The renewal will apply to bread and grain products, food products, non-food products, produce, and small ware products bids.
4. Bid Addendum may be issued at any time during the bid period to allow for new products to be added to the bid. These product prices should reflect no greater percentage of mark-up costs than applied to the original bid.
5. Robertson County agrees to use the designated contract distributor for fresh produce items and services as listed herein as well as for comparable substitutes. The district may have the opportunity to take advantage of special purchases/deliveries from other sources such as the Department of Defense (DOD) produce program or locally grown produce. Section 9 (j) of the Richard B. Russell National School Lunch Act (42 U.S.C. 1758 (j)) is amended to encourage schools to purchase locally produced foods, to the maximum extent practicable and appropriate. The law allows schools to use geographical preference for the procurement of locally produced foods. This agreement does not prohibit the district from making such purchases. These purchases may be made by school or district wide. Bidders are strongly encouraged to enter into purchase agreements with local producers and supply those local products on the school nutrition bid.

Produce items are listed under Section "B" and are to be bid on a **cost plus fixed fee bid**.

6. The objective of this invitation to bid is to select one primary supplier for all of the items requested in this bid. This bid is being requested this way to determine the one best supplier to meet the system's needs on the items requested in this bid document. These categories will be bid for the entire 2015-2016 School Year:

Any additional materials offered by the vendor to be included in the bid submission must be approved by the School Nutrition Program Supervisor prior to the bid opening. It is recommended that no additional written documents be included in the bid packet. Please submit only those items that are requested.

The original document cannot be changed **IN FORMAT OR IN ITEMS REQUESTED**. If the bidder changes pack, size, and/or brand, it must be clearly changed and noted when bidding before it is considered. You may note the changed pack, size and/or brand on the original request. **DO NOT CHANGE THE ESTIMATED USAGE**.

If an error is made in quoting the price, or items are not available after the bids are opened, Robertson County reserves the right to award the contract to the next qualified vendor. If during the bid period, a vendor cannot supply an item, Robertson County School Nutrition Supervisor MUST be notified before a substitution is made. Substitutions will not be accepted unless authorized by the School Nutrition Supervisor or Central Office staff in the SNP Supervisor's absence. Any item delivered that was not authorized by the School Nutrition Supervisor will be picked up at the vendor's expense and proper credit issued to the school where deliveries were made.

Estimated usages are given for each item for the contract period and for the purpose of bid evaluation. The estimated usages do not indicate the actual quantity which will be purchased, since such volume will depend upon requirements which develop during the contract period. Estimated usages are based on last year's purchases and are estimated for the bid period. When the estimated usage for a new/never used item, the amount is a projected amount based on anticipated acceptance by students. Systems shall not be bound to purchase based on estimated usage.

For the expanded bid tabulations, when different items, brands, or cases are bid, the tabulation will be based on equivalent serving sizes (for example 2 oz. M/MA, 1oz, M/MA, ½ cup Fruit/Vegetable) NOT "per case" pricing tabulation. Proof is the burden of the vendor upon submission of the bid packet. Examples of proof of component equivalent are found in Child Nutrition Labels or Manufacturer's Sheets. THIS CONDITION APPLIES TO THE FOOD BID.

If size/count pack, or brand or any other specifications are not what we have requested, prices must be broken down to serving units and must be clearly stated on the bid form before the bid will be considered.

The person signing the bid must state his/her title and, if requested, show proof of his authority to bind his company by bid. Bids and authorizations must be written in ink or typed.

Robertson County reserves the right to accept or reject any and/or all bids in whole, or in part, if it is deemed to be in the best interest of the County.

All bids shall apply to the entire county. A list of schools is enclosed.

When requested, the bidder must furnish sample or label as outlined. Each sample must be clearly labeled with bidder's name and the item number and category.

The Board of Education reserves the right to request a Grading Certificate on any item when there is a question of grade or compliance with specifications.

All prices quoted shall be FOB delivered to the ordering school's storeroom(s); the successful bidder must assume all responsibility for damage in transit.

2. Whole Grains – Manufacturers must provide the ingredient listing. Remember only those items with whole grain listed as the primary ingredient by weight or the primary grain ingredient by weight will meet the requirement.
3. Whole Grains – Products must contain 50% or more whole grain to be counted as a whole grain product.

If the product contains the FDA approved whole grain health claim on its packaging it would be advantageous to the program.

