I. INTRODUCTION TO EVALUATION PROCESS

Arlington County, Virginia, is soliciting proposals from Offerors having experience and abilities in the areas identified in this solicitation. Each proposal must contain evidence of the Offeror's qualifications in the specified areas and in other disciplines directly related to the proposed work. Offerors might also be required to submit profiles and resumes of the staff to be assigned to the project, references, examples of similar work performed and other information that will clearly demonstrate the Offeror's relevant expertise, as specified in the solicitation.

A County Selection Advisory Committee ("SAC") will review and evaluate all written proposals based on the criteria identified in this solicitation. Subsequent evaluations, such as to select firms for negotiation, may include, but are not limited to, review of more detailed proposals and/or oral presentations. For example, shortlisted firms will be requested to participate in demonstrations showing their software's capabilities based upon standard scripts developed by the County Water Pollution Control Bureau ("WPCB"). This and any other subsequent evaluations will be based on the same criteria as the original evaluation.

The County reserves the right to accept or reject and to waive any informalities or irregularities in the proposals and to contract as the best interests of the County require in order to obtain the services described in this RFP. Selection of an Offeror's proposal does not mean that all aspects of the proposal are acceptable to the County. The County reserves the right to negotiate terms and conditions with the selected Offeror before executing a contract.

MANDATORY REQUIREMENTS

Note that this solicitation contains qualification requirements that are mandatory for all Offerors. Refer to the Proposal Submittal Elements section of this document for details.

ALL QUESTIONS RECEIVED BY THE QUESTION DEADLINE WILL BE RESPONDED TO WITHIN VENDOR REGISTRY AND POSTED FOR ALL OFFERORS. THE SYSTEM WILL NOT ACCEPT ANY QUESTIONS AFTER THIS DATE AND TIME.

If any questions or responses require revisions to this solicitation, such revisions will be by formal Addendum only. Offerors are cautioned not to rely on any written, electronic, or oral representations made by any County representative or other person, including the County's technical contact, that appear to change any portion of the solicitation, unless the change is ratified by a written Addendum to this solicitation issued by the Office of the Purchasing Agent.

3. OFFERORS' RESPONSIBILITY TO INVESTIGATE

Before submitting a proposal, each Offeror must make all investigations necessary to ascertain all conditions and requirements affecting the full performance of the contract and to verify any representations made by the County upon which the Offeror will rely. No pleas of ignorance of such conditions and requirements will relieve the successful Offeror from its obligation to comply in every detail with all provisions and requirements of the contract or will be accepted as a basis for any claim for any monetary consideration on the part of the successful Offeror.

4. INTEREST IN MORE THAN ONE PROPOSAL, AND COLLUSION

Reasonable grounds for believing that an Offeror is interested in more than one proposal for a solicitation, including both as an Offeror and as a subcontractor for another Offeror, or that collusion exists between two or more Offerors, will result in rejection of all affected proposals. However, an individual or entity acting only as a subcontractor may be included as a subcontractor on two or more different Offerors' proposals. Offerors rejected under the above provision will also be disqualified if they respond to a re-solicitation for the same work.

5. COMPETITIVE NEGOTIATION FOR NON-PROFESSIONAL SERVICES

This solicitation is a competitive negotiation for goods and services, as defined in the Arlington County Purchasing Resolution. The content of the proposals and the identity of the offerors are not public record until a Notice of Decision to Award has been issued. The opening of proposals is therefore not public.

6. NOTICE OF DECISION TO AWARD

When the County has made a decision to award a contract(s), the County will post an Award Notice or Intent to Award to [Vendor Registry](#).

7. TRADE SECRETS OR PROPRIETARY INFORMATION

Trade secrets or proprietary information that an Offeror submits in connection with a procurement transaction may be exempted from public disclosure under the Virginia Freedom of Information Act ("VFOIA"). However, the Offeror must invoke VFOIA protection clearly and in writing on the Proposal Form for County review. The Proposal Form must include at least the following: (1) the data or other materials sought to be protected and (2) specific reasons why the material is confidential or proprietary. It is the Offeror's sole responsibility to defend such exemptions if challenged in a court of competent jurisdiction.

