

FOOTBALL STADIUM SOUND SYSTEM SPECIFICATIONS

Jones County School System seeks to enter a contract for a company to provide a sound system for the football stadium. The focus of this eRFP will be on the project at Jones County High School since there is a need. Proposed pricing for this project shall be in effect for the term of the contract.

PRODUCT SPECIFICATIONS:

- Sound System will cover the entire football stadium.
- A speaker that is pointed towards the practice field.
- The head end will be in the football press box in a cabinet provided by the contractor.
- The sound system must have push to talk wired microphone.
- Multiple wireless handheld microphones that can be use on the field.
- One referee microphone
- The soundboard must be digital.
- All speakers must be in south end zone either on the scoreboard or by the scoreboard.

No substitutions will be accepted for continuity of product reasons.

CONTRACTOR WILL:

- Run cable to speaker location via existing conduit.
- Mount cabinet in the press box at designated location at designated height.
- Remove all trash and debris from the property. Vendor cannot use the compactor or any roll offs on the system property.

CURRENT PROJECT INFORMATION:

Sound System will be placed at the Jones County High School Football Stadium. The project manager and installers must either be employed by the contractor, or they must provide the name of the subcontractor that will perform the install along with references. If subcontractors will be used, that subcontractor must provide all installs. No changes will be permitted once the contract is awarded.
