

## Notice to Interested Parties: Water Clarification Chemical Trials

The City of Johnson City Water/Sewer Division wishes to conduct plant trials on water clarification chemicals. Interested parties will need to provide a drum of proposed product so that jar test trials can be performed. If a product that the City has never used at the plant before performs well during the jar test portion of the plant trial, a full plant trial (feeding the water clarification chemical at the plant to see how well it performs) would also be desired prior to approving the product for use at our water treatment plant facilities.

Samples will be accepted until November 30, 2022

Please contact Michael Tolbert [mjtolbert@johnsoncitytn.org](mailto:mjtolbert@johnsoncitytn.org) or 423-975-2646 for questions and instructions for providing materials for testing.