8. DEBARMENT STATUS

The Offeror must indicate on the Proposal Form whether it or any of its principals is currently debarred, enjoined, or suspended from submitting proposals to the County or to any other state or political subdivision and whether the Offeror is an agent of any person or entity that is currently debarred, enjoined or suspended from submitting proposals to the County or to any other state or political subdivision. An affirmative response may be considered grounds for rejection of the proposal.

9. CONFLICT OF INTEREST STATEMENT

The Offeror must provide a statement regarding any potential conflict of interest, with the notarized signature of a principal of the Offeror, on the form provided in this solicitation.

10. REPLACEMENT OR AUGMENTATION OF KEY PERSONNEL OR SUBCONTRACTORS

The key personnel and subcontractors in an Offeror's proposal are considered essential to the Offeror's qualifications and may not be replaced or substituted, nor may additional personnel or subcontractors be added, after qualification of the Offeror's proposal unless the County approves the changes in advance in writing.

11. AUTHORITY TO TRANSACT BUSINESS

Any Offeror organized as a stock or nonstock corporation, limited liability company, business trust, or limited partnership or registered as a registered limited liability partnership must be authorized to transact business in the Commonwealth of Virginia as a domestic or foreign business entity if so required by Title 13.1 or Title 50 of the Code of Virginia, or as otherwise required by law. The proper and full legal name of the entity and the identification number issued to the Offeror by the Virginia State Corporation Commission must be included on the Proposal Form. Any Offeror that is not required to be authorized to transact business in the Commonwealth must include in its proposal a statement describing why the Offeror is not required to be so authorized. The County may require an Offeror to provide documentation that 1) clearly identifies the complete name and legal form of the entity and 2) establishes that the entity is authorized by the State Corporation Commission to transact business in the Commonwealth of Virginia. Failure of an Offeror to provide such documentation will be a ground for rejection of the proposal or

cancellation of any award. For further information refer to the Commonwealth of Virginia State Corporation Commission website at: www.scc.virginia.gov.

The County reserves the right to waive this requirement at any time, for any reason.

12. EXCEPTIONS TO TERMS AND CONDITIONS

The attached draft Contract Terms and Conditions contain a number of mandatory terms, which are marked with an asterisk. Those terms are not negotiable. If an Offeror objects to a mandatory term, the County will consider the proposal non-responsive.

The Offeror must state whether it requests revisions to any of the remaining, non-mandatory terms and, if so, must explain the reason for the request(s) and propose alternative language. An Offeror who does not request a revision in its proposal may not object or request revisions to any contract terms during the negotiation process. This requirement does not apply to contract provisions concerning liability, to which a successful Offeror may note exception at the beginning of contract negotiations.

The County will review any request for revisions to non-mandatory terms after the selection of finalists for negotiation. Such requests will not factor into the evaluation of proposals.

13. INSURANCE REQUIREMENTS

Each Offeror must be able to demonstrate proof of the specific coverage requirements and limits applicable to this solicitation. If the Offeror is not able to do so, it may propose alternate insurance coverage in its exceptions to the County's Terms and Conditions.

14. ARLINGTON COUNTY BUSINESS LICENSES

The successful Offeror must comply with the provisions of Chapter 11 ("Licenses") of the Arlington County Code, if applicable. For information on the provisions of that Chapter and its applicability to this solicitation, contact the Arlington County Business License Division, Office of the Commissioner of the Revenue, at 2100 Clarendon Blvd., Suite 200, Arlington, Virginia, 22201, tel. (703) 228-3060, or e-mail business@arlingtonva.us.