4. Sodium Levels – Sodium levels are ranges for the total meal. We are working to lower the amount of sodium in product processing.
5. Sugar – Canned fruit must be packed in its own juice, water, or light syrup. NO fruit packed in heavy syrup will be accepted. Frozen fruits must be frozen without the added sugar.
6. Trans-fat – The Nutrition food label or manufacturer specifications for food products or ingredients used to prepare meals must indicate zero grams of trans-fat per serving (or less than .5 grams/serving). Products can have naturally occurring trans- fats such as beef, pork, or lamb, etc.
7. Buy American Requirement – The “Buy American Requirement” requires that schools and institutions participating in the National School Lunch Program (NSLP) and School Breakfast Program (SBP) in the contiguous United States purchase, to the maximum extent practicable, domestically grown and processed foods. Please note this rule applies to “Private Labels” as well as other labels. The legislation defines “domestic commodity or product” as one that is processed in the United States substantially using agricultural commodities that are produced in the United States. The report accompanying the legislation stipulated that “substantially” means that over 51% of the final processed products consists of agricultural commodities that were grown domestically. This system requests that vendors complete the attached “Buy American” form.

If the supplier offers a Non-American product due to the fact that he/she feels the cost of the domestic product is significantly higher, then the supplier must list the price for the domestic product as well as the price for the Non-American product on the Certification Regarding “Buy American” requirement. It will be up to the School Nutrition Program to decide to purchase the American or Non-American product.

APPROXIMATE USAGE WILL BE FOR 10,000 TOTAL MEALS PER DAY PLUS ALA-CARTE SALES FOR ROBERTSON COUNTY IN THE NATIONAL SCHOOL LUNCH PROGRAM AND THE SCHOOL BREAKFAST PROGRAM. THE USAGE WILL VARY DEPENDING ON PRICING AND VOLUME AT THE TIME THE BID IS SUBMITTED.

IV. BID FORM

The bid is set up in three major sections.

Section “A” is being established for specific items for a firm bid amount for the period covered. Section “B” is being established for specific items for a cost plus fixed fee bid amount for the period covered. Each supplier should bid on all items in Section “B” on the bid document. Your bid should reflect the price for fresh and pre-cut produce that you would be selling to Robertson County School Nutrition Program for the week of May 4 through May 8, 2015. The bid prices contained in your initial bid submission are considered “firm” for one (1) week. The selling prices quoted should be bottom line vendor cost plus fixed fee. **The fixed fee shall remain the same throughout the bid period.**

Section “C” is being established on a “Per Case” fixed fee. The fixed fees in the section “C” are preset by Robertson County Schools and are attached to this bid document. The product cost plus the fixed fee is based on the current landed cost at the distributor’s warehouse and is determined by:

(A)The purchase price f.o.b. from a packing plant.

(B) Freight charges of an item at the time the item is ordered by Robertson County Schools.

If an item is not listed individually in the firm bid section “A” of this bid document or in the cost plus fixed fee bid section “B” then it automatically falls into the “fixed fee” section “C” of the bid. Bidders are required to submit with the bid a complete list of items carried by the bidder (product catalog) reflecting the items that are currently available in their warehouse. All items in the product catalog that are not listed in section “A” or in section “B” will be considered section “C” items unless otherwise indicated in the bid or indicated in another sealed bid.

- (A) All bids must be complete, showing the brand or trade name of each item and the price of the unit to be shipped. If the unit to be shipped is different from the one listed, the bidder must state the shipping unit on which a price is quoted.
- (B) If an error in quoting the price or there are items that are not available after the bids are opened, Robertson County Schools reserves the right to award the contract to the next qualified vendor.

V. ORDERS AND ON-SITE ORDER PROCESSING

The Cafeteria Manager of each school, on a weekly basis will place all orders electronically directly to the distributor. All contacts for substitutions must be made to the School Nutrition Supervisor for prior approval before delivery.

VI. SPECIAL CONDITIONS

The following special conditions apply to this bid and should be factored into the total cost of products offered in this bid. No additional fees will apply for these conditions and are to be considered a part of the overall bid.

