Umbrella Liability: Each Occurrence – TBD; Aggregate – TBD

This coverage should be required for high hazard operations including excavation, roofing, water tower installation, painting, repair and removal, large construction projects.

Should also consider for certain high hazard special event activities such as fireworks displays, inflatables, mechanical rides, etc.

Professional Liability: Per Occurrence - \$1,000,000; Aggregate - \$1,000,000

This coverage should be required for professional services such as accountant, attorneys, architects, design, engineering and most consultants.

The Contractor/Vendor shall provide the City with insurance certificates certifying that the foregoing insurance is in force; and such insurance certificates shall include provisions that the insurance shall not be cancelled, allowed to expire or be materially changed without giving the City thirty (30) days advance notice by registered mail.

The City of Spartanburg, its employees, and agents shall be named as additional insured under the Contractor/Vendor's general liability policies.

The Contractor is advised that if any part of the work under the contract is sublet, he shall require the subcontractor(s) to carry insurance as required above. However, this will in no way relieve the Contractor/Vendor from providing full insurance coverage on all phases of the project/event, including any that is sublet.

When certain work is to be performed inside right-of-way owned by railroads, South Carolina Department of Transportation or other Agencies, both the Contractor and any subcontractor may be required to furnish individual insurance certificates made in favor by the controlling agency, with limits as established by that agency.

Cancellation and Re-issuance of Insurance: If any insurance required to be provided by the Contractor should be canceled or changed by the insurance company or should any such insurance expire during the period of this contract, the Contractor shall be responsible for securing other acceptable insurance to provide continuous coverage during the life of this contract.

Failure of the Contractor/Vendor to maintain continuous coverage as specified herein will result in this project/event being shut down and any payments due, or to become due, withheld until such time as adequate, acceptable insurance is restored. This would be in addition to any legal recourse open to the City under breach of contract.

All coverage's and provisions shall be in place, and documentation of such coverage shall be provided to the City of Spartanburg, before any work can began.
