CITY OF KINGMAN EASTERN STREET IMPROVEMENTS, PHASE 1

ADDENDUM NO. 3
(Total of 1 Page plus 1 Attachment)
Prepared: December 6, 2023
ENG21-0001

The following information is provided to supplement the project Bid Documents for EASTERN STREET IMPROVEMENTS, PHASE 1. This addendum is being issued to address the following comments. Receipt of this addendum shall be acknowledged on the Proposal Form.

COMMENT RESOLUTION:

1. Bid Item 92 indicates that there are two PB posts; only one is shown on the plans.
The bid schedule is wrong. Bid Item 92 should read 1 each.
2. No pedestrian push button foundations are shown. Can they be anchored onto the ADA ramp?
The pedestrian push button foundations are shown on ADOT Standard Drawing TSL 4.27 and shall be considered incidental to the installation of the city provided Pedestrian Post item. The PB Post cannot be anchored on the ADA ramp.
3. Will the COK provided traffic signal heads include the correct mounts?
Yes.
4. There are 3 Type Q Pole Foundations to be installed (Bid Item 86). Per the plans, this is correct at NW / NE / SE corners of Eastern. Only 2 Q poles would be accounted for as supplied by the COK (Bid Item 83 and 84), would the contractor supply the third? If so, a bid item needs to be added.
The bid schedule is incorrect. Items 83 and 84 should read 3 each.
5. Bid Item 90 shows 2 pedestrian heads, plan sheet 51 and 52 show 4; 2 per crosswalk.
The bid schedule is incorrect. Item 90 should read 4 each.
6. How is General Note 4 on Plan Sheet 51 to be paid.
Bid Item 64 has been changed to read "TRANSFORMER BASEMENT & ASSOCIATED ELECTRICAL PER GEN NOTE 4 ON SHEET TS-02" to cover this work. Bid Item 64 was previously a duplicate bid item. See attached revised bid schedule.
7. Will the COK provided mast arms will have tenons welded at the 12' distances shown on Plan Sheet 52?
The COK provided mast arms will have tenons welded as needed to attach signal heads.
8. Questions about salvaged versus new equipment provided by COK.
The COK provided equipment will be new or salvaged equipment provided for this project from locations other than the Eastern/Airway intersection. The contractor shall install this equipment and have it operational prior to removal of equipment at Eastern/Airway. The salvaged equipment shall be delivered to the City of Kingman Public Works Yard.
