Any such subsequent evaluations will be based on the same criteria.

The County reserves the right to accept or reject and to waive any informalities or irregularities in the proposals and to contract as the best interests of the County require in order to obtain the services described in this RFP. Selection of an Offeror’s proposal does not mean that all aspects of the proposal are acceptable to the County. The County reserves the right to negotiate terms and conditions with the selected Offeror before executing a contract.

All communications relating to this solicitation must be submitted online using Vendor Registry. For a question to be considered, the question must be entered in the Question Section of the **RFP No. 22-CPHD-RFP-500**. Prior to the award of a contract resulting from this solicitation, Offerors are prohibited from contacting any County staff other than those assigned to the Office of the Purchasing Agent.

QUESTIONS REGARDING THE ORIGINAL SOLICITATION MUST BE SUBMITTED BY JANUARY 5, 2022 AT 5:00 P.M. EASTERN TIME TO BE CONSIDERED FOR ADDENDUM. ALL QUESTIONS RECEIVED BY THE QUESTION DEADLINE WILL BE RESPONDED TO WITHIN VENDOR REGISTRY AND POSTED FOR ALL OFFERORS. THE SYSTEM WILL NOT ACCEPT ANY QUESTIONS AFTER THIS DATE AND TIME.

If any questions or responses require revisions to this solicitation, such revisions will be by formal Addendum only. Offerors are cautioned not to rely on any written, electronic, or oral representations made by any County representative or other person, including the County's technical contact, that appear to change any portion of the solicitation, unless the change is ratified by a written Addendum to this solicitation issued by the Office of the Purchasing Agent.

3. OFFERORS' RESPONSIBILITY TO INVESTIGATE

Before submitting a proposal, each Offeror must make all investigations necessary to ascertain all conditions and requirements affecting the full performance of the contract and to verify any representations made by the County upon which the Offeror will rely. No pleas of ignorance of such conditions and requirements will relieve the successful Offeror from its obligation to comply in every detail with all provisions and requirements of the contract or will be accepted as a basis for any claim for any monetary consideration on the part of the successful Offeror.

4. INTEREST IN MORE THAN ONE PROPOSAL, AND COLLUSION

Reasonable grounds for believing that an Offeror is interested in more than one proposal for a solicitation, including both as an Offeror and as a subcontractor for another Offeror, or that collusion exists between two or more Offerors, will result in rejection of all affected proposals. However, an individual or entity acting only as a subcontractor may be included as a subcontractor on two or more different Offerors' proposals. Offerors rejected under the above provision will also be disqualified if they respond to a re-solicitation for the same work.

5. COMPETITIVE NEGOTIATION FOR NON-PROFESSIONAL SERVICES

This solicitation is a competitive negotiation for services, as defined in the Arlington County Purchasing Resolution. The content of the proposals and the identity of the offerors are not public record until a Notice of Decision to Award has been issued. The opening of proposals is therefore not public.

6. NOTICE OF DECISION TO AWARD

When the County has made a decision to award a contract(s), the County will post an Award Notice or Intent to Award to [Vendor Registry](#).

7. TRADE SECRETS OR PROPRIETARY INFORMATION

Trade secrets or proprietary information that an Offeror submits in connection with a procurement transaction may be exempted from public disclosure under the Virginia Freedom of Information Act ("VFOIA"). However, the Offeror must invoke VFOIA protection clearly and in writing on the Proposal Form for County review. The Proposal Form must include at least the following: (1) the data or other materials sought to be protected and (2) specific reasons why the material is confidential or proprietary. It is the Offeror's sole responsibility to defend such exemptions if challenged in a court of competent jurisdiction.

