**Bid #22-002**

**Grass Cutting and Grounds Maintenance for Waccamaw Neck Parks Section**

**Background**

Georgetown County Parks & Recreation Department, (GCPRD) is soliciting bids for a one-year base contract with up to four (4) optional renewal periods, for grass-cutting and general landscape maintenance for the County’s Waccamaw Neck Parks Section. This section consists of various properties, including specified building sites which must be cut on a weekly or bi-weekly or bi-monthly basis as listed. All bidders shall include with their submitted bid a detailed listing of inventory, equipment, and number of staff that they would have available for use under this agreement. Bidders shall also specify, in detail, if any new equipment will be purchased to meet the demands of this project and/or if any additional staff would be hired if awarded.

Due to the amount of acreage to be cut, and the areas to receive general landscape maintenance and trash pick-up, prospective bidders must include all weekly or bi-weekly or bi-monthly services for all sites and buildings within the parks section being bid.

**Specifications and Requirements**

1. Georgetown County, South Carolina is soliciting sealed bids from responsible contractors to provide grass-cutting and landscape maintenance for the Parks & Recreation Department (GCPRD) for the parks areas listed in Exhibit A attached. **The grass-cutting season in the County is estimated to be over seven (7) consecutive months.** The contract will consist of a one-year base period with up to four (4) optional one-year renewal periods, not to exceed a maximum total of five (5) years. Optional renewals shall be approved only after satisfactory analysis is completed by GCPRD at the end of each twelve (12) month period of the work performed by the contractor.
2. Total approximate acreage to be cut for the Waccamaw Neck Parks Section areas is 41.55 Acres. GCPRD reserves the right to adjust the number of acres to be cut, in each area as deemed necessary while remaining within the total acreage specified at no additional cost. **Note that the maps attached, Exhibit B, are for use in locating the property on which the park/facility is located and this does not imply that the full area will be cut. Only the**

**acreage specified is included.** For additional maps, if needed, the County's GIS Map Server can be found at the following link: <https://georgetown.maps.arcgis.com/home/index.html>

3. The growing season is from mid-March to mid-November. During that time frame, properties shall be cut either on a weekly or bi-weekly basis or bi-monthly basis, as specified. If there is an above normal rainfall at any time during this period, or a special event is scheduled, additional mowing may be required as directed by the Georgetown County Parks & Recreation Department.
4. If an area is set-up for weekly mowing, and is not cut on the proper schedule, the grass will be too high, will clump and will require raking. If applicable to the listed parks, the correct cutting height for recreational play is 2½-inches. Cutting at regular intervals, as specified, is important.
5. Equipment and blades must be properly maintained to insure even, level cut. Excessive clippings must be blown and/or removed properly. Small debris is to be removed by the contractor (limbs, leaves, etc).
6. Trash pick-up must be done before mowing. If this is not done, vendor will be required to come back in and rake trash that was cut. The County does have a crew that visits each park site twice weekly to collect trash. Trash that is collected may be deposited in the trash bin(s) at the park site and does not have to be removed to an offsite location. This crew will also report to Parks and Recreation any areas where trash has been mown and scattered.
7. Edging must be done around shrubs, along sidewalks and walkways, light and utility poles and parking areas. All hard edges are to be mechanically edged with steel blade edger. No weed eaters for edging. If applicable to the location, there should be no chemical edging at county buildings unless approved by the Park Maintenance supervisor. Grass and weed killer may NOT be used around shrubs and other plantings where it will harm the plant.
8. If applicable to the location, where there are bleachers at the facility, do NOT use the mower or tractor to push the bleachers as bending damage will result. Areas under/surrounding bleachers should be handled by weed-eater.
9. The mowing and maintenance operation is generally Monday through Friday for the parks section. The contractor should try to avoid weekend operations for the parks section. The majority of parks and boat landings are used heavily during the weekends in the growing season. It may be possible that some remote areas can be done on weekends, and the Parks Maintenance supervisor will work with the successful contractor to determine those locations if necessary. However, any County office buildings must be maintained while closed M-F after 5pm or on weekends only.
10. The contractor should not begin work before 7:00AM, or before day and time indicated on attached Exhibit A, particularly in parks or locations that are near residences. County residents will complain, and many will directly complain to their County Council representative.
11. The requested bid price is per cut, per park. Neither the County nor the contractor can predict the number of cuts that will be required, and the growing season may be longer or shorter than seven (7) months depending on the weather.

