Scope of Services

Scope

In 2007, the Board of County Commissioners purchased the historic Archie Smith Fish House as part of the County's environmental lands program process. The subject waterfront property, listed on the National Register of Historic Places, consists of approximately 1.15 acres located at 1740 North Indian River Drive within the northern city limits of Sebastian (Figure 1).

Structures on the Archie Smith Fish House property consist of the Main (principal) House, a rebuilt overlook and, until recently, the Ice House (over-water original structure historically used to store ice (Figure 2).

In April 2014, Atelier was awarded a consulting services agreement for the planning, engineering/architectural design of the Archie Smith Fish House. The County solicited bids for the reconstruction of the dock, which was re-constructed in 2019-2020. In December 2021 concrete floor of the Ice House began to collapse. Upon investigation, and during subsequent days following December 12th, the concrete floor and walls continued to collapse into the Indian River Lagoon, creating floating debris hazards. Upon review by a general contractor, the Indian River County Public Works Director, and Parks and Conservation Lands staff, it was determined that the building posed safety hazards to the existing reconstructed dock. On March 14, 2022, the Archie Smith Ice House was demolished.

On April 9, 2022 the Board of County Commissioners approved the design and installation of an alternate structure for public use which includes a decking area with covered pavilion in the location of the Ice House, with commemorative educational signage. Work will include installation of similar fall rails/handrails along the length of the dock where the Ice House was located, along the perimeter of the proposed pavilion. The general location and area of the proposed Pavilion is depicted on Figure 3.

This proposed project includes the design, permitting and construction of a picnic pavilion within the area of the former ice house (Figure 3). Materials to be used should be consistent with the existing dock, balustrade and handrails present on the dock. The picnic pavilion shall be designed to withstand severe weather events, and should use materials in keeping with the current and past uses of the site.

All submittals must include a detailed description of the Contractor's approach to successful completion of the project, including: required survey, project design, project scheduling, required permitting, and the materials to be used and schematics of all proposed work.

General Requirements

- Proposals must include a schematic plan view and cross section of proposed design
- Proposals must include preparation of engineered drawings, required survey as needed, project construction, and preparation of signed and sealed structural as-builts.
- All hardware must be stainless steel; fasteners shall be square drive deck screws.
- **Licensure:** Proposer must possess a General Contractor's License AND Registration with Indian River County's Building Department
- Project will be designed and constructed in accordance with the all applicable County building requirements.
- The project will be designed to provide accessibility in accordance with the Florida Accessibility Code for building construction, as well as all applicable Indian River County building codes.

- Handrails will be required to address drop off hazards in accordance with the Florida Building Code or the FDOT Plan Preparations Manual (most current edition), whichever is more restrictive.

Because the proposed pavilion will be located within the configuration of the demolished Ice House, there is a potential that the construction may be exempt from FDEP and Corps of Engineers permitting, however, this would have to be confirmed with agency personnel. Extended timeframes for design and construction may result in recruitment of Submerged Aquatic Vegetation (SAV) that may require survey and permitting. In the event that SAV survey and permitting is required by the FDEP and/or the Corps of Engineers, this work will be addressed within a change order to the Contractor's agreement with the County.

PROJECT REQUIREMENTS

The following agencies have permitting jurisdiction over the project site:

City of Sebastian

FDEP

USACOE

Contractor must possess the following licenses and registrations:

State of Florida: General Contractor License

Indian River County Building Division: General Contractor License

- d. The Committee shall forward its recommendations in accordance with the ranking to the Indian River County Board of County Commissioners, which shall, at its sole option, authorize negotiations of a contract pursuant to the requirements of Florida law.
- e. The Indian River County Board of County Commissioners possesses sole authority to award a contract for the services sought herein.
