DATE: April 2 2020
TO: Prospective Respondents
FROM: Pam Paulk, Sr. Procurement Specialist
SUBJECT: Addendum #2 to Invitation for Bids 35553 Slope Mowing at Lake Apopka North Shore

As a result inquiries, the following clarifications/changes are being provided for your information.

QUESTIONS AND ANSWERS

- Q.1. Can the contractor use a mini excavator with rubber tracks?
A.1. Yes, providing it has an equivalent reach and cutting head as a typical boom mower.
- Q.2. Do you have to use a sideboom mower or can you use a skid steer with a mower on the front of it?
A.2. No, a skidsteer cannot be used, the equipment has to be a side boom mower. Skid steer does not have the reach necessary for the job and also the slopes are too soft/too wet in many cases to put a piece of equipment on top of it. This is why the contractor is required to drive on the road and reach down to the slope to mow, which is also a lot safer.

NOTE: The Bid Opening remains the same April 15, 2020, at 2:00 PM, EST.
Please acknowledge receipt of this Addendum on the BID FORM provided in the bid package.
