of the contract, a joint inventory of shop equipment shall be conducted by the Contractor and a County representative. Contractor shall be liable for loss or damage to County-furnished installed shop equipment beyond fair wear and tear. Compensation shall be affected either by reduced amounts owed to the Contractor or by direct payment from the Contractor, the method to be determined by the County Manager.

3.6.1.

All shop equipment in need of repairs/maintenance shall be repaired or maintained by the Contractor within thirty (30) days of discovery, but before the joint inventory is made. All repairs/maintenance not performed by the Contractor shall be made at the County's option and at the Contractor's expense.

3.6.2.

In the case of damaged shop equipment, the amount of compensation due the County by the Contractor

shall be actual cost of repair, provided such amount does not exceed the economic value. In the case of loss or damage beyond economical repair to equipment, the amount of the Contractor's liability shall be the depreciated replacement value of the item to be determined by the County Manager.

3.6.3.

All equipment added during the term of the Contract, and approved by the County prior to acquisition, will become the property of the County. The cost of special equipment purchase or lease, if approved by the County, shall not be included in the cost target and will be billed to the County with the monthly invoice. The County may establish an amortization schedule for major equipment purchases whereby the Contractor will invoice only the scheduled amount monthly, if mutually agreed to by the Contractor. The County shall be responsible for replacement of such equipment at the end of its useful life as otherwise necessary. Facility repair work is not included in the target cost.

3.7. **Grounds Maintenance**

County will provide maintenance and repair of roads, walks, parking areas, and designated drainage areas.

3.8. **Hours of Service**

3.8.1. **Normal Business hours**

The shop(s) shall normally be open from 7:00 A.M. to 5:00 P.M. Eastern Time. Vehicles and equipment shall be accepted for service during these hours of operation. The contractor shall provide a procedure, to be approved by the County, for after-hour drop-off of vehicles and equipment.

3.8.2. **County Holidays**

The shop shall be open and operating every scheduled County workday. The Contractor will observe holidays in accordance with the County's holiday schedule. The Contractor may work on scheduled holidays, but must not expect delivery of vehicles scheduled for PM or other maintenance services.

3.8.3. **On-Call Hours**

The shop shall provide a contact number for departments that operate outside of normal business hours. The contractor shall be able to provide for quick-fix, small repairs, and flat tires, for vehicles operating outside of normal business hours.

3.9. **Security**

3.9.1.

The Contractor may change the locks on any or all the maintenance facilities and equipment leased for the duration of the contract. Upon request, the Contractor shall provide duplicate keys to the County Manager.

3.9.2.

The Contractor shall also provide for security of the County's vehicles and equipment while in the Contractor's possession for maintenance or repair.

3.9.3.

Vehicles and/or equipment removed from active fleet service and awaiting surplus sale must be kept secured to discourage vandalism or scavenging of parts, and must not be permitted to operate except as needed to document and prepare for surplus sale.

3.10. **Waste**

3.10.1.

The County will provide via the Environmental Services division dumpster service for solid waste, scrap metal, and cardboard. The county will also provide for Tire disposal as long as the Contractor has paid the solid waste tire fee to the SC DOR for all tires purchased. These costs will not be included in the target costs.

3.10.2.

The Contractor shall be responsible for and shall propose/retain vendors for the recycling or disposal of other wastes generated during the course of the Contract. The Contractor shall maintain records on all hazardous chemicals and other hazardous waste. This may include but is not limited to, antifreeze, used oil, oil filters. The records shall contain the materials' origin, use, transportation, and ultimate distribution and disposal. All disposals shall be in accordance with current County, State and Federal laws and EPA regulations. The Contractor shall provide training and management for employees working with and handling hazardous materials, in accordance with laws and EPA regulations. The Contractor will provide a written Hazard Communication Program. The Contractor shall hold the County free of liability for all actions of the Contractor relating to waste disposal. These costs are to be included in the target costs.

Offerors are to include in their Proposals to the County a description of their qualifications to handle waste streams generated as a part of normal County fleet maintenance. The contractor shall also provide annual report for fluid disposal (oil, antifreeze, oil filters, etc) and quantities of wastes that are recycled.

4. PREVENTIVE MAINTENANCE

A preventive maintenance (PM) program will be established for all vehicles and equipment that are the responsibility of the Contractor. The PM program will be designed in accordance with recognized industry standard fleet management practices and will meet the terms and conditions necessary to comply with the original equipment manufacturers (OEM) specifications, or other specific warranties and approved recommendations. At a minimum, the Contractor must perform a preventive maintenance inspection on each vehicle and piece of equipment as below, except for special classes of vehicles and equipment as noted in the Contractor's Proposal.

Vehicle	Time	Miles
Lt Vehicle A	6 months	7,500
Lt Vehicle B	24 months	30,000
Heavy Vehicle A	3 months	7,500
Heavy Vehicle B	12 months	15,000
Patrol & Emergency A	3 months	4,000
Patrol & Emergency B	12 months	20,000

Equipment	Time	Hours
Off Road Equipment A	3 months	250 hr
Off Road Equipment B	12 months	1000 hr
Sm Equip / Trailers A	6 months	250 hr
Sm Equip / Trailers B	12 months	1000 hr

Although subject to change as agreed by the Contractor and the County, the PM work will meet the following minimum requirements:

4.1. PM-A

Perform Items 1-11 every PM interval:

1) Safety Checklist

- tires-record tread depth of all tires-a minimum of 3/32 tread depth shall be maintained (5/32 for emergency and essential use vehicles)
 - lights-exterior and interior lights and gauges
 - windshield wipers
 - fluid levels
 - battery and charging system; also clean terminals and check cables
 - heating/air-conditioning system
 - exhaust system and exhaust hangers and clamps
 - steering and suspension
 - frame, cross members and body joints
 - drive shaft/U-joints
- 2) Inspect critical components (hoses, belts, etc.) replace any worn or damaged components).
 - 3) Inspect vehicle appearance (look for body damage, rust, interior condition, etc.)
 - 4) Engine oil and oil filter - change
 - 5) Lubricate chassis, hinges, locks, etc.
 - 6) Emission controls - service
 - 7) Brake inspection - record remaining life (replace worn, damaged or leaking components)
 - 8) Cooling system (service if needed)
 - 9) Starter/charging system (check and repair or replace deficient components)
 - 10) Inspect air cleaner element and replace, if needed
 - 11) Test drive each vehicle.

4.2. PM-B

Perform Items 1-5, in addition to items 1-11 in PM-A, every 12,000 miles or 12 months, whichever comes first (every 4th PM-A interval).

- 1) Tires - rotate and balance
- 2) Front wheel bearings - service
- 3) Scope engine
- 4) Automatic transmission service (includes adjustment, fluid change & filter)
- 5) Tune engine and test emissions

4.3. Fire Apparatus and Ambulance Preventative Maintenance Program

Fire Apparatus PM services will be administered based on a recommended annual schedule using manufacturer's recommendations and national standards (National Fire Protection Association-NFPA #1911, 2007 or most current version). Due to the Fire Department's mission-critical emergency response priority needs, front line fire apparatus and ambulances should not be in for PM services for more than one day. If PM is more than one day, contractor must inform end-user department.

4.3.1. Fire Apparatus Locations

Fire apparatus and Ambulances in the Midway Fire/EMS department are located at one of the following locations: 67 St. Paul's Place, Pawleys Island; 112 Beaumont Drive, Pawleys Island; or 57 Firehouse Road, Georgetown. The contractor will perform PM-As at the station where the vehicle is assigned, Fire EMS staff will bring the units to the Vehicle Shop for PM-Bs.

4.4. Landfill Operation Preventive Maintenance

High priority equipment such as landfill compactors, dozers, and grapple trucks should be completed within one day. If PM is more than one day, contractor must inform end-user department.

4.4.1. Landfill Off-Road equipment

The contractor will perform PMs at the Landfill facility for Off-road, heavy, and tracked equipment.

Upon consultation with the department, as needed off-road equipment can be transported, by the department, to the shop for additional repairs or servicing.

4.5. Routine Maintenance and Repairs

Perform repairs as required; road test and correct deficiencies.

4.6. Yearly Maintenance and Inspections

4.6.1.

Inspect and test vehicles and power-operated equipment on an annual basis in accordance with Federal and State laws. Inspections and tests shall be performed by the Contractor in the Maintenance Facility by properly authorized and trained mechanic(s).

4.6.2.

Perform other statutory inspections and tests that may be required by Federal or State laws.

4.7. Fleet Assessment

Within three (3) months after the starting date of the Agreement, the Contractor shall perform a PM on every piece of equipment in the fleet. Major component failures identified during this initial three-month period shall be considered non-target work, and, therefore, costs are not to be included in the Contractor's proposed fixed price. Afterwards, repairs are responsibility of Contractor.

4.8. Scheduling

PM activities should interfere minimally with the operator's normally required work schedule. Therefore, vehicle and equipment PMs should be scheduled at times mutually agreed upon by the Contractor and the County. The Contractor shall develop and provide an automated PM schedule to the County with sufficient lead-time that the County can give ten (10) working days notice to the vehicle user through integration with the County's Enterprise Asset Management System (EAMS). PM schedule notification, referencing both the department and unit number, shall be provided in writing to the designated Department representative. The Contractor will be responsible for all contact with departments regarding vehicle PM scheduling. The County, the designated Department representatives, and the vehicle and equipment operators will be responsible for keeping scheduled appointments for preventive maintenance. Offerors are asked to include in their Proposals policies regarding PM appointments missed by the County and vehicle operators.

4.9. Performance

The timely performance of preventive maintenance is incumbent upon the Contractor for all fleet vehicles. It is incumbent upon the Contractor to schedule, notify and perform the scheduled preventive maintenance. Offerors shall include in their proposals their standard PM rates, including hours and cost per PM class of vehicle identified in section 4. Special Classes must be noted and identified in the proposal.

4.10. Emergency Generators – Alternative 1

This section is an Alternate bid item to the fleet maintenance program. The County may elect to add these units to the fleet with the following requirements. Emergency generators for this alternative are listed in attachment C.

4.10.1. Emergency Generator Preventive Maintenance

A preventive maintenance (PM) program will be established for all emergency generators that are the responsibility of the Contractor. The PM program will be designed in accordance with recognized industry standard equipment management practices and will meet the terms and conditions necessary to

comply with the original equipment manufacturers (OEM) specifications, or other specific warranties and approved recommendations. At a minimum, the Contractor must perform a preventive maintenance inspection on each generator as below.

Equipment	Time
Emergency Generators	6 months

4.10.2. Emergency Generator PM minimum requirements

Preventive maintenance activities that meet all necessary original equipment specifications include but are not limited to:

- Inspect for leaks (repair minor leaks)
- Check oil level and fill (up to 1 gallon)
- Inspect for leaks (repair minor leaks)
- Check belts and hoses
- Check coolant level & fill (up to 1 gal)
- Inspect radiator/heat exchanger cap
- Lubricate fan drive
- Inspect air cleaner
- Check fuel level
- Drain water from water separator
- Check day tank pump and alarms for proper operation
- Check condition of cables, wiring, loom, straps & connections
- Check general condition of batteries
- Lube generator-bearing (external access only)
- Check all instruments and lamps for proper operation
- Check hour meter operation
- Report Tachometer RPM
- Check Engine oil pressure
- Engine coolant temp.
- Report Voltmeter reading
- Report Ammeter reading
- Test alarm circuits for proper operation
- Check Instrument panel emergency alarm & lights
- Inspect general cleanliness (Interior/Exterior)
- Check indicating lights
- Change oil
- Change oil filters
- Change coolant filter (s)
- Change oil and clean elements-wet type
- Change day tank, primary and secondary fuel filter(s) (diesel)

4.10.3. Annual Load Testing

Annual load testing of emergency generators is NOT included in this bid alternative.

