1.0 INTRODUCTION

1.1 Intent: The purpose of this Request for Proposals (RFP) is to solicit proposals from qualified vendors to accept solid waste and/or single stream recyclables from the City of Fort Walton Beach, Florida and to provide and operate a solid waste disposal and/or processing resource recovery system that encourages protection of the environment and conservation of resources, and that eliminates or reduces the necessity for long-term sanitary landfills as a primary disposal method for solid waste.

1.2 Background:

1.2.1 Current Residential Service: The City's Solid Waste Division is responsible for the collection and management of residential solid waste and recyclables. Residential solid waste is collected once per week; and yard waste materials are collected once per week. Residential is collected with a fleet of three fully automated side loaders. Yard debris and other materials are collected by four (4) knuckle boom trucks once per week. Bulk household items are collected once per week with a fleet of four (4) knuckle boom loaders.

1.2.2 Current Commercial Service: In addition to residential collection, the Division provides commercial solid waste collection. Commercial solid waste is collected in dumpsters ranging from two (2) cubic yards to eight (8) cubic yards in size. Commercial collection frequencies range from one (1) to six (6) days per week. The City utilizes a fleet of four (4) front end loaders to haul commercial solid waste and recyclables.

1.2.3 Recyclables: Residential recyclables are collected as single stream, once per week by three (3) residential side loaders. Commercial recyclables are collected as single stream a minimum of two (2) times up to five (5) times per week with a front end loader. Please note that the frequency and method of collection for pickups may increase as deemed necessary to provide adequate level of service to customers. The City entered into a two (2) year agreement with ECUA to accept the City's Single Stream Recyclables which expires on September 30, 2023.

1.2.4 Current agreement: In 2013, the City entered into a ten-year agreement with Republic Services for residential and commercial waste transfer and disposal services. Republic Services also provides transfer and disposal services for items including yard debris, construction and demolition debris, and single stream recyclables. The current agreement expires on December 31, 2022.

1.3 The information in this Request for Proposals outlines the scope of work, guidelines for proposal preparation, selection procedure, and contract requirements for firms interested in providing services.