- (A) The sales representative shall contact the School Nutrition Supervisor on a weekly basis at a mutually agreeable time to review information and products.
- (B) Monthly “Velocity or Product Usage” reports by individual school will be required to be submitted to the School Nutrition Supervisor the following month.
- (C) Nutrient Data information will be required on all prepared food items as required by H.R. 2066, to be delivered to the Supervisor of School Nutrition.
- (D) Invoices are to be broken down (sub-totaled) into the following categories.
Robertson County Schools will provide to the successful vendor the appropriate product break down for each category:
 - Food Invoices
 - Non-food Invoices
 - Small wares Invoices
 - Produce

VII. SELECTION OF VENDOR

Robertson County will award to the most responsive and responsible vendor based on the **LOWEST prices**, and Robertson County will provide minority firms, small businesses, women’s business enterprises, the disadvantaged businesses, and labor surplus area businesses the opportunity to do business with the School Nutrition Program. **After meeting all general and specific bid conditions as a qualified vendor, PRICE is the sole determination for the award of the bid.**

A vendor will be selected on the basis and comparison of the following components not necessarily in the order as listed below:

Quality of Product

Price

Service-Vendor's dependability and ability to deliver items ordered

Vendor's ability to meet specifications and bid conditions

Past performance of vendor

Students' acceptance of products

Serviceability of items carried by the vendor

A vendor may be rejected for one or more of the following reasons:

Inadequate or unacceptable product lines

Inadequate facilities with respect to excess capacities, capable of accommodating surges in volume

Inadequate truck fleets to handle predicted volume of frozen, chilled, and dry goods

Inadequate sanitation

Inadequate technical assistance and product information

The bid will be awarded as "all or nothing" based on firm-fixed, bottom line tabulation combined total cost for the contract period. The bid/quote price will be multiplied by the estimated usage to obtain an item total. All category totals will be awarded based on the sum of all extensions to obtain a fixed, bottom line pricing for awarding the bid. **For the expanded bid tabulations, when different items, brands, or cases are bid, the bid tabulation will be based on equivalent serving sizes (for example: 2 oz. M/MA, 1 oz. M/MA, ½ cup Fruit/Vegetable), and not per case pricing tabulation. The estimated usage will be expanded to represent the serving usage.**

If a prospective vendor does not agree with the bid award, they have the right to protest. Disputes arising from the award of this bid must be submitted in writing to Jody Stewart, Robertson County Finance Director, hearing official, no later than ten (10) days from the published award. The hearing official will disclose the dispute to the Tennessee State Department of Education, School Nutrition Office. The steps for dispute resolution are as follows:

- 1) A meeting with the School Nutrition Program Supervisor, the hearing official and representatives from the disputing party to discuss and resolve the complaint.
- 2) A written decision letter stating the reasons for the decision will be prepared by the hearing official and submitted in writing to the protestor and all parties involved. This decision letter will be mailed to the protestor and will advise the protestor that he/she has a right to an additional review.
- 3) All employees will be notified that they cannot purchase under this procurement until a final decision is rendered.
- 4) In the event that purchases must be made for school meals before a final decision is rendered, the emergency purchase procedures established by the district will be used.

Price readjustments of bid quotations are not permitted during the initial contract period.

To be considered vendors are required to bid 97% of all items.

In the event an item is not bid, the highest quoted price (from another vendor) will be used for that item in calculating extensions to obtain bottom line pricing totals.

All bidders will receive a written notice of bid issuance.

Vendors with a poor performance history will be notified at the time of such performance and will be given an opportunity to correct any problems. Documentation will be kept on file. Any vendor with continued poor performance during the contract period will be removed from the potential vendor list for one contract period.

Additional Items added to Bid

(A) Sampling Items

The Robertson County School System reserves the right to purchase new items not on the current bid. The purchase will be a one-time only purchase and for the purpose of *evaluating items/sampling items* for future menus (student sampling), and all procurement regulations will be followed. If the item is acceptable with students, *the appropriate methods for procurement* will be followed for the purchase of these items. This purchase will be declared as a “purchase for sampling”.

(B) Adding Items During the Year

The Robertson County School System may purchase *new* items during the year. Robertson County will adhere to the local, state and federal procurement regulations. The threshold amount will determine the appropriate procurement process that Robertson County will utilize.

(C) Adding Items at the Time of Contract Renewal

Since new products are developed and reformulated during the year, new items may be added to the bid at the time of the Contract Renewal. The addition of new items at the time of contract renewal must not change the scope of the original bid. Bid quotes will be obtained for all items and evaluated by the entire group. The items will be added at a cost plus fixed fee value.