4.11. Stationary Recycling Equipment – Alternative 2

This section is an Alternate bid item to the fleet maintenance program. The County may elect to add these units to the fleet with the following requirements. Recycling Equipment are listed in Attachment I

preventive maintenance (PM) program will be established for all stationary recycling equipment that are the responsibility of the Contractor. The PM program will be designed in accordance with recognized industry standard equipment management practices and will meet the terms and conditions necessary to comply with the original equipment manufacturers (OEM) specifications, or other specific warranties and approved recommendations. At a minimum, the Contractor must perform a preventive maintenance inspection on each recycling unit as below.

Equipment	Time
Stationary compactor	6 months
Baler	6 months
Conveyor belt	6 months

4.11.1. Stationary Recycling equipment minimum requirements

Maintain Stationary Recycling Equipment in compliance with the OEM specifications or as necessary.

- Hydraulid fluid – Drain and Replace
- Inspect Panel
 - Key Switch, Emergency Stop Button, Reverse Button, Reverse w/Light, Manual/Auto Switch, Tipper/Compactor, Tipper Control
- Inspect Pendant
 - Key Switch, Emergency Stop Button, Reverse Button, Reverse w/Light, Manual/Auto Switch, Tipper/Compactor, Tipper Control
- Inspect Inside Panel
 - Timers, Relays, Timer/Relay Bases, Transformer, Fuses, Fuse Holder, Auxiliary Contact, Motor Contact, Overload, PLR
- Inspect Power Unit
 - Motor, Coupler, Spider, Pump, Pressure, Pressure Gauge, Relief Valve, Compactor Control Valve, Tipper Control Valve, Manifold, Hoses
- Inspect Weather Cover
 - Tank, Fluid Level, Sight Glass, Fluid Condition
- Inspect Compactor
 - Hoses, Exterior Finish, Removable Covers, Doors, Hinges, Latches, Magnetic Interlock, Wiper Blade, Ram, Cylinder, Guides, Ground Anchors

5. REPAIRS

The Contractor shall make specific repairs to vehicles and equipment that are identified through Preventive Maintenance, by users, and by breakdown or malfunction.

5.1. Repair Limitations & Exceptions

Repairs estimated to exceed \$1,000.00 must be analyzed by the Contractor to determine the repair's cost effectiveness and be specifically approved by the County. When equipment replacement appears to be more cost effective than repair, such recommendations shall be presented in writing by the Contractor to the County.

All normal wear and tear repairs identified through PM, by users, by breakdown, and/or malfunction for vehicle and equipment within their contract lifespan, excepting accidents, user misuse, abuse, and vandalism are included in the target cost. Any repairs the Contractor identifies as possible exceptions, including accident, misuse, abuse, or vandalism must be identified immediately and communicated to the fleet end user departments.

Repairs made to units outside of their contract lifespan are not included in the target cost.

5.2. **Prioritization**

Priority of repairs shall be as follows:

1. Fire and EMS emergency response vehicles and equipment
2. Sheriff patrol vehicles
3. Landfill and Solid Waste Collection vehicles and equipment
4. Other heavy equipment
5. Administrative and passenger vehicles

Contractor Administrator or Designee will have 100% access to daily and weekly work order schedules and reserves the right to direct reprioritization of work orders in the best interests of the County.

5.3. **Road Calls**

The Contractor shall provide emergency road service calls, including towing service, for vehicles in the County's fleet. The Contractor shall have persons on call to expeditiously handle vehicle breakdowns. The Contractor shall tow any County-owned and confiscated/abandoned vehicles for Sheriff, or leased vehicles requiring service, regardless of whether or not the cause is an authorized repair or another incident.

The contractor shall have the ability to provide for service calls occurring outside of the County when vehicles are traveling on authorized out-of-county business.

5.4. **Quick Fix**

The Contractor shall provide a Quick Fix function for minor repairs of less than a one-hour duration when the vehicle operator chooses to wait for the service. Vehicles repaired under Quick Fix are to be moved to top priority. Examples of quick fix repairs include fluid replenishing, windshield wiper service, tire repairs, hydraulic hose repair, and headlight replacement.

5.5. **Warranty**

The Contractor shall track and administer all warranties, both for vehicles and parts, associated with management of this fleet. Such work will be reimbursed directly to the Contractor by the equipment manufacturer and the County will not be charged for such work. Payments and adjustments received by the Contractor for warranty work shall be credited to the County account.

5.6. **Re-Work**

The Contractor shall track and identify multiple repairs for the same deficiency on the same vehicle (re-work) and shall not include in the monthly statement costs for re-work occurring before the scheduled time after the original repair.

The contractor shall identify the last prior failures of the same or similar component/system on work orders or repair records for the County's review.

5.6.1.

The Contractor's guidelines for re-work shall be the lesser of:

- Engine overhaul - 6 months or 6,000 miles
- Brake overhaul - 12 months or 6,000 miles
- Tune up - 12 months or 6,000 miles
- General Repair (excluding electronic components) - 12 months or 6,000 miles

These minimum standards may be adjusted by the Contractor to reflect the County's fleet composition. Any adjustments should be clearly stated in the Contractor's proposal to the County on the supplied

“EXCEPTIONS” page.

5.7. Outside Repairs

5.7.1.

The Contractor shall be responsible for arranging and managing the conduct of outside repairs that cannot be performed economically in-house; and shall be responsible for continued review of the need for specific outside repairs as opposed to performing in-house repairs. These outside repairs may include bodywork and painting, glass replacement, transmission sealing and repair, radiator work, undercarriage track repair, and such other work that can be utilized at minimum cost to the County.

5.7.2.

The Contractor's plan for outside repairs shall be stated in the proposal and included in the target with exceptions as noted in the document. The plan shall be periodically and informally reviewed by the County and the Contractor to ensure that the outside repair versus in-house repair decision remains justified. All responsibility (paperwork, invoicing, quality control, vehicle movement, vehicle security, etc.) shall be that of the Contractor. Subcontractor invoices will be accepted solely by the Contractor.

5.7.3.

The Contractor shall be responsible for requiring that all approved subcontractors have the same liability coverage as the Contractor.

5.8. Duties and Tasks

5.8.1. Minor repairs to all County vehicles and equipment including, but no limited to:

- Tires;
- Road Service;
- Any items necessary to ensure the safety of County employees

5.8.2. Major repairs to all County vehicles and equipment including, but not limited to:

- engine overhaul (gas, diesel, small engines);
- transmission overhauls;
- drive train overhaul;
- brake overhaul;
- machining of drums, rotors and flywheels;
- suspension overhaul,
- window regulator replacement;
- ABS brake repair;
- replacement of wear plates, pins and bushings;
- turntable assemblies;
- boom repairs on equipment;
- bucket repairs;
- lip replacement;
- cutting tips replacement and welding;
- replacement of motor grader blades.
- repair undercarriage of track equipment
- rebuild hydraulic cylinders
- replace hydraulic lines
- Truck tarp systems installation and repair

- Fire Pump repair and rebuild
- EVDT Aerial and Ladder repairs

5.8.3. Routine maintenance and adjustments to all County vehicles and equipment

including sheriff vehicles, ambulances, light/medium/heavy trucks, motor graders, bulldozers, backhoes, excavators, vacuum truck, dragline, track backhoes, compactors, dump body trucks, lowboy trailers, hoist truck, equipment trailers, rollers, vehicles, pothole patcher, wrecker, tractors, bush hog cutters, sprayer, et al;

5.8.4. Twenty-four hour wrecker service

Available for all County vehicles and equipment, this includes the capacity for heavy wrecker services for large Fire, dump trucks, roll-off units, etc. Minor repairs, towing of sheriff investigation (murder, robbery, etc.) and impound vehicles; stuck vehicles, and fix flat tires. Contractor shall be available regardless of location, whether in County, or vehicles are out-of-county on authorized business.

5.8.5. Fabrication of parts

Installation of trailer hitches, supports and wiring; fabrication and/or welding of parts; modifying equipment, railings, beds, asphalt spreader, shelves, barricades, shields, braces and brackets.

5.8.6. Small engine maintenance and repair

Maintain and repair weedeaters, lawnmowers, mud hog pumps, chainsaws, steam cleaner, pressure washer, air compressors, sprayers, grass seeding machine, and packers. These small engine repairs are for units not included in the fleet list, and would be directed work. These repairs are not included in the target cost.

5.8.7. Seasonal Equipment Preparation

Contractor will prepare seasonal equipment for service at the direction of the County Manager or customer department managers. The seasonal equipment program must result in equipment being thoroughly inspected and made ready for service, before the season in which they are required. Seasonal equipment preparation may include such activities as mounting and demounting, inspection of mowers and rebuilding of reel mowers.

5.8.8. Emergency Generator Repairs- ALTERNATIVE 1

All repairs to emergency generators outside of PM work not included in target costs.

5.8.9. Stationary Recycling Equipment Repairs- ALTERNATIVE 2

All repairs to stationary recycling equipment outside of PM work not included in target costs.

6. FUELING SERVICES

6.1. Fueling Services

The County uses commercial fueling services for on-road equipment and vehicles which operate on unleaded gasoline or on-road Diesel.

6.2. Ordering Fuel and Monitoring County Fuel Sites

Contractor will be responsible for daily monitoring of all ultra-low sulfur (ULS) diesel fuel tanks and ordering fuel as needed or as directed. Contractor shall be responsible for ordering and receiving deliveries of all fuels and validate the need to order as well as receipt of the fuels with inventory reports. Contractor shall inform the County as soon as possible if levels fall below minimum levels and an adequate fuel supply cannot be maintained. Costs for fuel delivery will be paid directly by the county after the Contractor completes receipt of fuel.

6.3. Maintaining County Fuel Sites

Contractor shall be responsible for keeping the County 10,000 gallon ULS diesel fuel site clean, safe and reliable for customer use and ensure that they meet the necessary fire, air pollution and health regulations. This shall include the tank, vehicle pumps, and overhead tanker refill station. Contractor shall, if requested, during normal working hours assist County personnel with the fueling equipment, fueling and topping off fueling reservoirs, and checking vehicle fluid levels.

6.3.1.

Contractor shall be responsible for routine inspection and recordkeeping of the on-site fuel storage system at the Vehicle Maintenance Facility in accordance with Section 18.8.5 of the *Georgetown County Standard Operating Procedures* (see Attachment E).

6.3.2.

Any problems shall be reported immediately to the County Manager by telephone and in writing within 24 hours. Contractor shall have the authority to activate the manual emergency turnoff for the dispensers in the event of an emergency. Once the problem is solved, the Contractor shall restore fuel service.

6.3.3.

Contractor shall be responsible for cleaning up all fuel spills which occur at sites when Contractor personnel are present. Similar spills that may occur during after-hour fueling should be cleaned up immediately upon notification.

6.3.4.

Spills shall be reported immediately to the County Manager and the appropriate agency.

6.4. Operation and Scheduling of County Diesel Fuel Tank Truck(s)

The County will provide for operation by the Contractor, a diesel fuel delivery truck with which the Contractor will distribute ULS diesel fuel for use at off-site locations such as the solid waste landfill and several smaller storage tanks located for motor grader operation, and to all County fire stations as needed. The Contractor will fuel emergency generators at County facilities in the event of emergency operations. Locations of generators is included in the list of generators in attachment C.

6.5. Tracking Fuel Consumption and Reporting

Contractor may prepare all documentation necessary for the County to file for quarterly tax rebates on fuel used by off road vehicles.

