SECTION 19 – SPECIFICATIONS

- I. NAME OF PROJECT:** Family Aquatic Center Feasibility Study
- A. Operating Agency: Putnam County Board of Commissioners
- B. Owner: Putnam County Georgia
- C. Contact person for proposal: Paul Van Haute, County Manager

II. DESCRIPTION OF PROJECT

- A. Putnam County desires to develop an outdoor recreational aquatic center that can be expanded in the future to maximize the aquatic recreation opportunities for the community. The facility would be owned and operated by the County. The first step is to develop a master plan for the project along with a needs assessment, so that the County can develop administrative and financial options for proceeding with the project. The County will create an ex-officio "pool committee" to begin the process, and the consultant procured herein shall formalize the work with this committee.
- B. There is likely to be a lag time between this planning effort and the commencement of design of the project. The County desires that selected firm be capable of providing the required design and project management for the continuation of the project; but that contract will be negotiated later,

and the proposals for this RFP need not include a comprehensive presentation of all the disciplines and procedures required for the later phases (However, the firm's general qualifications for providing the later phases is desired).

III. SCOPE OF WORK

A. The purpose of this RFQ is to solicit a statement of qualifications from aquatic recreation planning and design firms for a master plan & needs assessment. The report will include (subject to variations that may be proposed) the following elements as output from the analysis performed:

1. Analysis of the relevant service area demographics.
2. Site Comparisons and Recommendation, including that of the existing County property.
3. Data summary for comparable facilities and communities.
4. Needs Assessment and menu of recommended aquatic recreation components.
5. A simple, hypothetical line-drawing of a future modest indoor lap pool facility.
6. A final plan-view color rendering of the proposed outdoor aquatic recreation facility, both in electronic format and mounted display board (min. 24"x36").
7. A detailed development budget analysis.
8. Projections of attendance, operating revenues, and expenses.
9. Project Development Schedule.

B. The realism and responsiveness to the needs of the community are of greater priority than an emphasis on visual fluff in the presentation (The same applies to the response to this RFQ). However, the study documents will be utilized to finalize financing for the project development.

C. The evaluation of sites will include up to 3 sites selected by the County. The consultant will conduct "windshield surveys" of these sites, meet with County staff and local utilities, and use readily available mapping and data to analyze each site's viability based on appropriate planning and feasibility parameters. Detailed site planning analyses (as would be required for zoning approvals, for instance), are not expected. The actual park master plan drawing will assume one site, as selected by the County. The County will provide base maps as available.

IV. SUBMITTAL REQUIREMENTS

A. Letter of Intent - Submit a brief letter of interest, including a description of the services you will provide and your particular interest to work on this specific project with the County.

B. Team - Identify the project manager. Provide an organizational chart and describe relevant firm and team members. List the key personnel who will be responsible for this project. Attach resumes of key personnel as an appendix.

C. Experience - Submit information and descriptions of similar projects. Include the name of the client and project, location, services provided, date completed, contact, and telephone number. A few pictures may be included.

D. References - In addition to appropriate client references, provide at least three each vendor references and Contractor references who can confirm the A/E's ongoing leadership in aquatic design. These vendors and contractors should be representative of regional, if not national, expertise in the aquatic recreation industry. The County understands that there are possible conflicts of opinion (and even adversarial attitudes) between this type of reference and a qualified A/E; but they should be able to provide confirmation of the minimum experience criteria stated in C above.

E. Statement - A signed statement that none of the professional services will be performed by a representative of major equipment manufacturers or construction contractors that may be utilized on the project; and that no firm on the proposed team nor their staffs have any financial interest in such equipment or construction.

V. FEE PROPOSAL

Submit a Lump Sum amount for completing the study. A detailed breakdown is encouraged and required to allow comparing submissions, followed by negotiations with a selected firm as necessary. Equal weight shall be given to the firm's qualifications and the proposed fee.
