Axon is the sole source provider of the Taser brand energy weapon. Specifically we are looking at the Taser 7 Smart weapon. We have for the last 12 years used the Taser 26 and Taser 26P as the less than lethal weapon for our officers and have relied on Axon as the brand due to the amount of research and track record. No other brand uses the NMI type weapon system

NOTE: We use the Google test to search for comparable products or services. If found, it is **NOT** considered a sole source product or service.