6.6. Repairs and Replacement of Fueling Equipment

Contractor will be responsible for identifying and managing all maintenance and repairs to the fueling equipment located at each fueling site to include pumps, nozzles, hoses, air and water dispensers and fuel dispensing an control systems equipment and aboveground storage tanks (AST) and equipment. The cost of maintenance, repair and replacement of on-site fuel pump and tank systems will not be the responsibility of the contractor.

7. PARTS AND SUPPLIES

The Contractor shall furnish all parts and supplies necessary to maintain and repair vehicles and equipment. Parts installed by the Contractor shall meet OEM specifications. Parts installed on vehicles and equipment shall be identified by part number and cost on the work order for the appropriate assignment.

7.1.

Within thirty (30) days after the commencement of the contract period, the Contractor shall present a plan to purchase, at cost (to be mutually agreed upon by the County and Contractor), the County's useable and non-obsolete active parts and supplies assigned to the County's fleet. A complete physical inventory will be taken by representatives of the County and the Contractor at the beginning of the Contract. Upon completion of the inventory, the Contractor will be totally responsible for parts accountability and security. The Contractor will assist the County with disposal of the inactive, unusable, excess and obsolete parts in the County stock. Offerors should describe obsolete and overstocked inventory disposal methodologies in their Proposals to the County.

7.1.1.

Contractor shall maintain an adequate parts inventory as part of the Contractor's Target Price. A fleet management information system shall be used to monitor the parts inventory and track parts usage on the County's fleet. At minimum, the electronic system shall be capable of generating a complete inventory by part number and part cost, and a usage rate history for each part normally stocked.

The contractor shall keep in inventory filters and commonly used parts for all County vehicles and equipment.

7.1.2.

Throughout the contract term, the County will coordinate with the Contractor on all impending vehicle and equipment retirements, so that arrangements can be made in sufficient time to dispose of parts in inventory that are unique to such vehicles prior to their removal from the fleet. County will further allow the Contractor to dispose of parts through the County's vehicle and equipment auctions.

7.1.3.

County shall purchase, at cost from the Contractor, the active parts in inventory upon completion or termination of the Contract.

7.2. Quality of Parts to be Furnished

Parts used to maintain and repair the fleet will at a minimum, meet or exceed the quality of the parts furnished originally for the equipment (OEM equivalent). Rebuilt/remanufactured parts must conform to the manufacturer's reconditioning tolerances. If more than one grade of product is available that meets the requirements of this section, the County will designate which grade will be made available for use. If County determines that the product being supplied does not meet its needs or back ordered, the County reserves the right to require a specific substitute to be used. The County retains the right to specifically approve all product lines or changes to product lines before they are introduced for use. The Contractor is responsible for notifying the departments of any parts delays.

7.3. Procuring, Stocking, and Disbursing Parts

Contractor will procure and furnish all parts, materials, supplies, and fluids (except vehicle fuel) required for the operation and maintenance of all County vehicles and equipment in accordance with generally accepted parts management practice, and that will ensure meeting all relevant standards of performance as outlined in County's RFP.

County reserves the right to evaluate 100% of the suppliers the Contractor utilizes in the performance of the contract and to reject or provide guidance on the use of specific suppliers.

7.4. Warranty Parts

Notwithstanding inspection and acceptance by the County, products supplied under any agreement will be warranted by the Contractor for sixty (60) days, or the length of time of any warranty given by the manufacturer, rebuilder or remanufacturer, whichever is greater, after acceptance by the County.

Warranty parameters will be programmed into the fleet management information system and parts eligible for warranty will be supplied at no charge, except for any pro-rated charges.

7.5. Tires

Contractor will be responsible for supplying all tires. The County may choose to supply a letter to State Bid suppliers in order to acquire tires at State Bid prices. Contractor will pay the solid waste excise tax on all tires purchased.

7.5.1. Tire Stock

The contractor must keep in stock at least one set of tires for the most common emergency ambulances and fire vehicles.

7.6. Oil, Petroleum, Lubrication Products

All oil, petroleum and lubrication products shall be kept in stock, including "add-on" engine oil will be provided by the Contractor. Parts, fluids and greases should meet or exceed manufacturer specifications and warranty terms and conditions.

8. FLEET MAINTENANCE INFORMATION SYSTEM (FMIS)

Contractor shall own, install, implement and maintain all hardware and software necessary for an electronic record-keeping and reporting system for all services being contracted. The information system shall provide daily records of all repairs and servicing activities performed for each vehicle or piece of equipment.

Georgetown County has an GIS Centric Enterprise Asset Management System (EAMS) which currently integrates all fleet related records, including those being generated by the current vendor's FMI System. The County's EAMS is currently provided by Beehive Industries LLC.

8.1. FMIS Minimum Requirements

Contractor's FMIS must be a real-time, multi-user system capable of integrating all information pertaining to inventory, maintenance, repair, personnel, asset management, etc. Contractor's system must be able to provide daily data exports to the County in .xlsx or .csv formats. These daily data exports must contain data specific to the work performed, associated activities, labor hours, and costing information for total labor, parts, and work. These daily records must be able to report status such as, but not limited to; open work orders, closed work orders, or scheduled preventative maintenance or repairs. These records shall be sent electronically, preferably via email or to a cloud-based location that can be agreed upon post contract award.

8.1.1. Identification

For purposes of data transfer and integration, the full VIN or Serial number will be the key unique identifier for the unit. Should the contractor notice a discrepancy in the VIN or serial number on documents provided to the contractor from the County, the contractor shall bring any such discrepancy to the County's attention.

For the purpose of communication, use, and vehicle identification, each County vehicle will be identified with a seven digit identification number. The first three digits of the ID will comprise the department (billing) code and the last four digits will be the last four of the VIN or serial number. Vehicle ID for marked units shall be shall be mounted as agreed between the County and Contractor.

8.1.2.

Contractor will be responsible for the conversion of data in County's existing EAMS/system. The County shall provide the Contractor with an inventory of existing fleet vehicles, including specifics the

contractor would need in order for their system to generate records with the ability to integrated into the County EAMS. Contractor shall work with County officials and provision a data transition plan in their proposals. Additionally, Contractors shall provide a data schema in their proposal to the County, for review and approval, to modify current Maintenance tracking in the County's EAMS.

8.1.3.

County Manager will have write access for asset management support.

8.1.4.

County Manager, County Administrator, or other County employees as designated, shall access data pertaining to work associated with this contract for the purpose of auditing and verifying actual costs, and accuracy of scope implementation as desired shall have access to all data pertaining to work associated with this contract for the purpose of auditing and verifying actual costs of the work.

8.1.5.

All records/data maintained during the term of the contract shall remain the property of the County.

8.1.6.

Upon termination of this contract, the Contractor shall provide (at Contractor's cost) the County or successor with all records generated during the contract, as well as, current and historical cost/productivity data and software that is compatible with the County's or successor's FMIS as may be required for phase-in/phase-out.

8.1.7.

Contractor must have the FMIS operational and made available to the designated County personnel within sixty (60) days of the contract start-up. This system must be able to provide daily data in the electronic reporting formats described below. Contractor's failure to provide a system capable of providing the County data for integration into the County's EAMS system within sixty (60) days from contract effective date shall be cause for \$100/day in liquidated damages for each day of non-compliance. Continued non-compliance will constitute failure to perform.

9. REPORTING

The following minimum requirements for reporting and record keeping will be in effect for the term of the contract. Offerors are asked to submit, as part of their Proposals to the County, any additional reporting methodologies they would recommend enacting in the best interest of the County for the management of the County's fleet.

9.1. Records

Upon prior notice to the Contract Project Manager, the Contractor shall provide the County's authorized representative(s) access at all reasonable times to all data (electronic and hard data), books, records, correspondence, instructions, plans, drawings, receipts, vouchers, and memoranda of every description related to the Contractor's fleet management and maintenance services for the County, and shall provide to the authorized representative(s) cost verification for work.

9.2. Work Orders

Minimum requirements for records of work completed on a unit:

- Issue
- Action taken
- Class of work type (PM vs Repair)
- Charge type (target vs non-targe)

- Total cost (Labor + Parts)
- Arrival time
- Departure time
- Labor total hours
- Downtime total hours
- Last prior occurrence of same/similar repair

9.3. Files

The Contractor shall maintain a complete file of service manuals, service bulletins, lubrication charts and other information needed to properly service and repair the fleet of the County. The Contractor shall be responsible to oversee the dealer completion of all “recall” notices issued by manufacturers.

All electronic data (stored in the Contractor’s FMIS) shall be owned by the County and made available to the County’s authorized representatives at any time during the contract. The Contractor shall maintain their own software and FMIS system. Each offeror should designate the software management system proposed.

9.4. Quarterly Performance Report

The Contractor shall provide a consolidated management report to be delivered to the County and all members of the equipment users group on or before the 10th calendar day of the month following the reporting period and/or during the quarterly scheduled Equipment User Group (EUG) meeting. Prior to presentation at EUG, reports shall be delivered to the designated County representative within the Department of Public Services for review. This report shall include, but not be limited to:

- Maintenance costs for the quarter compared to target costs.
- Failure/attainment in each performance area subject to reward/liquidated damages for that quarter and cumulative damages for that contract year.
- Costs for items not included in target costs.
- Discovery or indication of abuse by the vehicle user in excess of normal wear and tear.
- Number of shop orders.
- Number of service calls.
- Number of vehicle PMs scheduled/completed.
- Downtime
 - By Criticality category
 - By department
 - and in total
- Cumulative records of sub-contracted work.
- Total labor hours expended.
- Total parts cost.
- Problem/accident summary.

9.5. Annual Performance Report

The Contractor shall provide the County with a written annual performance report, which summarizes the year’s activity, within thirty (30) days following the end of the contract year. Such report will be delivered to the designated County representative within the Department of Public Services. The annual performance report should include yearly data for those categories presented in the quarterly reports, as well as any additional performance information the Contractor believes should be included.

Offerors should include, as part of their Proposals to the County, a copy of an example annual performance report.

10. INVOICES

At the commencement of the Contract, the Contractor will invoice the County in an amount equal to 1/12th of the annual target price for the first month's target services. Following the first month of services, the Contractor will invoice the County no later than the 12th day of the month in two parts: 1/12th the annual target price for the current month's target services, and a separate invoice delineating additional reimbursable items (including directed work, approved accident repairs, and other approved non-target work, emergencies, and major component failure within the first three months) which were incurred by the Contractor in the previous month. A monthly Contractor's Operating Statement will be sent with the invoices. In addition, a spreadsheet for target work and a spreadsheet for non-target work breaking out departmental costs for in-house labor hours, labor cost, in-house parts, commercial labor, commercial parts, and sales tax must accompany the invoices.

10.1. End of year credit

A year-end 75% credit invoice will be issued by the Contractor no later than July 31st for the difference between target (Contract) invoices, without taxes, and the total monthly contractor costs indicated on the Contractor's Monthly Operating Statements. If the Contract costs on the Contractor's Monthly Operating Statements are higher than the target (Contract) invoices, no invoice will be issued.

10.2. Billing validation

The Contractor shall prepare verification data of any items questioned for the amount claimed and provide complete cooperation during such investigation of any areas in the invoice subject to question. The County will be responsible for paying the remainder of each month's invoice when individual invoice line items are awaiting dispute resolution. Invoices shall include backup for all reimbursable items.

