Section V: Bid Specifications

SPECIFICATIONS

1.0 SCOPE AND CLASSIFICATION

- 1.1 **Scope:** The City of Canton Water Reclamation Facility (WRF) is seeking bids for a one (1) year as needed supply contract for liquid emulsion polymer.
- 1.2 **Classification:** The successful bidder will deliver F.O.B. Destination to the City of Canton, Ohio WRF liquid emulsion polymer on an as needed basis per the specifications included in this bid packet.

2.0 APPLICABLE PUBLICATIONS & STANDARDS

- 2.1 See specifications below.

3.0 REQUIREMENTS

- 3.1 The contract term shall be for one (1) year beginning on March 1, 2018. There shall also be the option of three (3) additional one (1) year extensions if mutually agreed upon in writing by the City of Canton and successful bidder.
- 3.2 Under this contract, the Supplier will furnish and deliver liquid emulsion polymer to the City of Canton Water Reclamation Facility (WRF) to be used for dewatering approximately 35,000 to 45,000 pounds of dry solids per day of municipal wastewater treatment plant sludge prior to or landfill disposal. The sludge is generated from the Membrane BioReactor (MBR) activated sludge process. The waste activated sludge will have an approximate concentration of 1.2% solids.
- 3.3 The City utilizes two meter belt presses (Klampress) manufactured by Ashbrook Corporation to accomplish the dewatering process. Only liquid emulsion polymers that are compatible with the City's equipment are acceptable.
- 3.4 The bidder, before submitting a bid, shall carefully examine all bid documents, instructions to bidders, general conditions, supplemental general conditions, detailed specifications, addenda, contract forms, and all other available information; shall **visit the site** to make a thorough investigation of conditions and any and all equipment that may in any manner affect the use of emulsion polymer; shall familiarize themselves with Federal, state and local laws, ordinances, rules and regulations, which may in any way affect his performance under this contract; and shall carefully coordinate his observations with the requirements of the Contract Documents. The bidder's obligations hereunder shall include, but not be limited to, making such investigations as the bidder may deem necessary to determine his bid price.

Liquid Emulsion Polymer Water Reclamation Facility

- 3.4.1 **Permission to make such investigations on the property of the Canton WRF and preparation of samples for pick-up in bidder supplied containers by the bidder will be granted upon request.**
- 3.4.2 Please contact Marc Morgan, Assistant Superintendent, at marc.morgan@cantonohio.gov or 330-438-4804 to schedule the required investigation.
- 3.5 De-Scalant shall be added to the emulsion polymer at the time of manufacturing to prevent scaling in the system. If it is not practical to add it at the time of manufacture, the vendor shall be responsible for supplying de-scalant to the City. The manufacturer is also responsible for the chemicals to remove scale, should it occur in the system.
- 3.6 All bidders are required to bid fixed, firm pricing. Any bid containing an escalator clause will not be considered.
- 3.7 The successful bidder shall be required to comply with the insurance requirements contained in the bid packet.
- 3.8 The City of Canton will place orders on an as needed basis and gives no guarantee that any minimum or maximum amount of emulsion polymer will be ordered.

4.0 SAMPLING, INSPECTION, AND TEST PROCEDURES

- 4.1 At the City's option, the Supplier shall provide technical assistance to achieve the performance levels listed in the bid. If the cake solids drop more than 3% below the performance levels listed in the bid and/or the emulsion polymer usage exceeds the value by more than 20% for 10 consecutive days, the Supplier may be required to prove the emulsion polymer can continuously achieve the performance guaranteed in the bid. If the Supplier cannot continuously achieve the guaranteed performance requirements, he shall credit the City for the additional cost encountered because of the deficient emulsion polymer. He shall also conduct tests to determine if another prime emulsion polymer should be supplied; and if necessary, supply a different emulsion polymer at the contract cost.
- 4.2 If the Supplier is unable to achieve the guaranteed performance levels or Annual Operating Cost, the City reserves the right to test emulsion polymers of other manufacturers. If other manufacturers' emulsion polymers can achieve the guaranteed performance levels at a lower Annual Operating Cost than the adjusted cost of the original Supplier, the City can cancel the contract and enter into contract with an alternate supplier.
- 4.3 If for any reason the emulsion polymer will not perform at the 140-gallons-per-minute rate for such reasons as belt blinding, etc. and in the opinion of the City cannot be used, it shall be removed from the storage tanks by the Supplier and full credit issued to the City for the deficient material.

Liquid Emulsion Polymer Water Reclamation Facility

- 4.4 The bidders are encouraged to test their proposed emulsion polymer, through jar testing, to determine which product or products provide the most effective dewatering of the sludge. These tests shall be performed by and at the expense of the bidder. Sludge samples will be provided at the plant in containers supplied by the bidder. The sludge concentration will be approximately 1.2% solids.
- 4.5 After opening of bids, the bidder that has the apparent lowest and best bid will be invited to demonstrate the effectiveness of his product. **The bidder must be available for this demonstration within one (1) week of notification.** The bidder shall provide sufficient emulsion polymer to demonstrate, through field trials at the plant, the effectiveness of the emulsion polymer in dewatering the sludge to at least fifteen (15) percent solids. A reasonable amount of time will be afforded the bidder, but in no case shall the bidder interfere with the normal operation of the plant. Should the emulsion polymer fail the field trial, the bid will be rejected on the basis of compatibility, and the next lowest bidder will be invited for performance evaluation.
