I. OVERVIEW OF RFP & PROJECT

A. PURPOSE OF THIS REQUEST FOR PROPOSALS

Albuquerque Public Schools (APS) is requesting competitive sealed proposals with the intent of entering into a contract with a general contractor for the purpose of providing the construction services for the project identified in this Request for Proposals (RFP). Any contract awarded as a result of this solicitation will be in effect from date of award until the completion of the project.

All potential Offerors are to read, understand and accept the requirements of this RFP, especially the **mandatory requirements**, shall visit the site of work, shall fully inform themselves as to all existing conditions and limitations, and shall include in the proposal the cost of all items required by the RFP. If the contractor observes that portions of the Contract Documents are at variance with applicable laws, building codes, rules, regulations, or contain obvious erroneous or uncoordinated information, the contractor shall promptly notify the appropriate contact listed herein and the necessary changes shall be accomplished by addendum.

The Offeror is required to provide, as part of the Technical Proposal, the qualifications and other documents requested in this RFP. The Price Proposal will be evaluated separately from the Technical Proposal. **This is a qualifications-based selection with cost as a consideration.**

The award of a contract for construction shall take into consideration certain contractor qualifications and performance factors that add value to a procurement contract. Factors such as contractor's past performance, technical expertise and experience, management capabilities and resources, subcontractor teams and craft personnel resources will form a basis for the criteria to be considered, in addition to the lump sum price to perform the scope of work. Award shall be made in accordance with the terms, conditions, and requirements stated herein.

B. BACKGROUND – ALBUQUERQUE PUBLIC SCHOOLS

APS is the one of the nation's largest school district covering a 1,200 square mile geographical area that encompasses all of the Albuquerque metro area in Bernalillo County and one location in Sandoval County, New Mexico. An elected board governs the district. APS maintains the largest collection of public buildings in the state with approximately 14 million square feet of traditional school buildings, portable classrooms, and administrative offices. The district strives to keep pace with Albuquerque's growth. The approximately 75,000 APS students plus 5,000 charter school students and 13,000 employees require a continuous building program that includes remodeling or refurbishing projects, new additions, and new schools.

C. PROJECT DESCRIPTION

The project is described as: Phase 1 of Campus Reconstruction, consisting of: a new building of approximately 28,753 SF of floor area (partly one-story and partly two-story) to house administration, gymnasium, library, cafeteria, kitchen, art/music classroom, ancillary support spaces, and related site work at Lavaland Elementary School in Albuquerque, New Mexico. Project scope also includes the demolition of existing cafeteria, library, gym, administration/classroom wing, and related site demolition.

D. PROJECT FUNDING

APS has funds to administer this project and will be referred to throughout the contract documents as the "Owner".

E. PROJECT MANAGEMENT SOFTWARE

The successful Offeror shall purchase, at the Offeror's expense, one or more seat licenses for APS's Project Management Software, as needed for the General Contractor. Subcontractors are not required to purchase licenses. APS will provide training on the use of the project management software. Further, the successful Offeror is required to work with the APS Staff Architect and the Design Professional to ensure that all project communication, correspondence, submittals, change orders, pay requests, etc. are submitted, maintained, and managed through APS's web-based Project Management Software.

The current project management software APS utilizes is e-Builder.

F. NEW MEXICO PREVAILING WAGE RATES

All work covered by this RFP shall be in accordance with applicable state laws and, if price proposal amount is \$60,000 or greater, is subject to the minimum wage rate determination issued by the office of the NM Workforce Solutions Department and included in the project manual. This determination will become part of the contract by reference and must be posted, per State of New Mexico statutes, in a conspicuous place at the General Contractor's place of business. It is the General Contractor's responsibility to be aware of the applicable State of New Mexico statutes and responsibilities related thereto. Failure by the Owner to physically make such minimum wage rate determinations available to the General Contractor will not relieve the General Contractor from becoming aware of or complying with such determinations.

G. PERMITS, PLAN CHECKING FEES, OTHER CHARGES

Offerors shall include as part of the Price Proposal all costs incurred for permits relating to this scope of work, including any Plan Checking Fees as charged by the City of Albuquerque (or any other applicable entity or agency with jurisdiction over the project) for checking Contract Documents prior to obtaining a building permit. Additionally, the Owner will not pay for business licenses, professional affiliations, and similar costs of doing business which are the Offeror's obligation to secure and maintain. The cost of all bonding are to be included in the Offeror's price proposal.

H. APS BEHAVIORAL POLICIES APPLY TO CONTRACTOR'S PERSONNEL

All current behavioral policies of the APS Board of Education such as, but not limited to, "no smoking" and "no alcoholic beverages" on APS property, shall be deemed to be in force for the Contractor's work forces when they are on APS property, including the project work site.

2. To receive a veteran resident contractor preference, a contractor shall submit with its bid or proposal a copy of a valid veteran resident contractor certificate issued by the NM Taxation & Revenue Department. Through either an RFP process or an ITB process, the qualified veteran resident contractor shall receive 10% preference if their annual revenues are less than \$3,000,000. The preference is limited in any calendar year to an aggregate of \$10,000,000 in purchases by public bodies from all resident veteran businesses receiving preferences. In addition to the veteran resident preference certificate, the veteran resident contractor shall provide any additional documentation required to validate the percentage of preference to be awarded.
3. The preferences do not apply when the expenditure includes federal funds for a specific purchase.
4. If there is a joint bid or joint proposal by a combination of resident veteran, resident, or nonresident businesses, the preference shall be calculated in proportion to the percentage of the contract, based on the dollar amount of the goods or services provided under the contract, that will be performed by each business as specified in the join bid or proposal.