15. ESTIMATED QUANTITIES/NON-EXCLUSIVITY OF CONTRACTOR

The contract that will result from this solicitation will not obligate the County to purchase a specific quantity of items or services during the Contract Term. Any quantities that are included in the contract documents are the present expectations of the County for the period of the contract, and the County is under no obligation to buy that, or any, amount as a result of having provided this estimate or of having had any normal or otherwise measurable requirement in the past. The County may require more goods and/or services than the estimated annual amount, and any such additional quantities will not give rise to any claim for compensation other than at the unit prices and/or rates specified in the contract.

The items or services covered by this contract may be or become available under other County contract(s), and the County may determine that it is in its best interest to procure the items or services through such other contract(s). The County does not guarantee that the selected contractor will be the exclusive provider of the goods or services covered by the resulting contract.

16. RIDER CLAUSE

Offerors will have the option to extend any contract resulting from this solicitation as follows:

A. Extension to Other Jurisdictions

The County extends the resultant contract(s), including pricing, terms and conditions, to all public entities under the jurisdiction of the United States of America and its territories.

B. Inclusion of Governmental & Nonprofit Participants

C. Contract Agreement

The contractor may be required by a using jurisdiction to enter into a separate contract containing general terms and conditions unique to that jurisdiction.

17. ELECTRONIC SIGNATURE

If awarded, the Offeror may be required to accept an agreement and sign electronically through the County's e-signature solution, DocuSign.

III. INTRODUCTION TO REQUEST FOR PROPOSAL NO. 22-DES-RFP-652

The intent of this solicitation and resulting agreement is to obtain the services of a qualified contractor to provide the County with a Computerized Maintenance Management System (CMMS) and implementation services for the Arlington County Water Pollution Control Bureau (WPCB). This system will either upgrade and enhance the WPCB’s current CMMS or replace and convert the system to a new software application. The CMMS should be a commercially available software with a successful performance record with other local governments of similar size and scope as the County WPCB.

BACKGROUND/PURPOSE OF SOLICITATION

The WPCB operates one plant, 13 lift stations, and 2 metering stations. The plant is a highly automated facility with over 14,000 devices used for monitoring and control and has a staff of approximately 90 full-time personnel. The facility is staffed around the clock with 24/7 operations.

The WPCB maintains over 8,000 active assets and 175 different asset types through multiple platforms as detailed in Table 1-1 below.

IV. SCOPE OF SERVICES

Following are the software and implementation requirements:

A. Software Procurement

Provide a CMMS software for up to 100 County users. The proposed software can be onsite server-installed or cloud-based. All functional and technical requirements for the software can be found in Attachment A.

B. Project Management

Provide project management services, including establishing a written project management plan, establishing and updating regularly appropriate project controls for budget and schedule, updating the WPCB on project status regularly (monthly at a minimum), facilitating project status meetings, managing implementation team staff, and ensuring project quality.

The project manager will be responsible for providing procedures to report, track, respond, and escalate identified issues.

C. Software Installation

Lead the installation of the software on the WPCB servers with the assistance of the WPCB Information Technology (IT) staff. A mobile access method will be provided. WPCB will provide the required hardware and environments.

D. Initiation

Provide a project schedule describing the activities for the Contractor, including establishment of project teams, roles, responsibilities, expectations, and schedules. This phase will include the following:

- Assessment of County business goals and IT environment
- Development of system implementation strategy

E. Confirm Functional Requirements

Detail methodology to meet functional and technical specifications based on the WPCB requirements. The development of an integration strategy and data migration strategy is required. This phase will include the following:

- Development of functional and technical documentation (configuration documents)
- Development of integration strategy
- Development of CMMS report specifications
- Development of legacy data migration strategy

1. Legacy Data Migration Notes

Work with WPCB to identify the asset and work history data to be migrated to the new CMMS software from the existing MP2 database (Infor MP2 SQL Server). The Contractor will be responsible for providing the necessary tools and process for migrating legacy data from MP2 to the new system. Data will be mapped by the Contractor to templates to load, and migration scripts will be developed if required.

