N/A 3.16 DAVIS-BACON ACT (<https://www.dol.gov/whd/govcontracts/dbra.htm>) This project is funded with federal monies thru HUD. As such, the Davis-Bacon Act (DBA) 40 USC 276a-276a-5 provisions apply.

3.16.1 The Davis-Bacon and Related Acts, apply to contractors and subcontractors performing on federally funded or assisted contracts in excess of \$2,000 for the construction, alteration, or repair (including painting and decorating) of public buildings or public works. **Davis-Bacon Act and Related Act contractors and subcontractors must pay their laborers and mechanics employed under the contract no less than the locally prevailing wages and fringe benefits for corresponding work on similar projects in the area.** The Davis-Bacon Act directs the Department of Labor to determine such locally prevailing wage rates. The Davis-Bacon Act prevailing wage provisions apply to the "Related Acts," under which federal agencies assist construction projects through grants, loans, loan guarantees, and insurance.

**3.16.2 It is the responsibility of the contractor awarded this project to understand and comply with the requirements of these federal regulations. See Section 3.17 3.18 for more information.**

3.16.3 The work & resulting contract, which involve the employment of laborers and/or mechanics shall contain provisions with respect to minimum wages, fringe benefits, payments without deductions or rebates, withholding funds from contractors to ensure compliance with the wage provisions, and termination of the contract, or debarment for failure to adhere to the required provisions herein.

3.16.4 Davis Bacon Act - HISTORY – Protecting Wage Equality Since 1931 - Since its enactment in 1931, the Davis-Bacon Act (DBA) has provided critical wage protections for construction workers and has guaranteed a level playing field for construction contractors bidding on federal projects.

3.16.4.1 The federal government constructs buildings, builds dams, and funds housing projects. State highway departments pave roads with federal funds from the Federal Highway Administration. Local and state governments build water treatment plants, modernize schools, and renovate airports with the support of federal funds.

3.16.4.2 The DBA ensures that construction workers on federal or federally assisted construction projects will not see their wages and benefits undercut by government spending practices. The DBA exists to prevent the infusion of federal dollars into local communities from depressing local wages. **DBA provides a wage floor that protects construction workers' pay, and sets a level playing field for contractors who are bidding on federally funded projects.** As important, these standards enable local contractors and their employees to compete for local projects by protecting against under-bidding by contractors from other areas who might import workers or offer the same jobs for less pay.

N/A 3.17 FEDERAL WAGE DETERMINATIONS - <https://www.wdol.gov/dba.aspx>

US Department of Labor (DOL) issues DBA Wage Decisions (WDs) reflecting prevailing wages and benefits paid by the construction industry within specific localities. The DBA WDs are further classified by the nature of the construction projects performed, specifically listed as "schedules": residential, building, highway, and heavy construction. A brief outline of the definitions for each schedule is listed below. Further details and examples may be found in DOL's "All Agency Memorandum No. 130 and 131" issued in 1978 (reference the WDOL online Library Page).

3.17.1 Building Construction: Includes construction of sheltered enclosures with walk-in access for the purpose of housing persons, machinery, equipment or supplies; all construction of such structures; the installation of utilities and of equipment, both above and below grade levels; as well as incidental grading, utilities and paving. Such structures need not be "habitable" to be building construction. Also, the installation of heavy machinery and/or equipment does not generally change the project's character as a building.
