III. Background

The City of Knoxville Police Department records approximately 600 Driving Under the Influence (DUI) cases a year. Knoxville Police Department is routinely required to extract blood from arrestees to detect the presence of drugs and alcohol during DUI investigations. The extractions provide law enforcement with a comprehensive snap shot of all intoxicants to include alcohol, illicit drugs and prescription drugs. When blood alcohol/drug concentration levels during a DUI investigation must be verified by blood extraction and testing, KPD officers currently transport suspects to local hospitals for blood extraction. Due to the busy nature of the hospital environment, the current system endures long wait times to receive necessary services. During this wait time, suspects’ bodies metabolize alcohol and drugs creating less forensically useful results, while officers are also being detained for long periods preventing them from attending to other law enforcement calls.

The City seeks to change this system to on-scene blood extraction in order to more accurately reflect alcohol/drug concentrations at the time the offense was committed and reduce the length of time officers are attending to DUI cases. The City seeks to contract with a firm to respond to DUI investigation scenes within a 30-minute call response time on a 24 hour per day/365 day per year availability to perform blood extraction services on DUI suspects on scene.

V. Scope of Service

The City of Knoxville is requesting proposals from qualified, professional companies or firms to provide on-call blood extraction services for the Knoxville Police Department. These services will be for the purpose of DUI verification and shall occur on the scene of the DUI investigation. The awarded Contractor shall respond to service calls within a 30-minute response time and be available 24 hours per day/365 days per year.

Attached to this document (page 28) is a breakdown of the DUI cases recorded by KPD in 2018 noted by day of week and time of day. This information is being provided for the sole purpose of assisting interested parties in the preparation of a proposal submission. These estimates are only to be used as estimates and are not a basis for commitment by the City. Any references to any number of DUI investigations provided anywhere within this document are for the sole purpose of proposal submission assistance only. The City does not guarantee nor does it commit to any specific number of calls for service.

The successful proposer must be able to satisfy the requirements outlined below:

Contractor:

- Shall have a minimum of three (3) years' experience performing blood extraction services as described in this RFP.
- Shall have qualified staff, pursuant to T.C.A. §§55-10-408 and 55-10-406, to procure a sample of a person's blood, and perform the services required within this contract.
- Shall have all appropriate licenses and certifications required in the State of Tennessee to perform the services and must be in full compliance with all federal, state and local laws and regulations required to perform such services.
- Shall be accessible 24 hours per day/365 days per year and respond to calls for service within a 30-minute time frame. The 30-minute response time requirement commences when the initial call for service is placed. If contractor is unable to respond within the allotted time, contractor shall provide an estimated time of arrival. Consistent failure to meet response time requirements shall constitute, at minimum, cause for liquidated damages and, at maximum, termination of contract. Consistent failure shall be defined as more than 10% of the monthly calls for service exceed the 30-minute response time requirement within that month. Liquidated damages shall be assessed at a rate of \$20 per call for all calls during that month which failed to meet the 30-minute response time requirement.
- Shall utilize Tennessee Bureau of Investigation (TBI) lab kits to perform the duties of this contract. TBI lab kits shall be provided at the scene to Contractor staff by the attending officer. This kit contains an Alcohol/Toxicology request form, two (2) gray top vacutainers, one (1) Biohazard Sticker, one (1) FDA information insert, one (1) plastic bag, and one (1) bubble wrap bag for blood tubes. Contractor shall provide all other materials and equipment necessary to provide extraction services. Examples of items contractor shall be responsible for providing include gloves for staff member, gauze,

needles, etc. This list is only a sampling of items. Contractor shall be responsible for the knowledge of what items are required to successfully perform the services required.

- Shall extract blood from suspect utilizing necessary equipment and materials provided by the contractor, place blood tubes in bubble wrap bag, and seal packaging. Place bubble wrapped tubes in plastic bag provided and sign Alcohol/ Toxicology request form. All items shall then be placed in provided kit and sealed. Contractor staff shall then initial the seal and surrender kit to attending officer. Contractor staff shall document the call for invoicing purposes by case number. It is the responsibility of the Contractor to request case number from attending officer at the time of call for service.
- Shall be responsible for the disposal of all waste created as a result of services requested. Disposal of waste shall be in accordance with all applicable laws and regulations.
- Shall make available sufficient information to enable attending DUI officers to dispatch on-call staff, including a 24-hour on-call telephone number, names of qualified personnel, and alternate or back up phone numbers.

Extraction at high volume

- On rare occasions, arresting officers may have multiple arrestees in custody and require multiple blood draws simultaneously. In order to meet the need of blood extraction services within the 30-minute response time, the City is open to meeting the Contractor at a meeting location that is agreed upon by both the arresting officer(s) and Contractor. The City intends for this option to be utilized on rare occasions and when deemed necessary by the City. Authority to determine whether this option is in the best interest of the DUI investigation shall solely rest with the City and not the Contractor. Proposers are encouraged to address this topic within their proposal submission or propose any alter solutions to the rare need for blood extraction services of multiple arrestees in such a way that services for all suspects occur in a timely manner.

Work Environment

- Contractor shall be aware that DUI investigation scenes provide a work environment that may include blood extractions from suspects fully compliant or non-compliant.
- Contractor shall be aware that some blood extractions may be performed on suspects on a “forced draw” basis in which the suspect may be violent or belligerent.
- Contractor shall be aware that there may be times a service call is made when suspect has given verbal consent, but retracts consent once personnel arrive at the scene. In such cases, blood extraction shall not occur if there are no legal grounds for a “forced draw.” Proposer is encouraged to address these situations within proposal and list any associated fees.
- Contractor shall be aware that travel is required to DUI scenes. Service area shall cover the entirety of the City of Knoxville city limits.
- Contractor shall be aware that DUI scenes may include, but are not limited to, traffic stops, check points, and crash scenes (to include scenes where fatalities may have occurred).

Records and Payments

- Contractor shall provide to the City invoices that do not provide names of any suspects. All references to a service call shall be noted by case number only. It is the responsibility of the Contractor to request case number from attending officer at the time of call for service.

Contractor shall save, indemnify and hold City harmless and pay judgments that shall be rendered in any such actions, suits, claims or demands against City alleging liability referenced above.

The indemnification and hold harmless provisions of this Agreement shall survive termination of the Agreement.

6.7 Termination. The City may terminate this Agreement at any time, with or without cause, by written notice of termination to the Contractor.

If the City terminates this Agreement, and such termination is not a result of a default by the Contractor, the Contractor shall be entitled to receive as its sole and exclusive remedy the following amounts from the City, and the City shall have no further or other obligations to the Contractor: the amount due to the Contractor for work executed through the date of termination, not including any future fees, profits, or other compensation or payments which the Contractor would have been entitled to receive if this Agreement had not been terminated.

The City may, by written notice of default to the Contractor, terminate the whole or any part of this Agreement if the Contractor fails to perform any provisions of this Agreement and does not cure such failure within a period of ten (10) days (or such longer period as the Purchasing Agent may authorize in writing) after receipt of said notice from the Purchasing Agent specifying such failure. If this Agreement is terminated in whole or in part for default, the City may procure, upon such terms and in such manner as the Purchasing Agent may deem appropriate, supplies or services similar to those terminated.

As such, the City encourages prime contractors to seek out and consider competitive sub-proposals and quotations from diverse businesses.