SECTION “C” PRICING STRUCTURE PER CASE FIXED FEE

Robertson County Schools authorizes the following fixed fee amount be charged on all Section “C” items which are to be bid with the fixed fee per case (or broken case for limited quantities), being added to the cost as described in section IV. “BID FORM”.

1. The fixed fee for any Section “C” item not in the section “A” or section “B” of this bid shall be:

-less than \$1.50 per case or at a maximum

-no higher than \$1.50 per case

VIII. VENDOR PERFORMANCE

The vendor will be expected to maintain a 98% “fill rate” average on all combined orders for any given monthly period. (Substitutions on items will not help to satisfy the above requirement). With prior approval, 24 hours ahead of time, an item that is temporarily out of stock may be substituted with an item of equal or superior product quality at an equal or lower price. Substitutions must be prior approved by the School Nutrition Supervisor.

Failure to deliver within the time specified or within a reasonable amount of time, or failure to make replacements of a rejected product immediately will constitute authority to purchase on the open market so as to replace the item(s) rejected and/or not received. On all such purchases, the Contractor agrees to promptly reimburse schools for excess costs caused by such a purchase. The School System retains the right to check compliancy on any item. XII. PRICE ADJUSTMENTS FOR RENEWAL CONTRACTS

The Robertson County School System bid award shall be July 1, 2015 through June 30, 2016. Errors discovered after public opening cannot be corrected, and bidder will be bound to honor the bid for the initial contract period if offered.

The vendor must submit to the School Nutrition Supervisor on or before March 15, the list of items that should be considered for price adjustments to take effect on July 1.

If Robertson County School System determines that it is in the best interest of the School District to renew the contract in subsequent years and not put the contract out for new bids, then the price adjustments will be evaluated as follows:

Robertson County School System requires appropriate documentation to support the requested price adjustment be available for audit by school officials or their designee.

Renewal Provision: The contract may be renewed for up to four additional years (five years total) with price redeterminations. The vendor must petition items for price redetermination (price increases) by March 15 of each year for consideration in the next contract period:

- March 15, 2016 – for contract period of July 1, 2016 – June 30, 2017
- March 15, 2017 – for contract period of July 1, 2017 – June 30, 2018
- March 15, 2018 – for contract period of July 1, 2018 – June 30, 2019
- March 25, 2019 – for contract period of July 2, 2019 – June 30, 2020

Price-redeterminations are only allowed annually at the time of contract renewal. The Bureau of Labor, Producer Price Index for Commodity Data, Finished Consumer Foods will be the comparison index that will be used for price-redeterminations. Since the indexes are subject to revision after originally published, the original base comparison month will be the prior December. For example, March 15, 2016 petitioned requests will be measured on the December 2015 index. All re-calculation dates will begin at that point. One hundred fifty (150) items with the highest estimated usages (from the original bid purchases) from the petitioned list will be audited using the following formula: The base Index at the time of renewal (December) divided by the Index at the time of award (July). For the potential contract renewal for July 1, 2016: December 2015 Index divided by July 2014 Index. For the potential contract renewal for July 1, 2017: December 2016 Index divided by July 2015 Index.

The audited petitioned items must be equal to or less than the determined percentage using the above formula. If an item is not within the acceptable price range, the vendor must revisit the pricing. If the pricing requirement cannot be met, the item(s) will not be approved for purchasing. In addition to the above process, the vendor may be requested to submit invoices for additional audit purposes.

Buy American

7 CFR PART 250.23 stipulates that when purchasing food products using Federal funds, recipient agencies shall, whenever possible, purchase only food products that are produced in the United States. The term “Food products produced in the United States” is defined as “An unmanufactured food product produced in the United States or a food product that is manufactured in the United States.

Section 104(d) of the Child Nutrition Reauthorization Act (Public Law 105-336) amended section 12 of the National School Lunch Act to require SFAs to purchase for those programs, to the maximum extent practicable, domestic commodities or products. For purposes of this provision, the term “domestic food commodity or product” means agricultural commodities produced in the U.S. and food products process in the U.S. and food products process in the U.S. substantially using agricultural commodities that are produced in the U.S. The term “substantially” means that over 51% of the processed food comes from American produced products.

