## **RFI LOG - LANEY CUP RFP**

Project: Laney Central Utility Plant Upgrade

Location: Laney College

RFI NO.		DESCRIPTION	FROM	DATE RECEIVED	CRITERIA DOCS TEAM RESPONSE	Date Sent	ADDM.	Status
Number P001	Rev.	We have been going through the RFP documents and have not been able to find civil drawings with invert elevations of the existing utilities in the vicinity of the new cooling tower building. Are there as built or field surveys that have been conducted that shows these invert elevations?	Peterson	9/18/2020	All known invert elevations are shown on the current Criteria Documents			CDT responded
P002	0	1. Please advise if it is acceptable to provide the documents in the proposal in 11x17 pdf format such as Project Renderings, Schedules, Site Utilization and etc.  2. Tabs 1-5 have a maximum page count identified. Please confirm that Tabs 6-12 do not have page limit restrictions.  3. Please confirm that there is not an overall proposal page count limit for the entire submission  4. Please confirm that Tab 9 has no page limit and that the statement regarding the insurance letter can be included in an appendix so it doesn't count towards page count  5. Please confirm that the Pass/Fail "weight" for Skilled Labor Force Availability and Safety Record Factors as noted on Page 15 of the RFP (Selection Criteria and Procedures) will be evaluated from our prior RFQ submission and do not need to be re-stated in this proposal submission.  6. Please provide the CAD files used for the bridging documents (sent on Friday, 09/18).	Gilbane		Yes - plans, renderings, sketches etc. acceptable in 11 x 17 format. 2. Correct     Correct     Correct     Correct     To be issued via addendum			CDT responded