WPCB will review the asset and work history data to ensure quality prior to migrating into the new CMMS Software. The following assumptions are made regarding asset migration:

- The existing asset hierarchy will not be migrated, as an updated asset hierarchy has been developed by the WPCB. The new hierarchy is a function-based structure with physical location as an attribute. The Contractor will be responsible for updating the new hierarchy and importing it.
- Only work order history on critical assets (less than 2,000) for a period of three years will be migrated under this scope.
- Certain assets have associated documents. WPCB will re-create the links to these documents; however, the Contractor is responsible for the integration/interface that allows this to occur.

2. Business Process Analysis

Review and document key processes, including interface and modification requirements that will ensure the functional and technical requirements are met. Make recommendations to existing maintenance management business processes based on industry best practices. These business processes, up to 10, will be reviewed and configured to minimize modifications or configurations to the software application. Elements include establishing appropriate user security, start centers, and screen changes based on WPCB needs. The resulting proposed business processes for the software application should be agreeable to both the WPCB and the Contractor as a result of the Business Process Analysis.

3. Reporting

Provide standard no-configuration reporting templates. Configure a total of ten custom reports that can be modified by the County (1-2 pages in length) to meet WPCB CMMS reporting needs.

4. Integration / Interfaces

Review and define the integration requirements and develop integration architecture and development plans. The Contractor must integrate the software with existing applications provided in Table 1-2 below and have the flexibility to integrate with new technology for future business improvement goals.

Table 1-2. Interfaces Required in this Scope

Application/Vendor	Interface Description	Directional	Real Time vs. Batch
1 Oracle E-Business Suite (EBS) or Oracle Cloud ERP	<ul style="list-style-type: none"> • Purchasing • Receipt/Invoicing 	Bi-directional	Batch
2 Rockwell Automation Factory Talk View	SCADA	One-directional	Batch
3 Azure single sign-on	User (single sign-on)	One-directional	Real time

F. Configure

The Contractor will lead the configuration of the system based on the outcome of the Business Process Analysis phase.

The Contractor shall develop, integrate, and verify and test all applicable components of the solution, including workflows, integrations, data migration processes, and report development as described below. This phase will include execution and documentation of the following:

- Configuration of CMMS Software according to specifications
- Implementation of existing workflows/business processes into the CMMS Software and development of additional workflows
- Development of integrations
- Migration of legacy data
- Development of CMMS reports
- Configuration of mobile application

G. Verify / Test

Create test plans specific to the County, including load and acceptance testing plans, and assist WPCB with testing the system. Provide on-site assistance during the testing phases to assist WPCB users as required. Testing will include core functionality and integration testing for the WPCB's required interfaces and modifications. The testing should be performed in the desktop and mobile device formats.

This phase will include participation from the County and is subject to County sign-off of the following:

- System testing
- Integration testing
- User acceptance testing
- Regression testing

H. Deploy

The Contractor must be on-site for Go-Live with an approved deployment plan. The Contractor will provide a detailed cut-over plan from the legacy system to the new system and must ensure that the system is stabilized prior to final acceptance by the WPCB.

Develop a transition plan so that the implementation is sustainable by the WPCB and County staff beyond the end of this initial implementation. This plan must be comprehensive, including functional and technical administration of the software with roles and responsibilities outlined.

Move the system into production and provide the following:

- Go-Live/Roll-out in accordance with the Deployment Plan
- On-site support – End-User
- On-site support – Technical

I. Training

Provide training to ensure 100 percent knowledge transfer of all functions to WPCB through live in-person training sessions, not pre-recorded. Train-the-trainer type training materials are preferred for the specific sessions, along with the delivery of the specific session.

Include an open-house training where the Contractor staffs a laboratory that is open for users to stop by and ask specific questions and work one-on-one with a trainer.