10.3. County's Right to Review Billing Documentation

County reserves the right to request additional documentation from the Contractor prior to paying any disputed portion of the invoice. Such documentation may include, but is not limited to, invoices to the Contractor for parts or subcontracted services and payroll registers. County reserves the right to audit the Contractor's records and books pertaining to this contract and to make any appropriate cost adjustments according to the results of the audits.

11. VALUE-ADDED SERVICES

11.1. Emergencies

The Contractor shall mobilize the shop and provide repair and maintenance services for the duration of emergency situations as defined by the County Administrator. Such service shall include adequate staffing to ensure continued vehicle operations at a level determined to be required by the County. Overtime costs incurred during emergency situations are not to be included in the cost target. Offerors are required to describe the invoicing for emergency services in their Proposals to the County. Offerors are encouraged to cite references regarding the Contractor's ability to respond during emergency situations.

11.2. Purchasing

The Contractor shall assist the County in preparing purchase specifications for additional or replacement fleet vehicles and service equipment as needed. In addition, the Contractor shall assist the County with inspections and assessments of used vehicles and equipment under consideration for

purchase or lease. The Contractor shall identify and nominate recommend for the County's purchase, other equipment that will reduce the cost of maintenance and/or improve the quality of vehicular services.

11.3. Directed Work

The County or its designee may direct the Contractor to perform additional tasks (i.e., tasks not related to ongoing and normal operations) under this Contract. The Contractor shall perform such assignments in accordance with an agreed to schedule and level of effort. Cost of such assignments shall not be included in the target cost. Offerors are to include in their Proposals the invoicing for such directed work.

11.4. Investigations

The Contractor shall support the County with technical investigations related to the automotive fleet. Such investigations may support accidents, fire, or other issues of a technical nature.

11.5. Accident Administration

Contractor will support the County with technical investigations associated with vehicle accidents, fires, or other similar events as requested. Contractor will be responsible for processing of accident repairs including appraisals, obtaining repair bids, transportation of vehicles to and from the repair site, repair quality and timeliness, and administration including a report detailing any vehicle problems that could have contributed to the accident within three days of the accident and payment of invoices.

11.5.1.

Contractor shall contact both the County Manager and Risk Management immediately upon notification of a serious accident.

11.5.2.

Risk Management will be responsible for arranging the inspection of any vehicle involved in a serious injury or fatal accident. Such inspections shall be performed at an independent repair shop. Vehicles shall be towed by the designated towing service directly to the designated, independent repair shop.

11.5.3.

Contractor will participate in any accident review meetings and with subrogation recovery as requested by the County. Contractor will submit all required paperwork associated with its investigation to Risk Management.

11.5.4.

Contractor shall be responsible for automotive vehicle accident repair administration. Contractor will be responsible for receiving damaged vehicles (including dispatch of a tow truck if required), opening a work order in the Fleet Management Information System, notifying the County Manager, providing Contractor's access to damaged vehicles, and notifying County Departments after repairs have been completed.

11.5.5.

For expenses paid directly by the County the Contractor must follow County procurement policy guidelines.

11.5.6.

Accident repairs will not be included in the target cost.

11.6. Fleet Replacement Analysis and Planning

Contractor shall assist the County Manager in determining when fleet vehicles and equipment have reached their optimum period of retention.

11.6.1.

Contractor will perform a mechanical evaluation as scheduled or directed by the County of all units under consideration for replacement, complete required inspection forms, and make recommendations as to which units should be replaced and which units qualify as backup or reserve units. Such inspections shall be scheduled and shall be completed within four hours of delivery of the vehicle for inspection or at the direction of the County Manager.

11.6.2.

Contractor shall assist the County in using fleet size reduction as the first step in the County's replacement process. Contractor shall make recommendations for improved scheduling of preventive maintenance and repairs to minimize the downtime of front line fleet vehicles and equipment.

11.6.3.

Contractor shall review low-use assignments and overall utilization of the fleet and shall monitor County department Managed Competition efforts for further fleet reduction. Contractor shall review the fleet's annual utilization and identify those units that should be considered for reduction and a supporting plan to provide short term transportation for those customer drivers.

11.6.4.

The utilization analysis should include: Department justification of all units that receive less than 3,000 miles annually. Provide alternatives, such as (1) pooling, to permanent assignment; (2) justify all medium and heavy duty units that receive less than 300 hours annually; and, (3) provide options to permanent assignment of fleet vehicles such as an expanded pool, use of commercial rentals, greater use of direct mileage reimbursement of personal vehicles for short trips, etc.

11.6.5.

Contractor shall conduct an annual review the fleet and equipment needs of the County and prepare and submit annual budget estimates for new and replacement vehicles and equipment to the County Manager, no later than January 30th in collaboration with the County's multi-year budget planning process.

11.6.6.

Contractor shall act in the capacity of technical advisor to the County regarding the acquisition of new vehicles and equipment and shall provide historical maintenance data on proposed equipment as may be useful in determining selection of vehicles. Contractor will consult with Department Managers regarding specifications (i.e. purpose of vehicle, GVW, engine size, optional equipment, repair histories, quality of vehicles available for purchase, availability of repair parts, and dealership support).

11.6.7.

Contractor will provide the following replacement planning and technical assistance services to support these efforts:

- Repair versus replacement analyses on any unit requested by the County,
- Development of specifications for new, additional or replacement vehicles,
- Inspections and assessments of used vehicles under consideration for purchase,
- Compliance assessments and recommendations meeting alternative fuel, clean air and energy mandates of Federal, State and County government (Clean Fleet Model ordinance,

- Demonstration and evaluation of new vehicle and maintenance technologies, including the coordination of demonstrations, the establishment of test protocols, and the collection of test data,
- Participation in vehicle and equipment test programs for the purpose of evaluating new models for purchase by the County,
- Participation in alternative fuel and green fleet planning projects, evaluations and demonstrations as requested by the County Manager.

11.7. Vehicle Delivery, Preparation and Disposal

11.7.1. Preparation

The Contractor shall prepare newly delivered and/or acquired vehicles for service. Preparation may include inspections, installation of special equipment, and coordination of radio communications installation by the designated radio contractor.

When the preparation has been completed, contractor will verify through the County Risk Manager if the unit is properly insured. Before the unit is released for use, the Contractor will provide photographs and inspection forms for new units.

11.7.2. Disposal

Vehicles to be sold by the County shall be prepared for disposal or surplus sale by the Contractor per the County's most current fleet disposal policy. Preparation shall include removal of license tags, removal of logos, identification marking and decals and removal of any special equipment, in a manner consistent with preserving the value of the vehicle or equipment to the extent possible. Contractor shall record mileage and condition, photograph interior and exterior, clean vehicle, store in fenced vehicle storage area, send photos and data to finance which will put vehicles on auction site.

Contractor shall be responsible for keeping vehicles/equipment running and presentable for sale. If vehicles/equipment are stored for longer than 90 days, additional maintenance may be considered directed work.

Contractor will be point-of-contact for the answering of questions concerning vehicle or equipment condition and/or deficiencies.

Contractor shall assist in disposition of units to buyers at the time of pick-up by successful bidder.

12. STAFFING PROVISIONS

The Contractor shall have the responsibility for selecting personnel to perform the services to be provided hereunder. The Contractor shall be required to perform pre-employment drug testing for all proposed Contractor employees.

12.1. Contractor's General Manager

The Contractor's General Manager shall have proven managerial experience managing and maintaining municipal fleets and/or fleets of similar composition.

12.1.1.

Contractor's General Manager shall work closely and cooperatively with the County's County Manager on a daily basis and will become the primary point of contact for all matters relating to the maintenance and upkeep of the County's fleet.

12.1.2.

Contractor shall provide a Contract General Manager who shall be responsible for the performance of the work. The name of this person and an alternate(s) who shall act for the Contractor when the manager is absent shall be designated in writing to the County Manager prior to contract start date.

12.1.3.

Contract General Manager or alternate shall have full authority to act for the Contractor on all contract matters relating to daily operation of this contract.

12.1.4.

Contract General Manager or alternate shall be available during normal duty hours to meet with County personnel designated by the County Manager to discuss problem areas. After normal duty hours, the Contract General Manager or designated alternate shall be available on an emergency response basis.

12.1.5.

The Contract General Manager should be a certified Emergency Vehicle Technician (ETV).

12.2. Changes in Personnel

12.2.1.

Contractor's General Manager will not be changed during the term of the contract without prior consultation with the County, except that the Contractor General Manager may be dismissed without prior County approval for criminal activity or documented violation of company policies. Otherwise, the County must approve the timing of the change, and the specific individual that will replace the incumbent General Manager. Contractor's proposal to change its General Manager must include a transition plan.

12.2.2.

The County reserves the right to request the removal from work on this contract any contractor employee whose performance or actions are determined by the County to be detrimental to achieving the objectives stated in the County Fleet Maintenance and Management Services RFP.

12.3. Staffing Requirements

12.3.1.

Contractor is responsible for the supervision of its employees including ensuring appropriate and professional conduct at all times and shall conform to any policies and procedures issued by the County relating to safety, drug-free workplace, environmental stewardship, security, traffic, parking, etc.

12.3.2.

The Contractor may offer employment to the current Contractor's qualified employees at a commensurate industry standard wage. All existing staff who express an interest will be interviewed for positions with the Contractor. The Contractor will be able to choose those most qualified from the existing staff as potential employees.

12.3.3.

All personnel assigned this project shall be exclusive to this project and must not be utilized on any other projects or contracts that the Contractor may have in place unless approved as part of this contract or with the approval of the County.

12.3.4.

The contractor will be required to maintain a minimum number of certified Emergency Vehicle Technicians (ETVs). The minimum requirement by the County is three, excluding the General

Manager. The current contractor maintains on average 3 to 5 EVT's in their staff

12.3.5.

The Contractor must be able to provide repair and maintenance for Electric, or Hybrid Vehicles.

12.4. **Contractor Benefits**

The Contractor shall have sole responsibility to determine and provide benefits for Contractor employees provided those benefits offered will be comparable to or will exceed those offered by the County to its employees. These costs will be included as part of the target price.

13. PERFORMANCE

13.1. **Right To Require Performance**

The County's failure at any time to require performance of any provisions thereof by the Contractor shall in no way affect the right of the County thereafter to enforce same. Nor shall any waiver by the County of any breach of any provision hereof be taken or held to be waiver of any succeeding breach of such provision or as a waiver of any provision itself.

13.2. **Bonds**

13.2.1. **Bid Bond**

Each bid must be accompanied by a Bid Bond, or by a certified check payable to Georgetown County, SC, for an amount equal to five per-cent (5%) of the total base bid as a guarantee that if the bid is accepted, the required Contract will be executed after receipt of written notice of formal award of Contract. Bids not including such a bid bond will not be considered.

13.2.2. **Performance Bond**

The successful offeror must provide a Performance Bond from a surety company qualified to do business under the laws of the State of South Carolina in the amount of 100 percent (100%) of the contract amount, within fifteen (15) days after receipt of written notice of formal award of the Contract.

13.2.3. **Payment and Material Bond**

The successful offeror must provide a Payment and Material Bond from a surety company qualified to do business under the laws of the State of South Carolina in the amount of 100 percent (100%) of the contract amount, within fifteen (15) days after receipt of written notice of formal award of Contract.

13.2.4. **Non-responsive Respondents**

In the event the Performance and Payment and Material Bonds are not delivered, then the offer shall be ruled null and void and the award shall be made to the next most responsive Respondent. No Contract shall exist until the County receives duly executed bonds made payable to the County.