8. FINANCIAL STATEMENT

If requested by the County, an Offeror must submit its most recent independent certified public accountant's audit of its finances, including the management letter and other ancillary audit components. If the audited financial statement is not available, the Offeror must submit a written statement explaining the statement's absence and provide other documents (e.g., tax returns) that enable the County to assess the Offeror's financial condition. Failure to submit a financial statement upon request will be grounds for immediate disqualification. If the financial statement is not for the identical organization submitting the offer, the Offeror must submit a written explanation of the relationship and financial responsibility of the organization whose financial statement is provided (e.g., parent-subsiary).

The County will return the financial statement at the conclusion of the award process only upon receipt of a written request signed by an officer of the organization or the same person who signed the original Proposal Form. The County considers a non-public financial statement submitted pursuant to this paragraph to be proprietary information that is not subject to disclosure under VFOIA.

9. DEBARMENT STATUS

The Offeror must indicate on the Proposal Form whether it or any of its principals is currently debarred from submitting proposals to the County or to any other state or political subdivision and whether the Offeror is an agent of any person or entity that is currently debarred from submitting proposals to the County or to any other state or political subdivision. An affirmative response may be considered grounds for rejection of the proposal.

10. CONFLICT OF INTEREST STATEMENT

The Offeror must provide a statement regarding any potential conflict of interest, with the notarized signature of a principal of the Offeror, on the form provided in this solicitation.

11. REPLACEMENT OR AUGMENTATION OF KEY PERSONNEL OR SUBCONTRACTORS

The key personnel and subcontractors in an Offeror's proposal are considered essential to the Offeror's qualifications and may not be replaced or substituted, nor may additional personnel or subcontractors be added, after qualification of the Offeror's proposal unless the County approves the changes in advance in writing.

12. AUTHORITY TO TRANSACT BUSINESS

Any Offeror organized as a stock or nonstock corporation, limited liability company, business trust, or limited partnership or registered as a registered limited liability partnership must be authorized to transact business in the Commonwealth of Virginia as a domestic or foreign business entity if so required by Title 13.1 or Title 50 of the Code of Virginia, or as otherwise required by law. The proper and full legal name of the entity and the identification number issued to the Offeror by the Virginia State Corporation Commission must be included on the Proposal Form. Any Offeror that is not required to be authorized to transact business in the Commonwealth must include in its proposal a statement describing why the Offeror is not required to be so authorized. The County may require an Offeror to provide documentation that 1) clearly identifies the complete name and legal form of the entity and 2) establishes that the entity is authorized by the State Corporation Commission to transact business in the Commonwealth of Virginia. Failure of an Offeror to provide such documentation will be a ground for rejection of the proposal or cancellation of any award. For further information refer to the Commonwealth of Virginia State Corporation Commission website at: www.scc.virginia.gov.

13. INSURANCE REQUIREMENTS

Each Offeror must be able to demonstrate proof of the specific coverage requirements and limits applicable to this solicitation. If the Offeror is not able to do so, it may propose alternate insurance coverage in its exceptions to the County's Terms and Conditions.

14. ARLINGTON COUNTY BUSINESS LICENSES

The successful Offeror must comply with the provisions of Chapter 11 ("Licenses") of the Arlington County Code, if applicable. For information on the provisions of that Chapter and its applicability to this solicitation, contact the Arlington County Business License Division, Office of the Commissioner of the Revenue, at 2100 Clarendon Blvd., Suite 200, Arlington, Virginia, 22201, tel. (703) 228-3060, or e-mail business@arlingtonva.us.

15. COVID-19 VACCINATION POLICY FOR CONTRACTORS

Due to the ongoing COVID-19 pandemic, the County has taken various steps to protect the welfare, health, safety, and comfort of the workforce and public at large. As part of these steps, the County has implemented various requirements with respect to health and safety including policies with respect to social distancing, the use of face-coverings and vaccine mandates. To protect the County's workforce and the public at large, all employees and subcontractors of the Contractor who are assigned to this Contract, must be fully vaccinated against COVID-19. Any contractor employee or subcontractor who is not fully vaccinated should follow a weekly testing protocol as established by the Contractor, unless exempt pursuant to a valid reasonable accommodation under state or federal law. By submitting a proposal, the Offeror certifies that it will comply with this provision and will ensure that its subcontractors, if any, do so as well.