Specific training sessions required are:

- CMMS System Awareness Training to explain in detail the functionality of the modules purchased.
 - Up to 60 participants; open to any staff
- CMMS Fundamentals, End-User Training, Role-Based
 - Anticipate 4 sessions with up to 25 participants per session
- CMMS Planner/Scheduler Training
 - Anticipate 1 session with up to 10 participants
- System Administrator Training
 - Anticipate 1 session with up to 10 participants

J. Stabilize / Sustainment

Provide 30 days of Post-Live support to resolve any issues.

After the Post-Live period has ended, update all documents developed during the project to reflect "as-built" conditions prior to the WPCB's final acceptance and payment of final invoice.

Final acceptance and sign-off of the system will be completed at the end of Post-Live, and the sign-off date will become the maintenance effective date.

In addition, the Contractor must allow for up to 80 hours of longer-term, as-directed support for up to six months beyond the 30 day Post-Live period and beyond the typical support mechanisms provided in the Software Licensing Agreement. The intention for this support is to assist WPCB as configuration or integration issues are identified during the stabilization period.

This phase will include:

- Support
- Final Acceptance and Sign-Off

K. End Of Life Requirements

At the end of the contract, the data contained within the software, including the full database backup, must be provided to the County in a useable format (.SQL).

The County will not be liable for payment for any purchases made by its employees that are not authorized by the County Purchasing Agent.

The Contractor may not replace key personnel or subcontractors identified in its proposal, including the approved Project Manager, without the County's written approval. The Contractor must submit any request to remove or replace key personnel or subcontractors to the County Project Officer at least 15 calendar days in advance of the proposed action. If the approved Project Manager must be absent for an extended period, the Contractor must provide an interim Project Manager, subject to the County's written approval.

If the approved Project Manager resigns or is terminated by the Contractor, the Contractor will replace the Project Manager with an individual with similar qualifications and experience, subject to the County's written approval.

During the performance of its work pursuant to this Contract:

- A. The Contractor will not discriminate against any employee or applicant for employment because of race, religion, color, sex, sexual orientation, gender identity, national origin, age, disability or on any other basis prohibited by state law. The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices setting forth the provisions of this nondiscrimination clause.
- B. Notices, advertisements and solicitations placed in accordance with federal law, rule or regulation will be deemed sufficient for meeting the requirements of this section.
- C. The Contractor will state in all solicitations or advertisements for employees that it places or causes to be placed that such Contractor is an Equal Opportunity Employer.
- D. The Contractor will comply with the provisions of the Americans with Disabilities Act of 1990 ("ADA"), which prohibits discrimination against individuals with disabilities in employment and mandates that disabled individuals be provided access to publicly and privately provided services and activities.
- E. The Contractor must include the provisions of the foregoing paragraphs in every subcontract or purchase order of more than \$10,000.00 relating to this Contract so that the provisions will be binding upon each subcontractor or vendor.

18. * EMPLOYMENT OF UNAUTHORIZED ALIENS PROHIBITED

In accordance with §2.2-4311.1 of the Code of Virginia, as amended, the Contractor must not during the performance of this Contract knowingly employ an unauthorized alien, as that term is defined in the federal Immigration Reform and Control Act of 1986.

19. * DRUG-FREE WORKPLACE TO BE MAINTAINED BY CONTRACTOR

During the performance of this Contract, the Contractor must: (i) provide a drug-free workplace for its employees; (ii) post in conspicuous places, available to employees and applicants for employment, a statement notifying employees that the unlawful manufacture, sale, distribution, dispensation, possession, or use of a controlled substance or marijuana is prohibited in the Contractor's workplace and specifying the actions that will be taken against employees for violating such prohibition; (iii) state in all

solicitations or advertisements for employees placed by or on behalf of the Contractor that the Contractor maintains a drug-free workplace; and (iv) include the provisions of the foregoing clauses in every subcontract or purchase order of more than \$10,000.00 relating to this Contract so that the provisions will be binding upon each subcontractor or vendor.

For the purposes of this section, "workplace" means the site(s) for the performance of the work required by this Contract.

