Background

The City of Georgetown (City) is an incorporated municipality with a population of nearly 9,000 residents. The city is located 60 miles north of Charleston and 36 miles south of Myrtle Beach. It is the endpoint of the area commonly known as "The Grand Strand." The Winyah Bay borders the city to the east and the Sampit River to the south. Tourism is a major economic driver in the area, as well as local industries, such as Liberty Steel, International Paper and Tideland Hospital. The city is the county seat and operates under the Mayor-Council form of government as outlined in the State of South Carolina Code Chapter II, Article I, Section 2-1. Additional information is available on our website at www.georgetownsc.gov.

Purpose/Project Description

The City of Georgetown is seeking bids from licensed and qualified contractors to replace sidewalks along Front Street and Wood Street in the city's Historic District.

Contractors shall visit the site to become familiar with the conditions and restrictions. Failure to visit the site shall in no way relieve contractor of any obligation with respect to this RFB or to the contractual agreement.

All ambiguities, discrepancies, errors, omissions, or conflicting statements in this RFB shall be interpreted to require the better quality or greater quantity of work and/or materials, unless otherwise directed by addendum. Bidders assume responsibility for any patent ambiguity in the solicitation that their representatives do not bring to the city's attention.

Preliminary Site Information

The work zone includes the north side and south side of Front Street between Wood and Queen Streets in the city's Historic District. Additional work is required on Wood Street from Front Street to the dead end of the street.

Contractors must be aware that this portion of Front Street in the Historic District is a vibrant shopping district with a heavy presence of vehicular and pedestrian traffic, particularly at lunchtime hours.

The contractor can perform the work during daylight hours only from 7 AM until 6 PM Monday through Friday. Weekend work may be authorized provided the contractor notifies the business or homeowners residing in front of the work area and only due to emergency or weather makeup days.

Scope of Services

The contractor shall be responsible for providing all materials, labor, tools, and equipment necessary to complete the project.

The contractor shall take caution to protect pedestrians and provide traffic control within the construction zone.

The contractor shall complete the work within forty-five (45) calendar days after the Notice to Proceed. There are no liquidated damages.

Where a section of existing sidewalk or driveways is to be removed, cut the existing section to a minimum depth of 2 inches in a straight line pattern with a suitable saw and remove the entire section as designated by the City representative, do not exceed bid quantities unless City's approval is obtained in advance.

Finish surface by brooming transverse to the line of traffic.

Protect and cure newly placed concrete surface. Cure with a liquid membrane-forming compound meeting the SCDOT Section 702 standards.

Protect the new concrete surface until it hardens to prevent hand, foot, or animal paw imprints.

Clean-up the work area after each workday.

Retainage is 10% in all monthly payment invoices. Retainage will be released after final acceptance by the City.

Warranty

The contractor shall warranty the work for a minimum of two years from the date of final acceptance.

Technical Specifications

Concrete sidewalks shall be 4 inches in depth; driveways shall be 6 inches in depth.

Refer to SCDOT Standard Construction Specifications, Section 720 for Sidewalks.

Concrete for sidewalks shall be a minimum of 3,000 PSI strength at 28 days, air-entrained, reinforced with fiber mesh. Concrete for driveways shall be a minimum of 4,000 PSI strength at 28 days, fiber reinforced.

Use liquid curing compound conforming to AASHTO M 148, Class A or Class B.

Submit concrete mix design and curing compound data sheet for City's approval before the start of construction activities.