14. INSURANCE

The successful bidder shall procure, maintain, and provide proof of, insurance coverage for injuries to persons and/or property damage as may arise from or in conjunction with, the work performed on behalf of the County by the bidder, his agents, representatives, employees or subcontractors. Proof of coverage as contained herein shall be submitted fifteen (15) days prior to the commencement of work and such coverage shall be maintained by the bidder for the duration of the contract period. Georgetown County shall be listed as an additional insured on the policy. See item 31 of the instruction for bidders section for coverage requirements.

15. WORKING CONDITIONS

In the performance of the Agreement, the Contractor shall adopt working conditions and other employment policies that meet the approval of the County, provided that such policies comply with applicable Federal or State laws.

16. JOB SAFETY COMPLIANCE

16.1.

It shall be the responsibility of the Contractor to comply with all the provisions applicable to the Occupational Safety and Health Act as enforced by the U.S. Department of labor and to require all employees to comply with this law and all regulatory State or local laws affecting job safety. At a minimum, Contractor will provide a written Safety Program, a “Lock out/Tag out” Program, a safety training program for facility employees, and *a performance-based safety incentive program* for all facility technicians.

16.2.

It shall be the Contractor’s responsibility to maintain throughout the contract period a safety and accident prevention program that meets requirements of Federal, State and local codes and all other authorities having jurisdiction over this work.

16.3. Certification Regarding Drug-Free Workplace:

The contractor certifies that the (s)he will provide a “drug-free workplace” as that term is defined in Section 44-107-30 of the Code of Laws of South Carolina, 1976, as amended, by the complying with the requirements set forth in title 44, Chapter 107.

17. CONTRACTOR’S RELATIONSHIP TO THE COUNTY

17.1. Contractor as Independent Contractor

It is expressly agreed and understood that the Contractor is in all aspects an Independent Contractor as to the work, and that the Contractor is in no respect an agent, servant or employee of the County. This Contract specifies the work to be done by the Contractor, but the method utilized to accomplish the work shall be the responsibility of the Contractor.

17.2. Subcontracting

Contractor may subcontract services to be performed hereunder. No such subcontracted services will be construed as making the County party of, or to, such subcontract, nor shall such subcontracted serviced be construed as subjecting the County to liability of any kind to any Subcontractor. No subcontract shall, under any circumstances, relieve the Contractor of its liability and obligation under this Contract; and despite such subcontracting the County shall deal through the Contractor, and Subcontractors will be dealt with as workmen and representatives of the Contractor. It is the Contractor’s responsibility to ensure that approved Subcontractors have achieved the same liability coverage as the Contractor.

17.3. Lease of Facility

The County will lease to the fleet operator the shop facility located behind the Georgetown County Public Works Department and also know as 2210 Browns Ferry Road (SC-51), Georgetown, SC for the annual sum of one-dollar. This shall include equipment provided by the County and used by the Contractor during vehicle maintenance, such as compressors, lifts, service vehicles, etc. The County shall be responsible for replacement of such equipment at the end of its useful life as otherwise necessary. Facility repair work is not included in the target cost. (See County Provided Facilities, §1.1, pages 8 - 11).

17.4. Lease of Service Vehicles

The County will lease to the fleet operator the service vehicles associated with the vehicle maintenance facility for the annual sum of one-dollar per vehicle. This currently includes the following:

ID	Model Year	Manufacturer	Model	Trim	VIN / Serial Number
1515376 - 2020				4x4 DRW	
Dodge 4500	2020	Dodge	4500	Service Truck	3C7WRLAJ4LG105376
1511434 - 2019				4x2 DRW Lube	
Dodge 5500	2019	Dodge	5500	Truck	3C7WRMBJXKG561434
1512775 - 2007				4x2 Service	
Ford F750	2007	Ford	F750	Truck	3FRXF75UX5V112775

It will be the responsibility of the fleet service operator to insure these vehicles, and provide proper license tags. Since the vehicles will be under the operation of an independent contractor, the Georgetown County name or logo shall not appear, and the vehicle must have tags registered to the lease holder/contractor. The fleet service operator shall be permitted to affix removable identification (such as magnetic signs) to the vehicles identifying the operator. Maintenance and repair of these units are included in target costs.

17.5. Inspection of Work

The Contractor shall furnish the County or authorized representative(s) with every reasonable opportunity to determine whether or not the work is performed in accordance with the requirements of the Contract. The County may appoint qualified persons to inspect the Contractor's operations and equipment, and Contractor shall permit these authorized representative(s) to make such inspections at a reasonable time and place.

18. COSTING METHODOLOGY

18.1. Target Cost Proposal

The target cost proposal, which shall be the Contractor's operating budget for each year of this contract, shall be included in the Contractor's Proposal using the attached Cost Proposal Forms and shall include the following cost items:

- Personnel costs
- Parts/supplies/outside services
- Overhead expenses
- Administrative costs and management company/franchise fees.

This target amount is to be a firm, fixed cost.

18.2. Labor Costs

Personnel costs will include wages, salaries, fringe benefits, payroll taxes, mechanic and on-site management costs.

For planning, budgeting, and auditing, the contractors shall complete the included mandatory chargeback labor rate worksheet for Preventive Maintenance and standard labor rates.

18.3. Parts/Supplies/Outside Services

The Contractor will charge the County for parts, supplies, and outside services as the items or services are used, as reflected in the Contractor's repair orders.

18.4. **Overhead Expenses**

Overhead expenses will include such items as office supplies, uniforms, bonding costs, copying costs and insurance. All overhead expenses will be invoiced to the County as they are incurred at the Contractor's net cost without markup.

18.5. **Administrative Costs and Management Fees**

Line items in the approved budget for administrative costs and management fees will be charged to the County for each accounting period on a pro rata basis. These items will not be subject to documentation.

19. ADDITIONAL COSTS

The approved budget shall include the target cost as adjusted in accordance with Paragraph 18.01 and the additional cost items described herein.

19.1. **Capital Expenditures**

Any and all County approved capital expenditures of the Contractor for equipment or other capitalized items (i.e., engine analyzer), in connection with the services and work to be provided by the Contractor hereunder, shall not be included in the approved target.

19.2. **Directed Work**

Overtime and other County approved labor and material cost incurred by the Contractor in performance of emergency or other directed work shall not be included in the approved target, pursuant to the terms of the Contract. The County will not approve or reimburse the Contractor for overtime charges for work included in the target cost.

19.3. **Additional Reimbursable Items**

Costs incurred for unit repairs necessitated as a result of **user abuse, vandalism, and accident** damage during the life of the contract, or major component failure during the first three (3) months of providing service hereunder, or to **vehicles and equipment in excess of APWA life-cycle “plus 1-year” standards**, will not be included in the computation of the cost of performance incentives, and will not be included in the approved target, and will be directly reimbursable by the County to the Contractor. Offerors must provide APWA life-cycle “plus 1 year” standards with their RFP.

20. ADJUSTMENTS TO THE APPROVED BUDGET

20.1. **Changes in the Size or Composition of the Fleet**

The cost target shall be adjusted to correspond to increases or decreases in the fleet size or the type of equipment in each class if such changes are at least five (5%) percent on a prorated unit cost basis. These adjustments shall be made semi-annually.

20.2. **Annual Adjustments**

The cost target and approved budget, including the Contractor's fee, shall be adjusted for the second and subsequent years of the Contract prior to the end of the previous contract term. During the Annual Meeting between the County and the Contractor, the Contractor's performance will be reviewed. The meeting shall also include a review of the Contractor's cost of doing business. With the exception of labor, escalation of the approved budget for the ensuing year shall not exceed the Cost/Price Index (CPI) for all urban consumers in the Transportation Category for the State of South Carolina for the prior year. Labor costs shall be negotiated separately. Changes to the Contract shall be documented in a Contract Amendment.

21. PROPOSAL REQUIREMENTS & EVALUATION CRITERIA

CONTRACTOR RESPONSE

This Request for Proposal (RFP) represents the requirements of the County to procure Contractor services for Professional Fleet Repair & Maintenance services.

The following section provides a general description of information to be included in proposals. Proposals must be submitted in the format outlined in this Attachment. Respondents must furnish all information required by the request.

Incurring Costs

All costs incurred in the preparation and submission of proposal will be borne by the Respondent.

Economy of Preparation

Proposal documents must be prepared simply and economically, and provide a straightforward, concise delineation of capabilities proposed to satisfy the requirements of the RFP. Unnecessarily elaborate brochures or other presentations are not required. Completeness and clarity of content must be emphasized.

ALL SIGNATURES ON PROPOSALS, AMENDMENTS, OR RELATED CORRESPONDENCE MUST BE BY PERSONS WHO ARE AUTHORIZED TO CONTRACTUALLY BIND THE RESPONDENT.

County Procurement Regulations

County procurement regulations will be used throughout the solicitation, evaluation, award and administration process for this proposal/contract.

SUBMISSION REQUIREMENTS

This section provides a summary of information to be included in fulfilling the requirements of this RFP. Respondent must emphasize the rationale for the particular solution being proposed and emphasize its unique advantages.

Respondent will submit a proposal for a County fleet management and maintenance project to meet the minimum requirements identified. The requirements stated herein do not preclude respondent from furnishing additional information as deemed appropriate. Substantial deviation from the minimum requirements stated herein may be cause for rejection from further consideration.

Cover Letter

The Respondent shall provide a single page signed cover letter summarizing their proposal. The letter shall contain the main contact person to include, name, email, address, and phone number indicating who will be the point of contact for proposal questions and contract negotiations.

Part I - Understanding

Respondent will include in Part I an understanding of the specific fleet management and maintenance issues facing

the County of Georgetown, the issues facing other counties and local governments nationwide, and a general statement of the solutions the Respondent plans to offer the County.

Part II – Statement of Work

Respondent will include in Part II their approach to completing the work elements described in the Scope of Work section of this RFP. The Statement of Work will address each task in the Scope of Work, listed numerically to correspond with the RFP.

Part III - Management Approach & Transition Plan

The Respondent's approach to management of both the fleet and this assignment are to be included in Part III. This section shall include complete staffing and management information, including a listing of full-time equivalent personnel. A reporting structure will be provided along with the specific responsibilities of each delineated position. The Respondent's Management Approach should include Quality Control programs and other Management Control programs deemed necessary by the Respondent for effective fleet management and maintenance.

Respondents shall include complete details regarding their proposed transition plan for the Contract with the County, including additional staffing and corporate resources that will be utilized during the transition. Respondents should pay particular attention to the issues the Contractor and the County may face during the transition. Respondents should outline any additional costs to the County associated with the transition.

Part IV- Data Management Plan

As part of this solicitation the respondent shall provide the County with a proposed data schema for work orders they intend to use within their EAMS. The County shall review the schema and provide feedback as to the ability for the County to integrate data provided daily within this schema into the County's EAMS. Ideally these work orders would be single level events including work order type (Target, Non-Target, PM, etc.), with labor hours, labor cost, parts cost, and total cost. Respondent shall provide the following as part of this section: data schema for EAMS, sample work order output data, sample annual performance report, and a sample emergency services invoice.

Part V - Qualifications and Experience

Proposals must include in Part V a brief summary of applicable past experience to show proven and demonstrated ability to execute the requirements of the RFP. Further, Proposals must include a list of *all* current clients for whom the Contractor provides fleet management and maintenance. The listing shall contain the following information for each client:

- a) Client name (i.e., city, county, agency, etc.)
- b) Brief description of contract requirements
- c) Period of performance
- d) Total fleet size

Contractors should demonstrate their experience with City, County or State fleet operations.

