

**Addendum #1 Question Response Bid# 20-030 Track
Resurfacing**

1. Please let me know if I can schedule my site visit to look at all seven tracks.

Site visits:

May 25 and 27

8:30 AM Lake Marion HS

10:30 AM Bethune Bowman HS

1:30 PM Orangeburg Wilkinson HS

3:30 PM North HS

May 26 and 28

8:30 AM Hunter Kinard Tyler HS

10:30 AM Edisto HS

1:30 PM Branchville HS

2. Will that day be pushed out since we would need to look at all the tracks in question prior to submitting any questions?

Will accept questions after district schedule site visit by Tuesday June 1 by 10am.

3. Are these tracks going to be repaved prior to the rubber surfacing? There are asphalt and drainage issues that should be taken care of before this surface work is done.

The contractor will have to determine if existing conditions are suitable for track surface stated in the scope of work. Recommendations should be submitted as an addendum.

4. I just want to confirm that the scope of work is just to remove the old track surface and replace with the Plexitrac system? Is there any asphalt work?

Please see the scope of work. If a drainage issue is associated with the installation of track surface a addendum showing that cost should be submitted.

5. Will the track resurfacing include new lighting?

No

6. Good morning. I'm just following up on our request for an alternate polyurethane surface be added to the bid, can you confirm?

Please see the scope of work.
