1.3. PROJECT DESCRIPTION

The City of Griffin Water & Wastewater Department is looking for a firm to assist with rehabilitation of the Harry Simmons WTP. This facility was originally constructed in the 1920s and was expanded in the 1950s. The facility has served The City of Griffin well over the years but needs upgrades.

The construction delivery method for this Project will be Construction Manager at Risk (CMAR) with a Guaranteed Maximum Price to be determined by the Owner in cooperation with the selected design firm.

The design work to be accomplished by a qualified firm is divided into the following tasks:

1.3.1. Existing Conditions and Technical Analysis

The consultant will conduct a thorough review and assessment of the existing conditions at the water treatment plant. The focus of the assessment will include the following:

- Review of existing electrical, chemical, and structural systems, and aesthetic appearance.
- Prepare a memorandum documenting existing conditions and observed deficiencies of the facility in regard to these systems.
- Evaluate historic significance of the facility's architectural style and understand what it will take to preserve that significance through a facility rehabilitation project.

1.3.2. Electrical Systems Rehab

The electrical system for the facility needs updates. The facility currently has a generator located in the basement of the facility and would like to move outside. They desire to include a new automatic transfer switch to be integrated into the facility switchgear. The facility switchgear is also outdated and in need of electrical upgrade. This will require consideration for sequencing to keep the current plant running. Additionally, the finished water pump station located at the treatment plant and the associated electrical equipment needs upgrade. Lastly, the original plant has panel boxes and other electrical equipment which has been added to over time. The city would like to identify opportunities to reorganize the electrical wiring at the facility to match current electrical standards and current state of the plant.

1.3.3. Chemical Feed Systems

The facility would like to transition away from Chlorine Gas for disinfection to Bulk Sodium Hypochlorite. The city desires to bring an engineer on to work with staff to identify a new location for bulk sodium hypochlorite storage, pumping, and injection into the treatment process.

The facility would also like to work with engineering staff to evaluate current dry chemical for transition to bulk liquid storage, location of current chemical storage, and location of facility break room to find opportunities for improvement. The desire is to evaluate opinions of probable construction cost to determine feasibility of including these improvements into this project during construction.

1.3.4. Sedimentation and Flocculation Basins

The sedimentation and flocculation basins were constructed prior to OSHA requirements related to fall prevention. The city would like to provide appropriate fall prevention by either the addition of handrails or another solution. Also, there are areas of deterioration within the concrete and would like for engineer to prepare designs for restoration. Lastly, the facility would like an analysis completed to determine the benefits of adding sludge collection mechanisms to the existing sedimentation basin footprint.

1.3.5. Filter Rehab

The existing filters are in need of extensive restoration. An evaluation of the existing filter underdrains, surface sweeps, and media with recommendations to improve the filtration process with modern filter components.

1.4. PROCESS

All responses received will be reviewed by the Procurement Agent to ensure they meet the administrative requirements. All submissions that meet the administrative requirements will be turned over to the Evaluation Committee for further assessment. 3.6. NON-COLLUSION AFFIDAVIT

By submitting the notarized signature in the response, the Supplier represents and warrants that such response is genuine and real and not made in the interest or on behalf of any person not therein named. It is further warranted that the Supplier has not directly or indirectly solicited any other Supplier to put in a sham submittal, or any potential Supplier to refrain from submitting and that the Supplier has not in any manner sought by collusion to secure any advantage over any other Supplier. By submitting a response, the Supplier represents and warrants that no official or employee of City has, in any manner, an interest directly or indirectly in the RFP or in the contract which may be made under it, or in any expected profits to arise therefrom. It is further warranted that the Supplier is independent of the City.

3.7. HOLD HARMLESS AND INDEMNIFICATION

The Supplier agrees, insofar as it legally may, to indemnify and hold harmless the City, its officers, employees and agents from and against all loss, costs, and expenses, including attorneys' fees, claims, suits and judgments in connection with injury to or death of any person or persons or loss of or damage to property resulting from any and all operations performed by Supplier, its officers, employees, and agents under any of the terms of this contract.

When Bid bonds are required, they must be in a sum equal to five percent (5%) of the total amount of the Supplier's response and may be in the form of a surety issued bond or cashier's check made payable to the City of Griffin. Bid bonds are returned to the unsuccessful Suppliers when the Notice of Award has been issued or contract has been executed. When bonding is required, failure to submit appropriate bonding will result in automatic rejection of the response. Performance and/or Payment bonds must be presented within ten (10) days of the Notice of Intent to Award or prior to the award of contract, whichever is later. Surety companies executing bonds must appear on the Treasury Department's most current publication (Circular 570 as amended) and be authorized to do business in Georgia. Unless otherwise specified, bonds shall be in effect for a period of one year from the completion of the project. The bond amounts shall be increased as the contract amount is increased. No alternative securities are currently accepted in lieu of performance or payment surety bonds.