Respondents shall include complete customer references for at least 5 clients. Besides the basic reference information as indicated on the mandatory bid submittal form, the County seeks the following information for each client listed:

- a) Contact name and title
- b) Address
- c) Phone number
- d) Type and composition of fleet
- e) Number of vehicles and pieces of equipment
- f) Period of performance
- g) Whether Contractor converted the fleet maintenance from the client's former in-house operation or Contractor assumed a previously converted fleet maintenance program
- h) Percentage of Contractor's technicians with at least one ASE certification
- i) Special requirements and contractual obligations
- j) Special achievements of the Contractor's location personnel
- k) A description of the location's approach to safety and any appropriate safety achievements
- l) Letters of recommendation and commendation, if available

Part VI - Cost Proposal

Part VI will include the Respondent's complete cost proposal with the first year's target cost. Respondents must complete the provided mandatory bid submittal form and labor cost forms. The cost proposal shall also include the Respondent's position on overtime, directed work and other costing data left subject to proposal in the Statement of Work. Additional transition costs should be outlined separately and clearly stated in this section of the Respondent's Proposal.

Required Forms and Bonds

Respondents must include all mandatory forms attached to this RFP as well as all appropriate bid bonding materials.

Other Requirements

Respondents will fully inform themselves on conditions, requirements, and specifications before submitting their proposal. Failure to do so will be at Respondent's own risk and the Respondent cannot secure relief by plea of error.

Neither law nor regulations make allowance for error of omission or commission on the part of the Respondent.

QUALIFICATIONS OF RESPONDENTS

The County may make such investigation as deemed necessary to determine the ability of a Respondent to furnish the required services, and the Respondent will furnish to the County all information and data for this purpose as the County may request.

The County reserves the right to request a tour of qualified Respondents' current fleet maintenance and management locations, prior to Contract award.

The County reserves the right to reject a proposal if the evidence submitted by, or investigation of, such Respondent fails to satisfy the County that such Respondent is properly qualified to carry out the obligations of the Contract, and to deliver the equipment and services contemplated herein.

METHOD OF AWARD

The County will enter into contract negotiations with the highest-ranked Respondent based on the combined

scores of the written proposal, any oral presentation, any site visitations, evaluation by the County, and approval by Management of the County.

PROPOSAL EVALUATION CRITERIA

The County will use the following evaluation matrix to compare Respondents’ proposals:

<u>EVALUATION CRITERIA</u>	<u>TOTAL POSSIBLE SCORE</u>
Understanding & Statement of Services	15
Management Approach & Transition Plan	25
Data Management Plan	15
Qualifications & Experience	20
Cost Proposal	25
TOTAL POSSIBLE SCORE	100

Instructions for Bidders

RFP #22-025 Professional Fleet Repair & Maintenance

These are general instructions and conditions that accompany each bid package. If more specific instructions are given in the individual bid package, those instructions should prevail.

1. Submission of Questions

Questions must be submitted in writing via electronic mail, facsimile or postal mail to the Issuing Officer no later than the "Deadline for Questions" cutoff identified in the Bid Timeline on page three (3) in order to generate an official answer. All written questions will receive an official written response from the Georgetown County Purchasing Office (GCPO) and will become addenda to the solicitation.

GCPO reserves the right to reject or deny any requests made by the provider.

Impromptu, unwritten questions are permitted and verbal answers may be provided, but are only intended as general direction and will not represent the official GCPO position. The only official position of GCPO is that which is stated in writing and issued in the solicitation as addenda thereto.

No other means of communication, whether oral or written, shall be construed as a formal or official response/statement and may not be relied upon. SEND QUESTIONS TO:

Nancy Silver, Purchasing Officer
Post Office Box 421270, Georgetown, SC 29442-4200
Fax: (843) 545-3500
Email: nsilver@gtcounty.org

2. Sealed proposals to provide **Professional Fleet Repair & Maintenance** shall be received electronically through the County's Vendor Registry webpage until the cut-off time shown in the bid timeline of this document. Bids will then be promptly opened at the designated time by the Buyer. Bids that are not received prior to the stated opening date and time will be considered **NON RESPONSIVE**. An official authorized to bind the offer must sign all bids submitted.

3. Incident Weather/Closure of County Courthouse

Due to the current COVID-19 situation, County offices at the time of this bid posting remain open but may be limited to the public. Bid openings at the time of this issuance are being conducted virtually or by a hybrid method and may occur from an alternate secure and/or remote location as needed.

4. This solicitation does not commit Georgetown County to award a contract, to pay any cost incurred in the preparation of the bid, or to procure or contract for goods or services. It is the responsibility of each bidder to see that the Georgetown County Purchasing Office receives bids on, or before, the date and time specified for the bid opening. No bid will be accepted thereafter. The County assumes no responsibility for delivery of bids that are mailed. Georgetown County reserves the right to reject any or all bids and to waive any informalities and technicalities in the bid process.

5. NON EXCLUSIVITY

Nothing herein is intended nor shall be construed as creating any exclusive arrangement with Contractor. Any resulting contract shall not restrict the County from acquiring similar, equal or like goods and/or services from other entities or sources, when Staff determines internally that this resulting action is in the best interest of Georgetown County.

6. No Bidder may submit more than one bid. Multiple bids for different manufacturers but represented by the same firm will not be accepted. Bids offered directly from manufacturers shall indicate if a local dealer/representative will be involved.
7. Definitions:
- a) The terms “Proposer”, “Offeror”, “Vendor” or “Bidder” refer to those parties who are submitting sealed responses for the work set forth in this document to the OWNER, as distinct from a sub-bidder who provides a bid to the Bidder. The term “Contractor” refers to the successful Bidder.
 - b) The term “Repair”, “Maintenance” or “Service” refers to the **complete set of services** as specified in this document, in every aspect.
 - c) The terms “Owner” and “County” refer to the County of Georgetown, South Carolina.
 - d) Where the words “shall” or “must” are used, it signifies an absolute minimum function or capacity that, if not satisfied, may result in disqualification.
 - e) Where the words “should”, “may”, or “is desirable” are used, it signifies desirable, but not mandatory functions or capacities. Bidders who are able to provide these functions or capacities may be evaluated more favorably than those who cannot.
8. Correction or Withdrawal of Bids; Cancellation of Awards
An offeror must submit in writing a request to either correct or withdraw a bid to the Procurement Officer. Each written request must document the fact that the offeror’s mistake is clearly an error that will cause him substantial loss.
- a) Correction of awards : An offeror shall not be permitted to correct a bid mistake after bid opening that would cause such offeror to have the low bid unless the mistake in the judgment of the Procurement Officer is clearly evident from examining the bid document; for example, extension of unit prices or errors in addition.
 - b) Cancellation of awards prior to performance: When it is determined after an award has been issued but before performance has begun that Georgetown County’s requirements for the goods or services have changed or have not been met, the award or contract may be canceled and either re-awarded or a new solicitation issued.
9. **Faxed or E-mailed bids will not be accepted by Georgetown County.**
10. If you need any reasonable accommodation for any type of disability in order to participate in this procurement, please contact the purchasing office as soon as possible.
11. Title VI of the Civil Rights Act of 1964: Georgetown County hereby gives public notice that it is the policy of the agency to assure full compliance with Title VI of the Civil Rights Act of 1964, the Civil Rights Restoration Act of 1987, Executive Order 12898 on Environmental Justice, and related statutes and regulations in all programs and activities. Title VI requires that no person in the United States of America shall, on the grounds of race, color, or national origin, be excluded from the participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity for which Georgetown County receives federal financial assistance. Any person who believes they have been aggrieved by an unlawful discriminatory practice under Title VI has a right to file a formal complaint with Georgetown County. Any such complaint must be in writing and filed with Georgetown County’s Title VI Coordinator within one hundred and eighty (180) days following the date of the alleged discriminatory

occurrence. For more information, or to obtain a Title VI Discriminatory Complaint Form, please see our website at <http://www.gtcountry.org/about/faqs.html>.

12. Any deviations from the specifications or modification of this bid and any extra or incidental work or reductions in work shall be set forth in writing and signed by both parties prior to making such change. Any increase or decrease in the bid price resulting from such change shall be included in writing.
13. Exceptions: The bidder shall list on a separate sheet of paper any variations from, or exceptions to, the conditions and specifications of this bid. This sheet shall be labeled "Exception(s) to Bid Conditions and Specifications," and shall be attached to the bid. When Proposers find instances where they must take exception with certain requirements or specifications of the bid, all exceptions shall be clearly identified. Written explanations shall include the scope of the exceptions, the ramifications of the exceptions for the County of Georgetown, and a description of the advantage to be gained or disadvantages to be incurred by the County as a result of these exceptions. If none, write "NONE".
14. Georgetown County reserves the right to reject any or all bids, and to waive as an informality any irregularities contained in any bid as may be deemed in the best interest of the County. Georgetown County further reserves the right to reject any bid submitted, at its sole option, that the vendor may not be able to meet the service requirements of the bid.
15. Publicity releases: contractor agrees not to refer to award of any resulting contract in commercial advertising in such a manner as to state or imply that the products or services provided are endorsed or preferred by the user.
16. Material Safety Data Sheets: The County of Georgetown will not receive any materials, products, or chemicals which may be hazardous to an employee's health unless accompanied by a Material Data Sheet when received.
17. Ownership of Copyright: All right, title and interest in all copyrightable materials which vendor shall create in the performance of its obligations hereunder shall be the property of the procurer. Vendor agrees to assign and hereby does assign any and all interest it has in and to such material to procurer. Vendor agrees, upon the request of procurer to execute all papers and perform all other such acts necessary to assist procurer to obtain and register copyrights on such materials. Where applicable, works of authorship created by the vendor in the performance of its obligations hereunder, shall be considered "works for hire" as defined in the U.S. Copyright Act.
18. Ownership of Documents: Any reports, studies, photographs, negatives or other documents prepared by vendor in the performance of its obligations shall be the exclusive property of the procurer and all such material shall be remitted to the procurer by the vendor upon completion, termination or cancellation of this order. Vendor shall not use, willingly allow or cause to have such material used for any purpose other than performance of its obligations under this order without the prior written consent of the procurer.
19. Affirmative Action: The contractor will take affirmative action in complying with all Federal and State requirements concerning fair employment and employment of the handicapped, and concerning the treatment of all employees, without regard or discrimination by reason of age, race, color, religion, sex, national origin or physical handicap. The following are incorporated herein by reference: 41 C.F.R. 60-1.4, 60-250.4 and 60-741.4.
20. Inclusion and participation of disadvantaged, small, and local business entities is strongly encouraged, but minimum participation standards are not in effect for this project.

21. Federally Funded Construction Contracts Over \$2,000:

- a) Davis-Bacon Requirements. These contracts need to include a provision for compliance with the Davis-Bacon Act (40 USC 276a to a—7) and the Department of Labor implementing regulations (29 CFR Part 5). Under this Act, Contractors are required to include the contract provisions in Section 5.5 (a) of 29 CFR Part 5, and to pay wages to laborers and mechanics at a rate not less than the minimum wages specified in the wage determination made by the Secretary of Labor. In addition, Contractors shall be required to pay wages not less than the minimum wages specified in the wage determination made by the Secretary of Labor. In addition, Contractors shall be required to pay wages not less often than once a week. Current Wage Determination for Georgetown County in South Carolina is available on-line at:
https://beta.sam.gov/search?index=wd&keywords=Georgetown&sort=-relevance&wdType=dbra&page=1&date_filter_index=0&inactive_filter_values=false.
- b) Contract Work Hours and Safety Standard Act Requirements. The contracts must include a provision for compliance with Sections 103 and 107 of the Contract Work Hours and Safety Standards Act (40 USC 327-330) as supplemented by the Department of Labor regulations (29 CFR Part 5). Under Section 103 of the Act, each Contractor shall be required to compute the wages of every mechanic and laborer on the basis of a standard workweek of 40 hours. Work in excess of the standard workweek is permissible provided that the worker is compensated at a rate not less than one times the basic rate of pay for all hours worked in excess of 40 hours in the workweek. Section 107 of the Act is applicable to construction work and provides that no laborer or mechanic shall be required to work in surroundings or under working conditions which are unsanitary, hazardous, or dangerous to health and safety as determined under construction, safety and health standards promulgated by the Secretary of Labor. These requirements do not apply to the purchases of supplies, materials, or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.
- c) Copeland “Anti-Kickback” Act Requirements. All construction contracts over \$2,000.00 must include a provision for compliance with the Copeland “Anti-Kickback” Act (18 U.S.C. 874) as supplemented in Department of Labor regulations (29 CFR Part 3). This act provides that each Contractor shall be prohibited from inducing, by any means, persons employed in the construction, completion, or repaid of public work to give up any part of their compensation.