20. *SEXUAL HARASSMENT POLICY

If the Contractor employs more than five employees, the Contractor shall (i) provide annual training on the Contractor's sexual harassment policy to all supervisors and employees providing services in the Commonwealth, except such supervisors or employees that are required to complete sexual harassment training provided by the Department of Human Resource Management, and (ii) post the Contractor's sexual harassment policy in (a) a conspicuous public place in each building located in the Commonwealth that the Contractor owns or leases for business purposes and (b) the Contractor's employee handbook.

21. TERMINATION

The County may terminate this Contract at any time as follows: (1) for cause, if, as determined by the County, the Contractor is in breach or default or has failed to perform the Work satisfactorily; or (2) for the convenience of the County.

Upon receipt of a notice of termination, the Contractor must not place any further orders or subcontracts for materials, services or facilities; must terminate all vendors and subcontracts, except as are necessary for the completion of any portion of the Work that the County did not terminate; and must immediately deliver all documents related to the terminated Work to the County.

Any purchases that the Contractor makes after the notice of termination will be the sole responsibility of the Contractor, unless the County has approved the purchases in writing as necessary for completion of any portion of the Work that the County did not terminate.

If any court of competent jurisdiction finds a termination for cause by the County to be improper, then the termination will be deemed a termination for convenience.

A. TERMINATION FOR CAUSE, INCLUDING BREACH AND DEFAULT; CURE

1. Termination for Unsatisfactory Performance. If the County determines that the Contractor has failed to perform satisfactorily, then the County will give the Contractor written notice of such failure(s) and the opportunity to cure them within 15 days or any other period specified by the County ("Cure Period"). If the Contractor fails to cure within the Cure Period, the County may terminate the Contract for failure to provide satisfactory performance by providing written notice with a termination date. The Contractor must submit any request for termination costs, with all supporting documentation, to the County Project Officer within 30 days after the expiration of the Cure Period. The County may accept or reject the request for termination costs, in whole or in part, and may notify the Contractor of its decision within a reasonable time.

In the event of termination by the County for failure to perform satisfactorily, the Contractor must continue to provide its services as previously scheduled through the termination date,

and the County must continue to pay all fees and charges incurred through the termination date.

2. Termination for Breach or Default. If the County terminates the Contract for default or breach of any Contract provision or condition, then the termination will be immediate after notice of termination to the Contractor (unless the County provides for an opportunity to cure), and the Contractor will not be permitted to seek termination costs.

Upon any termination pursuant to this section, the Contractor will be liable to the County for costs that the County must expend to complete the Work, including costs resulting from any related delays and from unsatisfactory or non-compliant work performed by the Contractor or its subcontractors. The County will deduct such costs from any amount due to the Contractor; or if the County does not owe the Contractor, the Contractor must promptly pay the costs within 15 days of a demand by the County. This section does not limit the County's recovery of any other damages to which it is entitled by law.

Except as otherwise directed by the County, the Contractor must stop work on the date of receipt the notice of the termination.

B. TERMINATION FOR THE CONVENIENCE OF THE COUNTY

The County may terminate this Contract in whole or in part whenever the Purchasing Agent determines that termination is in the County's best interest. The County will give the Contractor at least 15 days' notice in writing. The notice must specify the extent to which the Contract is terminated and the effective termination date. The Contractor will be entitled to termination costs, plus any other reasonable amounts that the parties might negotiate; but no amount will be allowed for anticipatory profits.

Except as otherwise directed by the County, the Contractor must stop work on the date of receipt of the notice of the termination.