2. SECTION IV – OTHER GENERAL SPECIFICATIONS

Sections II - VII review the general terms and conditions. **Any RFP-specific information noted in Section I or in the Specifications & Response Section (if applicable) will take precedence.**

4.1. LIQUIDATED DAMAGES

Pursuant to O.C.G.A. § 36-91-24, it is understood that the Notice-to-Proceed and the time for completion of the work as specified are ESSENTIAL conditions of any resulting contract and that the performance and completion of this work within the specified time is vital to the City's economic interests. If the Supplier neglects, fails or refuses to complete the work within the mutually agreed time specified, the City may impose liquidated damages for each day of non-compliance past the scheduled completion date. Unless otherwise specified in Section I of this document or in the resulting contract, liquidated damages may be assessed at a rate of 1%, with a limit of \$500.00 per day of non-compliance.

4.2. FORCE MAJEURE

The City and Supplier will be excused from the performance of their respective obligations under this Contract when and to the extent that their performance is delayed or prevented by any circumstances beyond their control including but not limited to, fire, flood, explosion, strikes or other labor disputes, act of God or public emergency, war, riot, order/act of any governmental authority, provided that:

- 2.2.1.** The non-performing party gives the other party prompt written notice within three (3) business days describing the particulars of the Force Majeure including, but not limited to, the nature of the occurrence and its expected duration, and continues to furnish timely reports with respect thereto during the period of the Force Majeure;

- 2.2.2. The excuse of performance is of no greater scope and of no longer duration than is required by the Force Majeure;
- 2.2.3. No obligations of either party that arose before the Force Majeure causing the excuse of performance are excused as a result of the Force Majeure;
- 2.2.4. The non-performing party uses its best efforts to remedy its inability to perform. Economic hardship of the Provider will not constitute Force Majeure. The term of the Provider shall be extended by a period equal to that during which either party's performance is suspended under this Section.

The provisions of this section shall not preclude the City from canceling or terminating any resulting award (or any order for any goods or services included herein), or from revising the scope of the Work, as otherwise permitted under this RFP.

4.3. SUPPLIER'S INVOICE

2.3.1. The Supplier shall prepare and submit invoices to the attention of the project manager at: City of Griffin, Attn: Brandon Lewis, PO Box T, Griffin, GA 30224. A proper invoice must include the items below;

4.5. PAYMENT

Payment will be made for deliverables satisfactorily executed and accepted by the City; standard terms are net 30.

4.6. ESTIMATED QUANTITIES

Any quantities of items specified in the Schedule are estimates only and are not purchased by this contract. If the City's requirements do not result in orders in the quantities described as "estimated", that fact shall not constitute the basis for an equitable price adjustment. Delivery shall be made only as authorized by orders issued in accordance with the Ordering clause. Subject to any limitations in the Order clause or elsewhere in this contract, the Supplier

shall furnish to the City all items specified in the Schedule & Summary and called for by orders issued in accordance with the Ordering clause.

4.7. ASSIGNMENT OR NOVATION OF CONTRACT

The Supplier shall not assign or transfer, whether by Assignment or Novation, any of its rights, duties, benefits, obligations, liabilities, or responsibilities under the Contract without the written consent of the City; provided, however, that assignments to banks, trust companies or other financial institutions for the purpose of securing a bond may be made without the consent of the City.

4.8. TERMINATION FOR CAUSE

The City reserves the right to terminate the resulting contract, in whole or in part, for failure to comply with any provisions of the contract as outlined by providing a written notice to the Supplier at least thirty (30) days before the effective date of termination. The Supplier will not be relieved of any outstanding responsibilities or unfinished obligations under this contract. Receipt of items by the delivery date is critical to the terms of this contract. The City considers late delivery of contract items as reasonable cause to terminate the contract.

Prior to termination, a Cure Notice will be issued by the City. The Notice will identify the problems and deadlines that need to be met to remedy the problems to avoid termination for default. If the Supplier does not respond with an acceptable action plan to remedy the default or commence to remedy the default within a period of five (5) business days (or such longer period as the City may authorize in writing) after the issuance of notice, the City may issue termination for cause.

The Supplier also has a right to terminate this contract for cause by providing a written notice of intent to terminate at least thirty (30) days prior to the effective date of the contract termination.

4.9. TERMINATION FOR CONVENIENCE

The City reserves the right to terminate the resulting contract, in whole or in part, in the event the City determines that such termination is in the best interest of the City, such as an unforeseen project cancellation. Any such termination shall be affected by the delivery of a notice specifying the extent to which performance of work under the contract is termination and the date upon which the termination becomes effective. The City will be responsible for payment of deliverables satisfactorily executed according to industry standards or proven loss with respect to materials, etc.

4.10. TERMINATION FOR FUND APPROPRIATION

The City may unilaterally terminate this Agreement due to a lack of funding at any time by written notice to the Supplier. In the event of the City's termination of the resulting contract for fund appropriation, the Supplier will be paid for those services actually performed. Partially completed performance of the Agreement will be compensated based upon a signed statement of completion to be submitted by the Supplier which shall itemize each element of performance

4.11. CHANGES

All work and materials furnished for this project shall be made in conformance with the contract documents. Changes in the scope of work or the terms and conditions of this contract may be made only by written agreement of the parties. Changes that involve an alteration to the payment amounts shall not commence until approved by the City and a Change Order has been issued.

4.12. REPORTING DISPUTES

The Supplier shall report any contract disputes and/or problems to the Procurement Analyst, both verbally and in writing within 48 hours of their occurrence.
