

REQUEST FOR QUALIFICATIONS FOR PROFESSIONAL ENGINEERING SERVICES FOR THE TOWN OF MOORESVILLE

PROPOSAL DUE: 4:00 p.m., June 30, 2020

The Town of Mooresville (Town) invites qualified firms to submit a Qualifications Proposal in accordance with North Carolina Statutes to provide on-call professional civil engineering, planning and surveying consulting services associated with the planning, design, bidding and construction inspection/administration of various public utility infrastructure projects.

An agreement for services will be entered into on a project by project basis with selected firm(s). Projects may include, but not be limited to, the construction or rehabilitation of: gravity sewer lines, water lines, submersible pump stations, force mains, curb/gutter, sidewalk or stormwater control measures. This Request for Qualifications (RFQ) does not extend to treatment or storage projects, projects that require Environmental Assessments, or grant/loan funded projects. The Town reserves the right to issue specific Requests for Proposals separately for any project at its discretion.

Services may include:

- Provision of surveying, engineering, planning and consulting services, including the preparation of various studies and assessments.
- Preparation design plans and specifications.
- Preparation of cost estimates, both preliminary for budget purposes and construction cost estimates.
- Preparation of survey exhibits or plats for use in easement acquisition (easement acquisition itself is not included in this request for qualifications)
- Preparation and submission of appropriate regulatory permits.
- Provision of bidding and construction administration/inspection services.

For a full Request for Qualifications document, please contact Duncan Parnell at www.dpibidroom.com. *There is no charge to download.* If necessary, any addenda will be distributed through Duncan Parnell to all recipients of the original Request for Qualifications. Copies will not be distributed by the Town directly to interested firms.

For information regarding this RFQ please contact:
