RFQ Opening Date: **July 21, 2023**

This addendum is being released to answer questions received.

The information and documents contained in this addendum are hereby incorporated in the request for qualifications.

Questions and Answers

- Has the County given any consideration to providing a master wastewater collection and
1. transmission system (gravity sewer with lift stations, alternative transmission system, etc.) prior to or in conjunction with the paving effort?
Staff has considered this, but determined it to be economically unfeasible at this time, for both County and residents.
