The successful offeror must have the capacity to conduct background searches listed below to conduct an extensive and thorough investigation to yield the most accurate results.

Background

Currently, APS utilizes Kelmar Global and RecordPros for these services. In order to be in compliance with State of New Mexico Procurement Code, APS is issuing this RFP.

Currently, APS pays \$10.00 for each background check per current searches listed below.

The following is the yearly spend for these services.

Fiscal Year	Yearly spend
2014-2015	\$78,200
2015-2016	\$94,620
2016-2017	\$94,070
2017- current	\$69,999

The following are estimates for volunteer background checks and employee background check renewals. Please Note: The contract will be on an as needed basis and does not guarantee a minimum amount.

Estimated Quantity	Description	APS
9,400	Background checks	Volunteers

Currently the following searches are run:

- National Database Search (GIS database include but is not limited to State and National Administrative Offices of Courts, Sex Offender Registry searches, Terrorist Watch List, Office of Foreign Asset Control (OFAC), Criminal records search as well as county searches from the United States
- Social Security Number Trace & Validation (develops previous name and address history)
- Death Master Index Check
- County Criminal Search (county searches on all names and address developed from SSN trace)
- State and National Department Of Correction (information including criminal background to include dates and level of crime)

APS has a 12% hit ratio.

More information regarding background checks for prospective volunteers:

<http://www.aps.edu/police/background-and-fingerprinting/background-checks-for-prospective-volunteers>

The successful offeror must be able to provide results to APS within three (3) business days from submission for background check.

APS reserves the right to question a background check results which does not meet specifications at the successful offerors expense and ask for further investigation. Successful Offeror guarantees all background checks are through, accurate and using the databases as described in background information.

It is highly desirable that the successful offerors reporting software (API) should be able to interface with WinOcular System Version 1.0.42 currently in use at APS. Offerors should include current customers that this interface is in practice and can demonstrate the ability to interface with WinOcular Systems.

APS current employee and volunteer Database: WinOcular Systems Version 1.0.42 from combined Computer Resources, Inc

Interface with WinOcular Systems means: Offeror should be able to access necessary data needed for a complete background check from WinOcular Systems and to update applicants' record with results or status of background outcome using automated process.

Data that is transferred should be transmitted per the highest level of security to protect sensitive identifiable personal information.

Additional information requested

Provide a description of the dispute resolution process in the event the person being investigated would pursue a dispute and resolve an adverse finding and/or error.

Provide a description of the notification that is provided to the applicant informing of the outcome of background check.