22. Bidders must clearly mark as "confidential" each part of their bid which they consider to be proprietary information that could be exempt from disclosure under section 30-4-40, Code of Laws of South Carolina 1976, as amended (Freedom of Information Act). If any part is designated as confidential, there must be attached to that part an explanation of how this information fits within one or more categories listed in section 30-4-40. The County reserves the right to determine whether this information should be exempt from disclosure and no legal action may be brought against the County or its agents for its determination in this regard.

23. CERTIFICATION REGARDING DRUG-FREE WORKPLACE:

The contractor certifies that the vendor(s) will provide a “drug-free workplace” as that term is defined in Section 44-107-30 of the Code of Laws of South Carolina, 1976, as amended, by the complying with the requirements set forth in title 44, Chapter 107.

24. Certification of Non-Segregated Facilities

The federally-assisted construction contractor certifies that he does not maintain or provide, for his employees, any segregated facilities at any of his establishments and that he does not permit his employees to perform their services at any location, under his control, where segregated facilities are maintained. The federally-assisted construction contractor certifies that he will not maintain or provide, for his employees, segregated facilities at any of his establishments and that he will not permit his employees to perform their

services at any location under his control where segregated facilities are maintained. The federally-assisted construction contractor agrees that a breach of this certification is a violation of the Equal Opportunity Clause in this Contract.

As used in this certification, the term "segregated facilities" means any waiting rooms, work areas, restrooms, and washrooms, restaurants and other eating areas, time clocks, locker rooms and other storage or dressing areas, parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing facilities provided for employees which are segregated on the basis of race, color, religion, or national origin because of habit, local custom, or any other reason. The federally assisted construction contractor agrees that (except where he has obtained identical certifications from proposed subcontractors for specific time periods) he will obtain identical certifications from proposed subcontractors prior to the award of subcontracts exceeding \$10,000 which are not exempt from the provisions of the Equal Opportunity Clause and that he will retain such certifications in his files.

25. Nothing herein is intended to exclude any responsible vendor, his product or service or in any way restrain or restrict competition. On the contrary, all responsible vendors are encouraged to bid and their bids are solicited.

26. Acknowledgement of Addenda

Each contractor is responsible to verify the number of total addenda issued prior to bid. **Failure to acknowledge all addenda may disqualify the bidder.** All addenda are posted by the County at the website located at www.georgetowncountysc.org, select "Bid Opportunities" from the Quick Links box, then "View Current Bid Solicitations". It is each proposer's responsibility to verify that all addenda have been received and acknowledged.

27. This Request for Proposal covers the estimated requirements to provide Professional Fleet Repair & Maintenance for Georgetown County. The purpose is to establish a Term Contract with firm pricing and delivery under which the department may place orders as needed. The right is reserved to extend the use of this contract to any County Department.

28. TERMS OF AGREEMENT / RENEWAL

The initial term of any resulting contract shall be for a period of one (1) calendar year, effective from last date of signed contract. The County reserves the right to negotiate with the successful bidder, after contract award, for an additional discount should available funds permit the purchase of additional units within the fiscal year. The County reserves the right, at its sole option, to renew the contract for four (4) additional consecutive terms, contingent upon satisfactory performance in the prior period. The contract will auto-renew annually unless written notice of termination is provided up to a maximum period of five (5) years total.

29. PRICE ESCALATION/DE-ESCALATION:

Prices are to remain firm for the first contract period. In subsequent terms, the contractor may request, in writing at least sixty (60) days in advance of the contract ending date, an increase/decrease. Should the County elect to exercise the option to renew the contract for additional year(s), the contract prices for the additional years shall not exceed the percentage increase/decrease of the "Services" category of the CPI-W SECTION OF THE COMSUMER PRICE INDEX of the United States Bureau of Labor Statistics for the latest twelve month for which statistics are available. Should the price change be granted and the County elects to renew the contract, the purchase order will reflect the changes.

30. Bids must be made on Proposal or Bid Form furnished or will be rejected. Proposals shall be typewritten or written in ink on the form prepared by the County. The person signing the bid shall initial all corrections or erasures.

31. Insurance

The successful bidder shall procure, maintain, and provide proof of, insurance coverage for injuries to persons and/or property damage as may arise from or in conjunction with, the work performed on behalf of the County by the bidder, his agents, representatives, employees or subcontractors. Proof of coverage as contained herein shall be submitted fifteen (15) days prior to the commencement of work and such coverage shall be maintained by the bidder for the duration of the contract period; for occurrence policies.

a. General Liability

Coverage shall be as broad as: Comprehensive General Liability endorsed to include Broad Form, Commercial General Liability form including Products/Completed Operations.

1. Minimum Limits

General Liability:

- \$1,000,000 General Aggregate Limit
- \$1,000,000 Products & Completed Operations
- \$1,000,000 Personal and Advertising Injury
- \$1,000,000 Each Occurrence Limit
- \$50,000 Fire Damage Limit
- \$5,000 Medical Expense Limit

b. Automobile Liability

Coverage sufficient to cover all vehicles owned, used, or hired by the bidder, his agents, representatives, employees or subcontractors.

1. Minimum Limits

Automobile Liability:

- \$1,000,000 Combined Single Limit
- \$1,000,000 Each Occurrence Limit
- \$5,000 Medical Expense Limit

c. Workers' Compensation

Limits as required by the Workers' Compensation Act of SC. Employers Liability, \$1,000,000.

d. Owners' & Contractors' Protective Liability

Policy will be in name of County. Minimum limits required are \$1,000,000.

e. Garage Keeper's Liability

Minimum limits are \$1,000,000 per occurrence.

f. Coverage Provisions

1. All deductibles or self-insured retention shall appear on the certificate(s).
2. The County of Georgetown, its officers/ officials, employees, agents and volunteers shall be added as "additional insured" as their interests may appear. This provision does not apply to Professional Liability or Workers' Compensation/Employers' Liability.
3. The offeror's insurance shall be primary over any applicable insurance or self-insurance maintained by the County.
4. Shall provide 30 days written notice to the County before any cancellation, suspension, or void of coverage in whole or part, where such provision is reasonable.
5. All coverage for subcontractors of the bidder shall be subject to all of the requirements stated herein.
6. All deductibles or self-insured retention shall appear on the certificate(s) and shall be subject to approval by the County. At the option of the County, either; the insurer shall

reduce or eliminate such deductible or self-insured retention; or the bidder shall be required to procure a bond guaranteeing payment of losses and related claims expenses.

7. Failure to comply with any reporting provisions of the policy(s) shall not affect coverage provided the County, its officers/officials, agents, employees and volunteers.
8. The insurer shall agree to waive all rights of subrogation against the County, its' officers/officials, agents, employees or volunteers for any act, omission or condition of premises which the parties may be held liable by reason of negligence.
9. The bidder shall furnish the County certificates of insurance including endorsements affecting coverage. The certificates are to be signed by a person authorized by the insurance company(s) to bind coverage on its' behalf, if executed by a broker, notarized copy of authorization to bind, or certify coverage must be attached.
10. All insurance shall be placed with insurers maintaining an A.M. Best rating of no less than an A:VII. If A.M. Best rating is less than A:VII, approval must be received from County's Risk Officer.

32. Workman's Compensation Coverage

Georgetown County, SC will require each contractor and service provider to maintain on file with the purchasing officer, a current Certificate of Insurance showing limits as required by the Workers' Compensation Act of SC: Employers Liability, \$1,000,000.

The law also recognizes "statutory employees." These are employees who work for a subcontractor who may be working for a business or another contractor. Employers should inquire whether or not a subcontractor working for them has workers' compensation insurance, regardless of the number of employees employed by the subcontractor. If the subcontractor does not, the subcontractor's injured employees would be covered under the employer's workers' compensation insurance. If the subcontractor does not carry workers' compensation insurance, then the owner or the principal contractor would be liable just as if the subcontractor's employee was one of their employees.

For answers to additional questions, visit the SC Worker's Compensation Commission website, at:
<http://www.wcc.sc.gov/Pages/FrequentlyAskedQuestions.aspx#empl>

33. Hold Harmless Clause

The Contractor shall, during the term of the contract including any warranty period, indemnify, defend, and hold harmless the County, its officials, employees, agents, and representatives thereof from all suits, actions, or claims of any kind, including attorney's fees, brought on account of any personal injuries, damages, or violations of rights, sustained by any person or property in consequence of any neglect in safeguarding contract work or on account of any act or omission by the contractor or his employees, or from any claims or amounts arising from violation of any law, bylaw, ordinance, regulation or decree. The vendor agrees that this clause shall include claims involving infringement of patent or copyright.

34. Condition of Items

All items shall be new, in first class condition, including containers suitable for shipment and storage, unless otherwise indicated herein. Verbal agreements to the contrary will not be recognized.

35. Workmanship and Inspection

All work under this contract shall be performed in a skillful and workmanlike manner. The County may, in writing, require the Contractor to remove any employee from work that the County deems incompetent or careless.

Further, the County may, from time to time, make inspections of the work performed under this contract. Any inspection by the County does not relieve the Contractor from any responsibility regarding defects or other failures to meet the contract requirements.

36. Invoicing and Payment

The Contractor shall submit invoices on a frequency to be determined, as agreed upon by the County, for each payment requested. Such invoice shall also include a detailed breakdown of all charges. All such invoices will be paid within thirty (30) days unless any items thereon are questioned, in which event payment will be withheld pending verification of the amount claimed and the validity of the claim. The firm shall provide complete cooperation during any such investigation. All invoices shall be forwarded to the following address:

County of Georgetown
Accounts Payable, Finance Dept.
P.O. Box 421270
Georgetown, SC 29442-4200

An IRS W-9 form must be on file with the Purchasing Office before any payment will be issued.

South Carolina Sales Tax

The County of Georgetown, SC is not exempt and pays the appropriate SC sales tax on all applicable purchases.

37. Assignment of Contract

This contract may not be assigned in whole or part without the written consent of the Purchasing Officer.

38. Termination

Subject to the provisions below, the contract may be terminated by the County upon sixty (60) days advance written notice to the other party; but if any work or service hereunder is in progress, but not completed as of the date of termination, then this contract may be extended upon written approval of the County until said work or services are completed and accepted.

a. Termination for Convenience

In the event that this contract is terminated or canceled upon request and for the convenience of the County, without the required sixty (60) days advance written notice, then the County shall negotiate reasonable termination costs, if applicable.

b. Termination for Cause

Termination by the County for cause, default or negligence on the part of the contractor shall be excluded from the foregoing provision; termination costs, if any, shall not apply. The sixty (60) days advance notice requirement is waived in the event of Termination for Cause.

c. Non-Appropriation:

It is understood and agreed by the parties that in the event funds are not appropriated in the current fiscal year or any subsequent fiscal years, this contract will become null and void and the County will only be required to pay for services completed to the satisfaction of the County.