16. ESTIMATED QUANTITIES/NON-EXCLUSIVITY OF CONTRACTOR

The contract that will result from this solicitation will not obligate the County to purchase a specific quantity of items or services during the Contract Term. Any quantities that are included in the contract documents are the present expectations of the County for the period of the contract, and the County is under no obligation to buy that, or any, amount as a result of having provided this estimate or of having had any normal or otherwise measurable requirement in the past. The County may require more goods and/or services than the estimated annual amount, and any such additional quantities will not give rise to any claim for compensation other than at the unit prices and/or rates specified in the contract.

The items or services covered by this contract may be or become available under other County contract(s), and the County may determine that it is in its best interest to procure the items or services through such other contract(s). The County does not guarantee that the selected contractor will be the exclusive provider of the goods or services covered by the resulting contract.

17. RIDER CLAUSE

Offerors will have the option to extend any contract resulting from this solicitation as follows:

A. Extension to Other Jurisdictions

The County extends the resultant contract(s), including pricing, terms and conditions, to all public entities under the jurisdiction of the United States of America and its territories.

B. Inclusion of Governmental & Nonprofit Participants

Eligible entities include but are not limited to private schools, parochial schools, non-public schools such as charter schools, special districts, intermediate units, non-profit agencies providing services on behalf of government, and/or state, community and/or private colleges/universities.

C. Contract Agreement

The contractor may be required by a using jurisdiction to enter into a separate contract containing general terms and conditions unique to that jurisdiction.

18. ELECTRONIC SIGNATURE

If awarded, the Offeror may be required to accept an agreement and sign electronically through the County's e-signature solution, DocuSign.

III. INTRODUCTION TO REQUEST FOR PROPOSAL NO. 22-CPHD-RFP-500

Arlington County, Virginia is issuing a Request for Proposal seeking the service of a qualified consultant to conduct a broadband study. The selected consultant will assess available broadband and digital inclusion resources, evaluate resident and business needs, explore broadband delivery models, and identify strategies for increasing broadband resources and furthering Arlington’s digital equity goals.

The desired outcome of this study is to provide an understanding of the available broadband resources and appropriate solutions to ensure that all Arlington residents have affordable, reliable access to high-speed broadband internet and the necessary devices and technology skills to fully participate in the community and economy. The County expects a broadband study tailored to meet the needs and unique characteristics of Arlington County, though the County will consider creativity and ideas on approaches for strengthening the planning process.

PURPOSE OF SOLICITATION

High-speed broadband internet is a critical service needed for almost every aspect of our lives – from education, employment, and healthcare to civic and social engagement. The COVID-19 pandemic underscored the importance of reliable connectivity when homes were transformed into virtual learning, telework, and healthcare spaces, and businesses relied on online sales. The global crisis shined a spotlight on and exacerbated many of our communities’ inequities, including our digital divide. In Arlington, one out of every six households does not have fixed broadband internet access.¹ Private market solutions have not adequately served Arlington’s broadband needs, and those without access are at a major disadvantage. Lack of broadband access hinders completing virtual learning or homework, researching and applying for jobs, accessing public services, accessing healthcare information and attending telehealth visits, accessing news and emergency alerts, and paying bills.

It is in this vein that the County wishes to analyze our existing broadband resources further in order to select and implement appropriate solutions to address Arlington’s digital divide and ensure adequate and affordable broadband access across the County. Arlington County is seeking proposals from qualified firms to conduct a countywide broadband study focused on answering the following questions:

- What is the extent and quality of broadband infrastructure in Arlington today?
- Do the available broadband resources meet the County’s current and future needs?
- What is the nature and extent of the unserved/underserved population (related to access, adoption, affordability, internet quality, digital literacy, and device needs)?
- What broadband speed is needed for long-term planning, and what is the most appropriate technology to facilitate the County’s needs?
- What infrastructure development and internet service delivery options should be pursued, given the County’s available resources, existing and future community needs, and costs?

