

23-55 Internet Content Filter Addendum

Solution must:

Be CIPA compliant

Provide live reporting and logging

Filter YouTube videos and/or channels by category

Filter thumbnails in image searches from blocked domains

Filter devices on and off JCSS network

Assign filter policies by security group, individual, or subnet

Authenticate BYOD users

Provide SSL decryption

Be compatible with Windows, Chrome OS, and iOS devices.

We would like to see a pricing option for paying yearly for the next three years as well as the option to pay up front for all three years.
