III. SCOPE OF WORK

It is Proposer's responsibility to propose a complete scope of work that explains in detail Proposer's offering and encompasses the requirements set forth below, which includes the minimum list of services and deliverables the selected provider is expected to provide the City. The City may modify the proposed scope of work to meet available funding or to best meet the needs of the City.

A. OVERVIEW OF WORK REQUIREMENTS

In accordance with the provisions of Section 1013.45, Florida Statutes and pursuant to the State of Florida's Consultants Competitive Negotiations Act, Section 287.055, Florida Statutes, the City will consider the selection of a Construction Total Program Management (the "TPM") firm for the providing of professional services for a construction total program management project consisting of a multiple-site program of remodeling, renovations, additions, and new projects which will be implemented in separate phases over a five (5) year period with one five (5) year extension upon mutual agreement.

B. DETAILED SCOPE OF SERVICES

During a period commencing with a Notice To Proceed issued by the City to the TPM firm and ending at the completion of the initial five-year term and any renewal term, the City intends to complete a series of construction, remodeling, renovation, and operations and maintenance projects, which will be enumerated in a Project List annually or more frequently if required. The decision by the City to go forward with any or all projects at any time may be a function of available funds or of other factors in the sole discretion of the City.

The initial term of this contract shall be for a period of five (5) years. The contract may be renewed for one additional five (5) year term upon mutual agreement and negotiation of the parties. The City may, at its option, assign tasks to the TPM firm at any time during the term of the contract or any contract renewals. Work assigned within the term of the contract may be completed pursuant to the schedule outlined within the specific assignment and/or task order and may run beyond the term of the contract.

The TPM may be engaged to develop groupings of projects each year that shall be considered as part of the annual budget process.

CONTINUED ON NEXT PAGE

The TPM firm will be solely and fully responsible for management of pre-design, design, construction, and post construction services including warranties for those projects in accordance with the method of construction and form of compensation, as selected to be the City's Owner's Representative, to be used by the TPM for each project (Guaranteed Maximum Price, Lump Sum Contract, Reimbursable Rate Contract, use of a Construction Manager at risk, or any other state approved construction delivery method). The City intends to hold the contracted TPM firm at risk for the on-time, on-budget, quality-specified completion of the projects to be managed by that firm and to require that firm to provide warranties which supersede and may survive any warranties by subcontractors, manufacturers, or materialmen.

The City intends that the TPM firm will have no conflict of interest or dual role as a contractor or subcontractor except as may be expressly authorized by the City in accordance with Florida law.

The TPM firm will be required to provide or cause to be provided upon request; performance and payment bonds to guarantee all schedules and costs in amounts set forth under Section 255.05, Florida Statutes and hold valid contracting and engineering/architectural licenses within the State of Florida.

Nothing in the City's relationship with the TPM firm will diminish the responsibility of architects, construction managers, contractors, subcontractors, and vendors for the quality of their work and products, timeliness of work and delivery, safety, legal compliances, and warranties. The City intends that entities overseen by the TPM firm will themselves be held at risk by the TPM firm for on-time, on-budget, quality-specific performance.

NOTWITHSTANDING ANYTHING HEREIN TO THE CONTRARY, THE CITY RESERVES THE RIGHT, AFTER THE SELECTION OF A TPM FIRM, TO REQUIRE THE FIRM SO SELECTED TO OFFER A GUARANTEED MAXIMUM PRICE AND GUARANTEED COMPLETION DATE(S) IN WHICH CASE, THE TPM FIRM IN ADDITION TO PROVIDING APPROPRIATE SURETY BONDS AS REQUIRED HEREIN AND PURSUANT TO SECTION 255.05 FLORIDA STATUTES MUST ALSO HOLD DESIGN AND CONSTRUCTION SUBCONTRACTS.

The City may use the services of an independent cost-estimating professional/firm to validate the construction program costs prior to acceptance of a Guaranteed Maximum Price. If the City, in its sole discretion, finds that the TPM firm's Guaranteed Maximum Price for a task order or an individual project exceeds the independent cost estimator's analysis of appropriate market conditions and if the TPM firm then fails to reduce its costs to comply with such market conditions, the City reserves the right to terminate the TPM firm's contract. The TPM firm shall be expected to cooperate with the Owner's independent cost estimator and to schedule the work, so it does not impede the schedule for the various tasks. The City retains its rights to modify these provisions at its sole discretion.