Recommendations and proposed actions developed as part of this study will be used administratively by staff, at the discretion of the County Manager, and may be used to inform future evaluation or to guide an implementation framework.

¹ 2019 5-Year American Community Survey; U.S. Census Bureau.

BACKGROUND

Arlington County is located in the northern Virginia portion of the Washington, D.C. Metropolitan Area with a population of nearly 240,000 residents, 112,000 households,² and 9,400 employment establishments.³ With 26 square miles, it is the most densely populated county in Virginia, has one of the most educated workforces in the U.S., and is home to several research universities, government agencies, and world-class companies, including Amazon's second headquarters. Despite countywide statistics that boast high ranking schools, a strong economy, and ample opportunities to enjoy a high quality of life, stark socioeconomic disparities continue to limit equitable outcomes for some Arlington residents. While the County is generally served by a combination of broadband internet providers, approximately 16% of Arlington's households do not have a fixed broadband connection.⁴

While nearly all of Arlington County has one or more broadband internet service providers, and in several areas residents and businesses can choose from multiple providers for their internet needs, access and quality of service is not consistent across the County. Nearly 9,000 households do not have an internet connection at home or on their mobile device, and another 7,000 households rely on cellular service, which offers some connectivity but is not acceptable for virtual learning, telework, and other essential activities.⁵ The quality of service is inconsistent from neighborhood to neighborhood, and the lack of provider choice increases cost, leaving many unable to afford the service or adequate coverage to support their household's needs. Black, Hispanic, and other persons of color are five times more likely to lack a broadband subscription at home and three times more likely to lack a home computer than White households.

Small businesses without adequate capital or knowledge to launch a website have had challenges incorporating digital technology. The global COVID-19 pandemic and retail/restaurant space limitations have made their online presence vital; those without it have faced challenges sustaining their business.⁶

Arlington's Middle-Mile Network

ConnectArlington is a 69-mile County-owned and maintained "dark fiber" network designed to serve as the primary telecommunication infrastructure to connect government buildings, schools, libraries, public safety radio towers, and more than 300 traffic signals throughout the County.⁷ The County maintains ownership of the fiber connectivity between the County and Arlington Public School facilities.

In 2016, the County constructed a 10-mile range consisting of 864 strands of fiber around major commercial areas for economic development purposes. Virginia law restricts jurisdictions from offering or providing fiber optic or broadband services to any entity other than the County itself. The law does enable Virginia jurisdictions to form their own Wireless Service Authority ("Authority") to provide high speed data and internet access services.

Without an Authority, Arlington must lease ConnectArlington’s “dark fiber” (e.g., unused fiber) to telecommunications carriers and organizations, which can then use it. Despite strong initial interest from private commercial property owners and companies in using ConnectArlington, the network has not attracted the private participation once anticipated, other than a recently approved agreement with JBG Smith in Summer 2021.

Past Digital Equity Research, Policy, and Implementation

Over the past several years, the County has made ongoing and considerable investments to improve broadband service and digital equity programming. Offerors should review and consider these improvements in preparing their project approach. During the study, it is expected that the consultant will explore past/current research efforts and build from this work.

IV. SCOPE OF WORK

The scope of work to be performed by the consultant is as follows:

