

**Project Name:** Township of Scotia, SC Generators/Back-Up Water Tank Project

**Bid Submittal Due Date/Time:** December 7<sup>th</sup>, 2020 @ 2:00pm

**Agency/Owner:** Township of Scotia, SC

**Project Number:** 4-CI-19-013

**Construction Cost/Range:** \$150,000 – \$220,000

**Number of Bid Copies:** 3

**Project Location:** Township of Scotia, SC

**Description of Project/Services:**

This project will be 2 parts: Site A will have the existing service feed & meter removed and/or abandoned from an existing structure and a new service will be placed on a stainless-steel rack. A 1000-gallon water reserve tank will be replaced and a 20KW diesel generator and ATS to backup utility power will be installed.

Site B will have its existing service removed and a new service will be placed on a stainless-steel rack. This site will receive a 40KW diesel generator and ATS to backup utility power. Sites A & B serve the townships well-water supply.
