City of Knoxville Request for Proposals

Public Electric Vehicle (EV) Charging Installation

I. Statement of Intent

The City of Knoxville is seeking to enable a licensing agreement(s) for a Contractor (hereinafter called “Contractor”) to provide “turn-key” services for a successful and financially sustainable installment of Electric Vehicle Supply Equipment (“EVSE”). The purpose of this solicitation is to select a qualified Contractor to design, furnish, install, operate, maintain, and own Electric Vehicle Charging Stations in the City of Knoxville.

The City of Knoxville is requesting proposals for partnership opportunities with a third-party EVSE provider who will design, furnish, install, operate, maintain and own publicly accessible electric vehicle (EV) charging infrastructure at a specific site within the 400 Block of S. Central Street for EVSE installation with the needed infrastructure improvements. This location has been identified by City Staff and currently has ten (10) angled parking spaces. This City anticipates the parking spaces to be equipped for DC fast-charging (DCFC) stations to allow fast charging of electric vehicles.

At this time, the City is not committing a direct monetary payment or subsidy for the EVSE infrastructure improvements, and proposers should not expect the City to be a financial contributor to the EVSE. The selected Contractor will be required to pay an occupancy fee or provide compensation to the city in areas where revenue is impacted such as metered parking.

It is the intent of the City to award the winning Contractor a Master License Agreement for a ten (10) year term to begin upon approval and execution by the City. The Agreement may, by written, mutual agreement of the parties, be extended for two (2) additional (5) year periods.

III. Background

The City of Knoxville is committed to doing its part to fight climate change. The City’s Office of Sustainability has tracked greenhouse gas emissions since 2005 and set ambitious climate goals to ensure a sustainable future that protects our environment while also creating economic opportunities and improving quality of life for all our citizens. In 2020, Mayor Kincannon convened the Mayor’s Climate Council to identify and evaluate strategies to achieve the goal of reducing emissions 80% across the community by 2050. Such GHG emissions are attributed to increases in vehicle traffic, population and economic activity.

To reduce transportation-related carbon emissions, the City has installed twenty-one (21) Level-2 electric vehicle (EV) charging ports at nine (9) sites throughout the City. However, meeting more ambitious targets will require a significant increase in EV adoption rates throughout the city.

The City of Knoxville desires to increase the amount of public charging infrastructure for electric vehicles. This RFP seeks to implement this action by developing a partnership to leverage City properties and/or Rights-Of-Way (ROW) to expand EV charging access. The City is also increasing the number of EVs in its fleet and may consider utilizing public charging locations in their fleet electrification plan.

The City of Knoxville will be responsible for:

- Pre-vetting of city-owned sites for EV charging locations
- Willing to request easements for infrastructure improvements on City property or on City right-of way (ROW)
- Enforcing proper use of EV charging equipment and EV parking
- Assistance in permitting process
- Facilitate utility coordination with local utility provider, Knoxville Utilities Board (KUB)
- Utilizing and promoting public charging infrastructure for city fleets
- Striping, Signage and Wayfinding of public EVSE charging locations
- Maintenance of parking spaces (e.g., paving, street sweeping, snow removal)

Any proposals received after the time and date on the cover sheet will not be considered. It shall be the sole responsibility of the submitting entity to have the proposal delivered to the City of Knoxville Purchasing Division on or before that date.

Late proposals will not be considered. Diversity Business Enterprise Program (DBE) Program

The City of Knoxville strongly encourages prime contractors to employ diverse businesses in the fulfillment of contracts/projects for the City of Knoxville.

The City of Knoxville's Fiscal Year 2022 goal is to conduct 4.3% of its business with minority owned businesses, 10.3% of its business with women-owned businesses, and 37.1% with small businesses.

While the City cannot engage (pursuant to state law) in preferential bidding practices, the City does **strongly encourage** prime contractors to seek out and hire diverse businesses in order to help the City meet its goals as stated above. As such, the City encourages prime contractors to seek out and consider competitive sub-bids and quotations from diverse businesses.

For DBE tracking purposes, the City requests that prime contractors who are bidding, proposing, or submitting statements of qualifications record whether or not they plan to employ DBE's as sub-contractors or consultants.