Element 1. Resource Evaluation and Needs Assessment

- 1.1 Assess current and future needs of broadband for businesses, organizations, anchor institutions, and households throughout Arlington. The analysis should present disaggregated data by household and demographic information (e.g., race/ethnicity, income, age, education), where appropriate, and include the nature and extent of digital needs (e.g., access, adoption, affordability, internet quality, digital literacy, and device needs).
- 1.2 Assess the population at various levels of unserved/underserved, including but not limited to: households and businesses with no access, households and businesses with access to service but no adoption, cost-burdened residents and businesses, and current service measured against appropriate benchmarks, such as the U.S. Department of Treasury's Interim Final Rule definition of underserved and project benchmark of broadband speed of 100Mbps symmetrical or greater (or another appropriate benchmark). The assessment should present findings by household and demographic data.
- 1.3 Apply [Arlington's Racial Equity Assessment](#) to the analysis: Who benefits? Who's burdened? Who's missing? How do we know? What did/do we do?
- 1.4 Define affordable broadband internet service and incorporate into needs assessment and evaluation of unserved/underserved population.
- 1.5 Identify targeted broadband speeds to meet the existing and future needs of the County, categorized by household and business size.
- 1.6 Provide an overview of incumbent internet service providers, including their services, achievable speeds, pricing plans and what customers actually pay, customer service levels/quality, utilization rate across providers, and any known deployment plans. Assess whether the available speeds meet targets identified in 1.5. Consider the availability of incumbents in areas where there may be a concentration of unserved/underserved. Evaluate incumbent information with building characteristics (e.g., single-family homes, multifamily, affordable housing property, commercial).
- 1.7 Assess the utilization rate of low-income internet service programs and barriers to accessing those programs.
- 1.8 Assess the scale and nature of landlords who have exclusive contracts with internet service providers.
- 1.9 Inventory publicly and privately sponsored digital inclusion resources (e.g., available devices, digital literacy programming).
- 1.10 Map relevant information at the lowest possible geography (e.g., block group, census tract, property level) using ArcGIS.
- 1.11 Evaluate local, state, and federal policies/programs directly or indirectly related to broadband development and digital equity and assess the extent to which these policies/programs foster broadband investment/access in Arlington (or whether they impede it).
- 1.12 Evaluate past/current digital equity research referenced in the background section and incorporate into the needs assessment where relevant.

Element 2. Model Evaluation

- 2.1 BACKGROUND: Arlington County recognizes that a variety of policy and broadband implementation models exist and wishes to better understand the options most suitable to the County's context and needs. More specifically, the County is interested in the following:
- 2.1.1 County-built infrastructure with network and service management provided by a Wireless Service Authority, as allowed per Virginia State law.
 - 2.1.2 Offloading full-scale network and service management outside of County and APS facilities to a third party.
 - 2.1.3 Other partnerships that lower cost and encourage private sector investment, including open access network, land use controls, and financial incentives.
 - 2.1.4 Financial subsidies to underserved populations to offset user costs with a private internet service provider.
 - 2.1.5 Other models suggested by the consultant.
- 2.2 Develop a structured evaluation of the models described in Section 2.1. At a minimum, the County anticipates the following considerations:
- 2.2.1 The model's ability to meet the County's needs based upon the assessment completed in Element 1.
 - 2.2.2 The appropriate scale to implement the model (e.g., Countywide, across affordable housing portfolio, underserved populations) and whether the model could/should be scaled more broadly in the future.
 - 2.2.3 The possibility of leveraging Arlington County's middle-mile network, ConnectArlington. Recommendations, however, do not need to include ConnectArlington if not a viable solution.
 - 2.2.4 Appropriate technologies given Arlington's infrastructure and building stock and the technology's ability to meet broadband speed goals.
 - 2.2.5 Risk and benefit considerations.
 - 2.2.6 Order of magnitude costs, including capital, maintenance, and operating. This may involve completing high-level engineering or financial analysis.
 - 2.2.7 Implementation considerations, including staffing resources, ownership structure, phasing strategies, partnerships, and financing options. Considerations should include the model's long-term sustainability.
 - 2.2.8 Any policy changes needed (within the County's control) to realize the model.

Element 3. Strategic Recommendations

The consultant will prepare a short-list of strategic recommendations and proposed actions to ensure reliable, affordable broadband for the community's needs and to further the County's [digital equity goals](#). Recommendations and proposed actions will be used administratively by staff, at the discretion of the County Manager, and may be used to inform future evaluation or to guide an implementation framework. All recommendations and proposed actions should be supported by the needs assessment or model evaluation, and should document policy changes, partnerships, staffing resources, and funding needed. The consultant also should note whether any recommendations or proposed actions co-exist or are mutually supported by one another. The recommendations should include at a minimum:

- 3.1 Propose the most appropriate internet delivery model(s) for Arlington County that addresses broadband needs. Discuss how the proposed model(s) will position the County to ensure the

community has reliable, affordable internet, now and for years to come, and to further Arlington's [Digital Equity goals](#).

- 3.2 Provide at least three detailed case studies of models similar to the model(s) proposed in 3.1 from communities that are relevant in size and complexity to Arlington. Describe how the models are most relevant to Arlington's digital equity goals. Consider the importance of failures that may prove informative.
- 3.3 Note other useful strategic recommendations and actions, including but not limited to, digital inclusion resources and digital equity, housing development policy, construction standards, land use controls, County governance related to broadband, and any additional analysis needed prior to implementation.
- 3.4 Organize the recommendations and proposed actions based upon short-term (less than 3 years), mid-term (3-5 years), and longer-term (more than 5 years) goals.

Element 4. Project Deliverables

- 4.1 Written reports: Develop a visually appealing and detailed written report for each of Elements 1-3 (needs assessment, model evaluation, and strategic recommendations).. A first draft of each report will be reviewed by staff and other relevant stakeholders prior to publishing.
- 4.2 Oral Presentations: Present a summary of findings and key takeaways for each project element to staff and relevant stakeholders as directed by the Project Manager. The consultant may be required to present at commission meetings and to the County Board. As of June 2021, Arlington County Board meetings are currently held in person; however, commission meetings continue to operate in a virtual environment. Most presentations for this project are anticipated to be virtual, though the final presentation may be completed in person.
- 4.3 Data Collection Methodology: For any community or stakeholder engagement proposed, develop methodology, detailing who will be engaged and how. Any community surveys proposed should be statistically valid from a representative sample of Arlington's population. Methodology should consider information needed to thoroughly answer [Arlington's racial equity assessment questions](#). Engagement methodology, questions, and other related aspects will be approved by the County's Project Manager prior to release.
- 4.4 Model Evaluation Framework: Develop an evaluation framework to support completing Element 2. This framework will document the internet delivery models that will be evaluated and outline the evaluation components and methodology. The framework will be approved by the County's Project Manager prior to commencing analysis.
- 4.5 Map Shapefiles: Provide the County with any produced shapefile(s) to be used in the County's ArcGIS mapping system.
- 4.6 Project Communication: Provide biweekly updates on progress during the work period, via either email or phone calls to the Project Manager and/or workgroup.

All County Contractors, entering County owned, controlled, or leased facilities or facilities operated by a contractor if the services provided at that location are exclusive to Arlington County Government or contractors with public facing responsibilities must adopt these policies for implementation with their employees and subcontractors working on County contracts.

It is recognized that the COVID-19 pandemic is an ongoing health crisis. As such, requirements with respect to health and safety, including vaccines and face-coverings may change over time. Contractors are expected to adhere to the County requirements as they evolve in response to the crisis.

Any purchases that the Contractor makes after the notice of termination will be the sole responsibility of the Contractor, unless the County has approved the purchases in writing as necessary for completion of any portion of the Work that the County did not terminate.

The Contractor must submit any request for termination costs, with all supporting documentation, to the County Project Officer within 30 days after the expiration of the Cure Period. The County may accept or reject the request for termination costs, in whole or in part, and may notify the Contractor of its decision within a reasonable time.

If the County terminates the Contract for default or breach of any Contract provision or condition, then the termination will be immediate after notice of termination to the Contractor (unless the County provides for an opportunity to cure), and the Contractor will not be permitted to seek termination costs.