22. INDEMNIFICATION (Note: Virginia law does not permit the County to indemnify others; cross indemnity provisions are not acceptable to the County)

The Contractor covenants for itself, its employees and its subcontractors to save, defend, hold harmless and indemnify the County and all of its elected and appointed officials, officers, current and former employees, agents, departments, agencies, boards and commissions (collectively the "County Indemnitees") from and against any and all claims made by third parties for any and all losses, damages, injuries, fines, penalties, costs (including court costs and attorneys' fees), charges, liability, demands or exposure resulting from, arising out of or in any way connected with the Contractor's acts or omissions, including the acts or omissions of its employees and/or subcontractors, in performance or nonperformance of the Contract. This duty to save, defend, hold harmless and indemnify will survive the termination of this Contract. If the Contractor fails or refuses to fulfill its obligations contained in this section, the Contractor must reimburse the County for any and all resulting payments and expenses, including reasonable attorneys' fees. The Contractor must pay such expenses upon demand by the County, and failure to do so may result in the County withholding such amounts from any payments to the Contractor under this Contract.

23. INTELLECTUAL PROPERTY INDEMNIFICATION

The Contractor warrants and guarantees that in providing services under this Contract neither the Contractor nor any subcontractor is infringing on the intellectual property rights (including, but not limited to, copyright, patent, mask and trademark) of third parties.

If the Contractor or any of its employees or subcontractors uses any design, device, work or material that is covered by patent or copyright, it is understood that the Contract Amount includes all royalties, licensing fees, and any other costs arising from such use in connection with the Work under this Contract.

The Contractor covenants for itself, its employees and its subcontractors to save, defend, hold harmless, and indemnify the County Indemnitees, as defined above, from and against any and all claims, losses, damages, injuries, fines, penalties, costs (including court costs and attorneys' fees), charges, liability or exposure for infringement of or on account of any trademark, copyright, patented or unpatented invention, process or article manufactured or used in the performance of this Contract. This duty to save, defend, hold harmless and indemnify will survive the termination of this Contract. If the Contractor fails or refuses to fulfill its obligations contained in this section, the Contractor must reimburse the County for any and all resulting payments and expenses, including reasonable attorneys' fees. EVALUATION RATINGS DEFINITIONS

Rating	Definition	Notes
Excellent	Performance meets contractual requirements and exceeds many to the County’s benefit. The contractual performance of the element or sub-element being evaluated was accomplished with few minor problems for which corrective actions taken by the contractor were highly effective.	To justify an Exceptional rating, identify multiple significant events and state how they were of benefit to the County. A singular benefit, however, could be of such magnitude that it alone constitutes an Exceptional rating. Also, there should have been NO significant weaknesses identified.
Satisfactory	Performance meets contractual requirements. The contractual performance of the element or sub-element contains some minor problems for which corrective actions taken by the contractor appear or were satisfactory.	To justify a Satisfactory rating, there should have been only minor problems, or major problems the contractor recovered from without impact to the contract/order. There should have been NO significant weaknesses identified. A fundamental principle of assigning ratings is that contractors will not be evaluated with a rating lower than Satisfactory solely for not performing beyond the requirements of the contract/order.
Poor	Performance does not meet some contractual requirements. The contractual performance of the element or sub-element being evaluated reflects a serious problem for which the contractor has not yet identified corrective actions. The contractor’s proposed actions appear only marginally effective or were not fully implemented.	To justify poor performance, identify a significant event in each category that the contractor had trouble overcoming and state how it impacted the County. A poor rating should be supported by referencing the management tool that notified the contractor of the contractual deficiency (e.g., management, quality, safety, or environmental deficiency report or letter).

Unacceptable	Performance does not meet most contractual requirements and recovery is not likely in a timely manner. The contractual performance of the element or sub-element contains a serious problem(s) for which the contractor’s corrective actions appear or were ineffective.	To justify an Unsatisfactory rating, identify multiple significant events in each category that the contractor had trouble overcoming and state how it impacted the County. A singular problem, however, could be of such serious magnitude that it alone constitutes an unsatisfactory rating. An Unsatisfactory rating should be supported by referencing the management tools used to notify the contractor of the contractual deficiencies (e.g., management, quality, safety, or environmental deficiency reports, or letters).
Not Applicable (N/A)	N/A (not applicable) should be used if the ratings are not going to be applied to a particular area for evaluation.