39. Default

In case of default by the contractor, for any reason whatsoever, the County may procure the goods or services from another source and hold the contractor responsible for any resulting excess cost and may seek other remedies under law

40. Severability

In the event that any provision shall be adjudged or decreed to be invalid, such ruling shall not invalidate the entire Agreement but shall pertain only to the provision in question and the remaining provisions shall continue to be valid, binding and in full force and effect.

41. Applicable Laws

This Agreement shall be governed by and construed in accordance with the laws of the State of South Carolina, U.S.A.

42. Claims and Disputes:

All claims, disputes and other matters in question between parties arising out of, or relating to, this Agreement, or the breach thereof, shall be decided in the Circuit Court of the Fifteenth Judicial circuit in Georgetown County, South Carolina. By executing this Agreement, all parties specifically consent to venue and jurisdiction in Georgetown County, South Carolina and waive any right to contest jurisdiction and venue in said Court.

43. Rights of County

The County reserves the right to reject all or any part of any bid, waive informalities and award the contract to the lowest responsive and responsible bidder to best serve the interest of the County.

44. Notice of Award

A *Notice of Intent to Award* will be mailed to all respondents.

45. Protest

Bidders may refer to Sections 2-67, 2-73, and 2-74 of Ordinance #20-32, also known as the Georgetown County, South Carolina Purchasing Policy to determine their remedies concerning this competitive process. The failure to be awarded a bid shall not be valid grounds for protest.

46. Debarment

By submitting a bid, the offeror certifies to the best of its knowledge and belief, that it and its principals, sub-contractors and assigns are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal, State or local department or agency. A copy of the County's debarment procedure in accordance with Section 2-68 of Ordinance #20-32, also known as the Georgetown County, South Carolina Purchasing Policy is available upon request.

47. Firm Pricing for County Acceptance

Bid price must be firm for County acceptance for 90 days from bid opening date. "Discount from list," bids are not acceptable unless specifically requested.

48. Quotations to be F.O.B.: Destination

Quote F.O.B.: Destination for this competitive sealed bid. As an alternate, show exact cost for delivery.

49. Unit Prices and Extension

Bid unit price on quantity specified -- extend and show total. In case of errors in extension, unit prices shall govern. Bids subject to unlimited price increases will not be considered.

50. Use of Brand Names (If Appropriate)

Unless otherwise stated in an Invitation for Bid, the name of a certain brand, make or manufacturer does not restrict bidders to the specific brand, make or manufacturer named; it conveys the general style, type, character, and quality of the article desired, and any article which the County in its sole discretion determines to be the equal of that specified, considering quality, workmanship, economy of operation, and suitability for the purpose intended, shall be accepted. Any catalog, brand name or manufacturer's reference used in bid invitation is descriptive - NOT restrictive - it is to indicate type and quality desired. Bids on brands of like

nature and quality will be considered. If bidding on other than reference or specifications, bid must show manufacturer, brand or trade name, catalog number, etc. of article offered. If other than brand(s) specified is offered, illustrations and complete description must be submitted with bid. Samples may be required. If bidder makes no other bid and takes no exception to specifications or reference data, he will be required to furnish brand names, numbers, etc., as specified. Bidders must certify that item(s) bid upon meet and/or exceed specifications.

51. Delivery After Receipt of Order (ARO)

Bid must show the number of days required to place material in using agency's receiving room under normal conditions. Failure to state delivery time obligates bidder to complete delivery in fourteen (14) calendar days. Unrealistically short or long delivery promised may cause bid to be disregarded. Consistent failure to meet delivery promises without valid reason may cause removal from bid list. Delivery shall be made during normal working hours only, 9 to 5, unless prior approval has been obtained from the County.

52. Permits

The successful Offeror must be responsible for obtaining all necessary city, county, and state permits/licenses and must comply with all local codes and ordinances. Copies of such permits/licenses shall be made available to the County upon request. Building contractors working within Georgetown County must also secure a Contractor's License from the Building Department. Work within the Georgetown City Limits may require a City Business License. For additional information, please review the "Forms and Fees" section of the Building and Planning web page at the link below:

<http://www.georgetowncountysc.org/building/default.html>

53. Environmental Management:

Vendor/Supplier/Contractor will be responsible for complying with all federal, state and local environmental regulations relating to transportation, handling, storage, spillage and any other aspect of providing the services specified herein, as applicable.

54. Bid Tabulation Results

Vendors wishing to view the bid tabulation results may visit the Georgetown County, SC web-site at: <http://www.georgetowncountysc.org>. Select "Bid Opportunities" from the Quick Links box, then "View Current Bid Solicitations", click on the "Expired" tab and double click the link under the individual bid listing.

55. The Bidder hereby certifies that he or she has carefully examined all of the Documents for the project, has carefully and thoroughly reviewed this Request for Bid/Quotation, has inspected the location of the project (if applicable), and understands the nature and scope of the work to be done; and that this Bid is based upon the terms, specifications, requirements, and conditions of the Request for Bid/ Documents. The Bidder further agrees that the performance time specified is a reasonable time, having carefully considered the nature and scope of the project as aforesaid.

56. Any attempt by the vendor to influence the opinion of County Staff or County Council by discussion, promotion, advertising, misrepresentation of the submittal or purchasing process or any procedure to promote their offer will constitute a violation of the vendor submittal conditions and will cause the vendor's submittal to be declared null and void.

57. Apparent omission of a detailed description concerning any point, shall be regarded as meaning the best commercial practice is to prevail and that only material and workmanship of the finest quality are to be used.

58. Response Clarification

Georgetown County reserves the right to request additional written or oral information from Bidders in order to obtain clarification of their Responses.

59. The County's Local Vendor Preference Option is waived for this solicitation as per Sec. 2-50.6 (b) of the County's Procurement Ordinance 20-32. and Sec. 2-50 (e) due to the unique nature of services sought.
60. The successful proposer will be required to provide a Certificate of Insurance naming Georgetown County, SC as an additional insured and a signed IRS Form W-9. This must be on file with the Purchasing Department prior to any services being performed and must be on file within fifteen (15) days of written notification of award.

12. Suspension and Debarment

Federal guidelines require grant recipients to obtain sufficient assurance that vendors are not suspended or debarred from participating in federal programs when contracts exceed \$25,000. By signing below you verify that no party to this agreement is excluded from receiving Federal contracts, certain subcontracts, and certain Federal financial and nonfinancial assistance and benefits, pursuant to the provisions of 31 U.S.C. 6101, note, E.O. 12549, E.O. 12689, 48 CFR 9.404, and each agency's codification of the Common Rule for Nonprocurement suspension and debarment. [See <https://www.epls.gov/> for additional information.]

13. If the bid is accepted, the required Contract must be executed within fifteen (15) days after receipt of written notice of formal award of Contract.

14. Will you honor the submitted prices for purchase by other departments within Georgetown County and by other government entities who participate in cooperative purchasing with Georgetown County, South Carolina?

Yes No

15. Acceptance of Invitation for Bid Content:

The contents of the successful IFB/IFB are included as if fully reproduced herein. Therefore, theselected contractor must be prepared to be bound by his/her proposal as submitted.

16. RENEWAL OF CONTRACT

The continuation of the terms, conditions, and provisions of any resulting contract beyond the fiscal year is subject to approval and ratification by the Georgetown County Council and appropriation by them of the necessary money to fund said contract for each succeeding year.

17. CERTIFICATION REGARDING DRUG-FREE WORKPLACE:

The undersigned certifies that the vendor listed below will provide a “drug-free workplace” as that term is defined in Section 44-107-30 of the Code of Laws of South Carolina, 1976, as amended, by the complying with the requirements set forth in title 44, Chapter 107.

Yes No

18. Any attempt by the vendor to influence the opinion of County Staff or County Council by discussion, promotion, advertising, misrepresentation of the submittal or purchasing process or any procedure to promote their offer will constitute a violation of the vendor submittal conditions and

will cause the vendor's submittal to be declared null and void.

19. The lowest or any proposal will not necessarily be accepted and the County reserves the right to award any portion thereof. I/We, the undersigned, hereby confirm that all the above noted documents for Bid/Invitation for Bid No. 22-025 were received.

20. MINORITY PARTICIPATION [INFORMATION ONLY]

(If more than one minority contractor will be utilized in the performance of this contract, please provide the information above for each minority business.)

SBA 8 (a) certification referral

Other minorities (Native American, Asian, etc.)

(If more than one minority contractor will be utilized in the performance of this contract, please provide the information above for each minority business.)

21. ILLEGAL IMMIGRATION: Non-Construction (NOV. 2008): (An overview is available at www.procurement.sc.gov) By signing your offer, you certify that you will comply with the applicable requirements of Title 8, Chapter 14 of the South Carolina Code of Laws and agree to provide to the State upon request any documentation required to establish either: (a) that Title 8, Chapter 14 is inapplicable to you and your subcontractors or sub-subcontractors; or (b) that you and your subcontractors or sub-subcontractors are in compliance with Title 8, Chapter 14. Pursuant to Section 8-14-60, "A person who knowingly makes or files any false, fictitious, or fraudulent document, statement, or report pursuant to this chapter is guilty of a felony, and, upon conviction, must be fined within the discretion of the court or imprisoned for not more than five years, or both." You agree to include in any contracts with your subcontractors language requiring your subcontractors to (a) comply with the applicable requirements of Title 8, Chapter 14, and (b) include in their contracts with the sub- subcontractors language requiring the sub-subcontractors to comply with the applicable requirements of Title 8, Chapter 14. ATTACHMENT E: Section 18.8.5 of GC Standard Operating Procedures (SOP)

**GEORGETOWN COUNTY
POLICY AND PROCEDURES MANUAL**

SECTION: Department Policy		TITLE: Aboveground Storage Tank Operation and Maintenance	
SUBJECT: Procedure and guidelines for Aboveground Storage Tank (AST) operation and maintenance.			
PURPOSE:		To provide procedure and guidelines for operation and maintenance Aboveground Storage Tanks (AST's) used for fuel storage.	
APPLICABILITY		Aboveground Storage Tanks limited to tanks used for the storage of petroleum products. Limited to regulations promulgated by the United States Environmental Protection Agency (EPA), South Carolina Department of Health and Environmental Services (SCDHEC), National Fire Protection Association (NFPA), Fire Authority Having Jurisdiction (FAHJ) and the South Carolina State Fire Marshall.	
PAPERWORK TO BE MAINTAINED BY INSPECTOR		<p>The following items should be kept on-hand by the person responsible for inspection and maintenance (Inspector). A copy of paperwork should be left on site if possible(Knox box or on file):</p> <ul style="list-style-type: none"> • AST information form with all applicable information about tank • AST Facility Diagram or As-built drawings • Record of all incidents • Record of all repairs or maintenance • Previous 12 Monthly Leakage Log Sheets • Previous 12 Monthly Inspection Check Lists • Release Response Contact Information Sheet 	
INSPECTION PROCEDURE		<p>Inspector shall be responsible for performing routine monthly inspections and recording results. Inspection includes visual check of condition of tank, supports, foundation, hoses, piping, fencing, vents, overflow device, emergency shutoff, containment drain, containment area, gauges, alarm, fire extinguisher and access area. In addition inspector should look for signs of release at the tank, on the ground, in containment area, around seals and gaskets, at the pumps or from hoses.</p> <p>Any signs of leakage or compromised facilities should be reported immediately. If spill is incidental, manageable and poses no safety and</p>