12. If any park is located within the City Limits of Georgetown, the City will require a business license from the relative vendor.
13. Landscape maintenance such as trimming, edging, removal of any build-up of cut grass (i.e. haying), blowing cut grass off sidewalk, walkways, paved areas and litter pick-up shall be performed as necessary. Landscape beds are to be maintained, weeded, and edged where applicable. Cost for these services shall be part of the per cut cost for each site.
14. Billing is monthly and should be received by the department the third (3<sup>rd</sup>) Monday of every month, and be itemized by park and date. Payment terms are Net thirty (30) days.
15. All prospective vendors must submit an equipment list, and a list of the number of employees assigned to this contract. The Parks and Recreation Department will verify the equipment list provided by the contractor who is recommended for award.
16. The prospective vendor must submit proof of Workers Compensation and a Certificate of Liability Insurance with minimum coverage as specified in the Instructions for Bidders section and naming Georgetown County, SC as a Certificate Holder as a condition of award.

**17. SITE INSPECTION – VOLUNTARY, on own:**

- a) Each bidder is responsible to become familiar with and take into consideration, site conditions which may affect the work and to check all dimensions at the site. Further, each bidder shall acquaint themselves thoroughly as to the character and nature of the work to be done. Each bidder furthermore shall make a careful examination of the site of the work and inform themselves fully as to the difficulties to be encountered in performance of the work, the facilities for delivering, storing and placing materials and equipment and other conditions relating to construction and labor.
- b) The bidder shall examine the premises and the site and compare them with any applicable drawings and specifications. He/she shall familiarize themselves with the existing conditions such as obstructive area levels and any problems related to erecting the required systems.
- c) No plea of ignorance of conditions that exist or may hereafter exist on the site of the work, or difficulties that may be encountered in the execution of the work, as a result of failure to make necessary investigations and examinations, will be accepted as an excuse for any failure or omission on the part of the Contractor to fulfill in every detail all the requirements of the contract documents and to complete the work for the consideration set forth therein, or as a basis for any claim whatsoever.

**20. Fuel Cost Factor**

For price adjustment purposes, indicate a decimal or percentage factor for calculating the fuel cost portion of the price per segment of the parks section that you are bidding to maintain. The Fuel Cost Factor will remain constant throughout the contract term. Place the percentage on page thirty-one (31), line item number two (2) of the Mandatory Bid Submittal Form.

**21. Cost of Fuel Price Adjustment**

I. Cost of Fuel Price Adjustment

a) Segment unit prices shall remain firm through the first contract year. To accommodate changes in fuel costs, prices may be adjusted annually on the contract anniversary date based on the most current Charleston, SC Average Diesel Rack as reported by SC State Contract fuel pricing history. The contractor is expected to manage costs associated with labor, overhead and general sales and administration for the life of the original agreement. No price change related to cost issues other than fuel cost will be considered as a basis for price adjustment.

b) A fixed margin to be used in price adjustment calculations shall be calculated by subtracting the fuel cost (determined from the fuel cost factor) from the original bid unit price:

$$\text{Fuel Cost} = \text{Bid Unit Price} \times \text{Fuel Cost Factor}$$

$$\text{Fixed Margin} = \text{Bid Unit Price} - \text{Fuel Cost}$$

For price adjustments, this fixed margin shall be utilized to calculate subsequent fuel costs relative to the contract unit price in effect at the time, regardless of the contractor's actual fuel cost:

$$\text{Fuel Cost} = \text{Contract Unit Price} - \text{Fixed Margin}$$

c) The benchmark fuel price index for the purpose of calculating price adjustments for the agreements resulting from this bid shall be the Charleston, SC Average Diesel Rack as reported by SC State Contract fuel history, as published in SSCO. The base value to be used for calculating the initial price adjustment shall be the index published on the week of the initial contract. Adjustments shall be calculated according to the percentage change, up or down, as reflected in this index. Only the fuel cost component of the contract unit price shall be adjusted. The adjusted fuel cost shall be calculated by one of the following formulas:

Adjusted up in accordance with the percent increase in the index value:

$$\text{Adjusted Fuel Cost} = \text{Fuel Cost} + (\text{Index Value \% Increase} \times \text{Fuel Cost})$$

OR

Adjusted down in accordance with the percent decrease in the index value:

$$\text{Adjusted Fuel Cost} = \text{Fuel Cost} - (\text{Index Value \% Decrease} \times \text{Fuel Cost})$$

II. The new unit price is the sum of the fixed margin and the adjusted fuel cost:

$$\text{New Unit Price} = \text{Fixed Margin} + \text{Adjusted Fuel Cost}$$

- a) All calculated price adjustments shall be effective on the first calendar day of the "price adjustment" month.
- b) All price adjustment calculations of less than 1 % shall not be implemented. Subsequent price changes shall be calculated by comparing the current index value to the index value last used to calculate an allowable price change, which may result in cumulative increases or decreases of more than 1 %.
- c) The calculation method described herein shall not change for the life of the agreement.

d) All communications regarding price adjustments shall be directed to:
