 E. Panels must have a minimum of four (4) -Point Multi-Touch for multiple users to annotate on the screen at one time.
 Minimum of 4 points of touch. This is a really low standard on Touch Interactive displays these days. Shouldn't the minimum be more like 10-30 Points of touch to make it more apples to apples for a more current product? Can you give a more current range of touch points?

Response:20-point touch or 10 dual-touch capabilities and gestures

N. Have a high brightness backlit LED panel brightness with a minimum 300 nits.
4. This is pretty low for a classroom environment. This is also a big dollar factor for pricing on displays. Could we get a more definitive answer to range of nits for a classroom environment?

Response: Current classroom environment nits is fine with the current standard of 1000 nits or greater

Question: How many 75" units will be purchased during the contract period?
Response: That is to be determined

Question:How many 75"-90" units will be purchased during the contract period?
Response: There will be minimal purchases of 90" displays estimate of 100 the rest will be 75" displays
There are ~1784 units in classrooms that are under a 5 year mark it could be possible that not many schools will choose to purchase these as they will be coming out of the schools budget and not Educational Technology

Question: Do we have to provide one installation cost for both 75" and 75"-90" panels or can we provide separate costs for each?
Response: Installation will be the set up of the mobile carts one cost is preferable

Question: What make and model of interactive panels do you currently have in your classrooms?
Response: Displays range from 2001 Promethean boards and Panels to current and ViewSonic View boards with in the last 5 to 6 years

Question: How many classrooms have equipment that needs to be removed?
Response: Most

Question: Will all units be delivered to a singular location or to each individual site?
Response: Delivered to multiple sites and classrooms

Question: Will all units be ordered on a single PO or multiple?
Response: Maximum of 3 purchase orders

Question: Can you provide a list of locations where work will be performed?
Response: That is to be determined

Question: Will all panels be mounted on carts?
Response: Yes

Question: Please confirm the tax exemption status of APS.
Response: We are tax exempt for the panels but not the installation because that is a service.

Question: Do you anticipate multiple vendor awards?
Response: That is to be determined based on the evaluation of proposals received. APS reserves the right to award to one or multiple vendors.

Question: We carry multiple lines of panel displays, do you recommend responding with pricing for multiple lines or just one recommended line?
Response: Recommend responding with the two current Panels in place, ViewSonic and Promethean

Question: Can you share approximately how many panels are purchased annually if it is not listed in the RFP?
Response: After the large purchase I anticipate 100 or fewer per year within the next 5 years

Question: We support managed services in all technologies Copiers, IT services and computer related products, security, AV
Is a monthly amount per panel anything you will give consideration to that covers A-Z for a 5 year period in an alternate bid?
Response: No