Each SFA must comply with the “Buy American” requirement by purchasing food products produced in the U.S. for its food programs. Subjects to the exemptions cited above, such purchases must at least be proportionate with the extent of Federal funding in the organization’s school nutrition account. SFAs/Schools should:

- (1) Check their purchasing specifications to ensure adequate procurement of “Buy American” requirement;
- (2) remind their vendors and distributors of the “Buy American” requirement, and
- (3) examine product packaging.

210.21-14 and 220.17-01

This memoranda rescinds 210.21-08

It is essential that local operators understand the need to ensure that all purchases of agricultural commodities and food products comply with this statutory provision. The provision should be **included in bid specifications to ensure compliance. Local operators must also be aware that, as a result of explicit language also contained in the report noted above, this provision now applies to ALL funds in the school nutrition account and not just Federal reimbursement.**

In order to fully implement “Buy American”, a school district must:

- (1) Include “Buy American” language in their bid documents.
- (2) Ensure that all vendors notify the system of any products placed on that bid that do not meet the criteria. (see waiver form)
- (3) THE SYSTEM decides whether or not to purchase the products utilizing the above criteria.
- (4) If the system chooses to purchase non-American products they should notify all personnel which non-American items can be accepted for delivery.

CERTIFICATION REGARDING “BUY AMERICAN” REQUIREMENTS

Section 104 (d) of the William F. Goodling Child Nutrition Reauthorization Act of 1998 requires SFAs to purchase domestically grown and processed foods, to the maximum extent practicable. There is a two-part test to define the country of origin for a manufactured end product: (1)the article must be manufactured in the United States; and (2)the cost of domestic components must exceed 50 percent of the cost of all the components.

We require that suppliers certify the percentage of U.S. content in products supplied to us according to the two-part test above. If you are unable or unwilling to make such certification, we will not purchase from you.

Two situations may warrant a waiver to permit purchases of foreign food products.

1. The product is not produced or manufactured in the U.S. in sufficient and reasonable available quantities of a satisfactory quality.
2. Competitive bids reveal the cost of a U.S. product is significantly higher than the foreign product. **If the supplier offers a Non-American product due to the fact that he/she feels the cost of the domestic product is significantly higher, then the supplier MUST list a price for the domestic product as well as a price for the Non-American product in the table below.**

VENDOR BIDDING INSTRUCTIONS

VERSION 1.0

GENERAL BIDDING INSTRUCTIONS

1. Please confirm that you have downloaded all bid documents from the opportunity that you have received. All documents required by the operator must be returned with your completed bid response.

2. Please use the "Specifications" tab on this excel document to enter your bids for this opportunity. You will then upload this information into the Interflex BidAdvantage system to submit your bid response. PLEASE NOTE: Making modifications to the "Specifications" tab may cause your upload process to error - this includes adding or deleting columns, fields, modifying headers, etc. Do NOT, under any circumstances, remove or edit the System ID in column A. You may alter the width and height of rows to make the file easier to look at or print.

3. Bids are to be entered in the green tinted columns of the excel document (to the right of the specifications).

4. If you would like to provide multiple bids for one specification, please copy and paste the entire row. To do this, right click on the row number so that the entire row is highlighted and choose copy. Then highlight the next corresponding row number, right click and choose Insert Copied Cell. You must create a new row for each bid you make on a single specification (i.e. 3 bids, 3 rows).

5. Prices may be expressed to a maximum of five (5) decimal places only (e.g. \$0.00000). The system will automatically round all prices down to the nearest fifth decimal place when uploaded if you have entered more than five (5) decimal places.

6. The "key" tab will designate which fields are mandatory. All mandatory fields should be filled out on items that are being bid. If you do not wish to bid on a line item, please leave that row completely blank. Entering the word "none" or the value "0" will result in errors on the upload of your bids. If any mandatory fields are left blank on the items you are quoting on, you will be required to fill that information in during the upload process. Please note: operators may add up to 10 custom fields to the bid and may designate which of these fields are required or not. These custom fields will not show up on the "key" tab. Please refer to the operator's bid documents and instructions for guidance.

7. Please read the operator's bid instructions carefully. In addition to uploading the "Specifications" tab of this file into Interflex, the operator may also require you to upload any supporting bid documentation into Interflex, return a printed copy of the "Specifications" tab, and a printed hard copy of supporting bid documentation. Please return all bid information as instructed by the operator.
