

Addendum #1 4/14/2021

Please add to specifications:

Water System- Fixed water tanks with a minimum 25 gallon fresh, 35 gallon grey (grey must be at least 15% greater volume than the fresh). Water pump. Outlet for draining. All fixtures plumbed in per industry standard. On demand propane-fired hot water heater minimum 2gpm per minute (tankless) or a 6gpm minimum tank hot water heater. All plumbing should meet SC DHEC specs.
