Trucking Services

The City of Goodlettsville has a need for the transport of ground wood products to various locations for recycling disposal. Currently the City disposes of the mulch to a location that is approximately a 35 mile haul. The City is somewhat flexible in that hauling may be able to be done when other jobs are rained out however, the facility we are currently hauling to can't handle more than three trucks hauling at a time. The City currently grinds wood approximately every six weeks and the mulch produced amounts to approximately 45 truckloads (20 cu. Yd.). Due to limited space, once grinding is complete, the mulch needs to be hauled as soon as possible with at least one truck. For questions about flexibility of hauling or other technical questions contact Jeff McCormick at (615) 851-2204. The city requires any truck hauling to have a capacity, at minimum, of 20 cubic yards.

It is the City's plan to create a one year contract with three, one year renewal options.

The City will be accepting sealed bids at the office of Charlie Ballard, City of Goodlettsville, 105 South Main Street, Goodlettsville, TN 37072, until 2:00 p.m. CST on August 30, 2018. At that time all bids will be publicly opened.

Bid form with information requirements can be found on the City's website, www.goodlettsville.gov, under open solicitations.

The City reserves the right to reject any and all bids, to waive informalities and to accept the bid or bids judged to be in the best interest of the City.

The City of Goodlettsville does not discriminate on the basis of age, race, sex, color, national origin, religion or disability in admission to, access to, or operation of its programs, services or activities, nor does it discriminate in its hiring, employment or purchasing practices. Contact the City Manager at (615) 851-2200 with questions, concerns, complaints and with requests for ADA accommodations.