1. Pre-design and Design Services

The TPM firm will be fully responsible for all aspects of the design of all projects encompassed in its contract with the City, including pre-design, schematic design, design development, construction documents, contract administration, planning, and budgeting. The TPM firm will be required to develop a program that facilitates the use of qualified local design professionals to complete the construction documents so long as the use of such local design professionals constitutes the best and most cost-effective use of public funds. The City understands that, in some instances, this may not be practical or cost-efficient and that, in those instances, the TPM may be allowed to self-perform certain aspects of the design services with prior approval of the City. The scope of pre-design and design services include but are not limited to:

- a) Develop project-specific specifications as required within City-approved budget parameters and with the consultation and involvement of City Staff.
- b) Develop design standards and master specifications to promote replication and re-use of plan components among projects when appropriate.
- c) Develop a master program budget and cash flow schedule for each and all of the program phases and component projects and items of work and categories of expense within each such project including site acquisitions, infrastructure development, legal fees, consultant fees, testing, environmental remediation, all aspects of construction, furnishings, fixtures, playgrounds/athletic fields, landscaping, and contingencies. - g) Ascertain and qualify the City for incentive awards and funding from state or federal government based on the use of cost-effective designs and construction methods.

Develop preliminary and master bidding schedules for all phases of all projects. - l) Develop necessary strategies for bulk purchasing or early procurement of major building systems to achieve optimum price advantages.

- a) Conduct technical review of plans, prepare bidding documents, and conform final plans to budget and timetable so as to substantially reduce subsequent change orders.
- b) Organize and manage the process of selecting construction managers, contractors and vendors by others by either (A) pre-qualifying bidders, filing all legal notices, leading all pre-bid conferences, managing bid opening, evaluating bids, and recommending bid awards to the City or (B) enter into negotiations for required construction services based on qualifications as may be allowed by Florida law and holding all such subcontracts negotiated.

- a) Respondents should indicate the extent of self-performance, if any, in architectural and engineering services, general contractor services, or any other construction or maintenance-related services. Respondents shall also indicate methods to encourage and utilize local providers of services.

C. PROPOSER MINIMUM QUALIFICATIONS

The Request for Qualifications (RFQ) for Construction Total Program Management outlines specific minimum qualifications that prospective bidders must meet to be considered for the project. Bidders are required to demonstrate a minimum of 5 years of proven experience in providing total program management services within the construction industry, supported by evidence of successfully completed projects. Additionally, all bidders must hold the requisite certifications and licenses mandated by relevant regulatory bodies in the project's jurisdiction.

A comprehensive understanding of construction management principles, encompassing scheduling, budgeting, risk management, quality control, and procurement, is imperative. Bidders must assemble a team of qualified personnel with backgrounds in construction management, architecture, engineering, and project management. Financial stability is a crucial consideration, necessitating evidence of the bidder's capacity to manage project finances effectively. Adequate liability insurance coverage to mitigate potential risks associated with the project is mandatory.

Moreover, bidders are expected to furnish references from previous clients or projects, showcasing their ability to deliver total program management services proficiently. Compliance with all applicable laws, regulations, safety standards, and environmental requirements is non-negotiable. Transparency regarding potential conflicts of interest and strategies for their effective management is essential.

Furthermore, bidders must demonstrate sufficient capacity and resources, including access to technology, equipment, and skilled manpower, commensurate with the project's scope and scale. The RFQ underscores the significance of adherence to paragraph format to ensure clarity and uniformity in submissions.

D. PROPOSER PREFERRED QUALIFICATIONS

The City of Crestview seeks candidates with a proven track record of managing construction projects in municipalities, counties, or school districts of comparable size and complexity to our own, overseeing a minimum of 15 facilities. Preference will be given to those who have navigated the unique challenges of municipal environments, including regulatory compliance, stakeholder management, and budget constraints.

E. REMUNERATION

1. The City intends to compensate the TPM firm within, not in excess of, the overall budget for any project assigned. Respondents should detail the methods by which their services will save, not add to, project costs and should enumerate specific at-risk provisions.
2. The City intends to negotiate a performance-based fee and progress payment schedule for TPM services, which rewards timely completion of certain "milestone events". The City intends to share savings achieved below Guaranteed Maximum Price based on a negotiated arrangement including savings sharing that incents performance by the TPM or Construction Management firms.
3. The City intends to disincentive failure to achieve on-time or on-budget performance by making deductions in negotiated fees and delaying progress payments and withholding incentive payments. The City may include in any TPM contract provisions for liquidated damages.
4. The City intends those entities, including architects, construction managers, and contractors overseen by the TPM firm, will be at risk for on-time and on-budget performance.
5. The City reserves the right to provide Builders Risk insurance coverage through its own insurance program for construction projects.
6. All project contingency fund amounts will be under the control of the City as Owner and will not be subject to the shared savings incentive plan.