Upon any termination pursuant to this section, the Contractor will be liable to the County for costs that the County must expend to complete the Work, including costs resulting from any related delays and from unsatisfactory or non-compliant work performed by the Contractor or its subcontractors. The County will deduct such costs from any amount due to the Contractor; or if the County does not owe the Contractor, the Contractor must promptly pay the costs within 15 days of a demand by the County. (CONTRACTOR)

The undersigned, an authorized agent of the Contractor and on behalf of _____ (“Contractor”), hereby agrees that the Contractor will hold County-provided information, documents, data, images, records and the like confidential and secure and protect them against loss, misuse, alteration, destruction or disclosure. This includes, but is not limited to, the information of the County, its employees, contractors, residents, clients, patients, taxpayers and property as well as information that the County shares with the Contractor for testing, support, conversion or other services provided under Arlington County Agreement No. _____ (the “Project” or “Main Agreement”) or that may be accessed through other County-owned or -controlled databases (all of the above collectively referred to as “County Information” or “Information”).

In addition to the DATA SECURITY obligations set in the County Agreement, the Contractor agrees that it will maintain the privacy and security of County Information, control and limit internal access and authorization for access to such Information and not divulge or allow or facilitate access to County Information for any purpose or by anyone unless expressly authorized. This includes, but is not limited to, any County Information that in any manner describes, locates or indexes anything about an individual, including, but not limited to, his/her (“his”) Personal Health Information, treatment, disability, services eligibility, services provided, investigations, real or personal property holdings and his education, financial transactions, medical history, ancestry, religion, political ideology, criminal or employment record, social security number, tax status or payments, date of birth, address, phone number or anything that affords a basis for inferring personal characteristics, such as finger and voice prints, photographs, or things done by or to such individual, or the record of his presence, registration, or membership in an organization or activity, or admission to an institution.

Contractor also agrees that it will not directly or indirectly use or facilitate the use or dissemination of County information (whether intentionally or by inadvertence, negligence or omission and whether verbally, electronically, through paper transmission or otherwise) for any purpose other than that directly associated with its work under the Project. The Contractor acknowledges that any unauthorized use, dissemination or disclosure of County Information is prohibited and may also constitute a violation of Virginia or federal laws, subjecting it or its employees to civil and/or criminal penalties.

Contractor agrees that it will not divulge or otherwise facilitate the disclosure, dissemination or access to or by any unauthorized person, for any purpose, of any Information obtained directly, or indirectly, as a result of its work on the Project. The Contractor shall coordinate closely with the County Project Officer to ensure that its authorization to its employees or approved subcontractors is appropriate and tightly controlled and that such person/s also maintain the security and privacy of County Information and the integrity of County-networked resources.

Contractor agrees to take strict security measures to ensure that County Information is kept secure; is properly stored in accordance with industry best practices, and if stored is encrypted ; and is otherwise protected from retrieval or access by unauthorized persons or for unauthorized purposes. Any device or media on which County Information is stored, even temporarily, will have strict encryption, security, and access control. Any County Information that is accessible will not leave Contractor’s work site or the

Contractor will ensure that any laptops, PDAs, netbooks, tablets, thumb drives or other media storage devices, as approved by the County and connected to the County network, are secure and free of all computer viruses, and running the latest version of an industry-standard virus protection program. The Contractor will ensure that all user accounts and passwords used by its employees or subcontractors are robust, protected and not shared. The Contractor also agrees to promptly notify others of a suspected or actual breach if requested.

The Contractor agrees that all duties and obligations enumerated in this Agreement also extend to its employees, agents or subcontractors who are given access to County information. Breach of any of the above conditions by Contractor's employees, agents or subcontractors shall be treated as a breach by the Contractor. The Contractor agrees that it shall take all reasonable measures to ensure that its employees, agents and subcontractors are aware of and abide by the terms and conditions of this agreement and related data security provisions in the Main Agreement.
