

The City of Manchester, Tn. Police Department is soliciting proposals for an integrated web based Public Safety Records Management System software package. The Manchester Police Department will engage a vendor who can provide a seamless records management system with in-field reporting capability with Windows, OS, iOS compatibility, integrated mobile CAD compatibility (GeoConex), TIBRS/NIBRS compatibility, compliant and reporting. The City of Manchester, Tn. is inviting your company to provide information on services and qualifications for the implementation of a comprehensive and fully integrated Computer Aided Dispatch and Police Records Management System (RMS). These services include, but are not limited to: project management, data conversion, system design, hardware specifications, system integration, system maintenance, testing, implementation and training. This request for proposal initiates a comprehensive records solution for the City of Manchester, Tn. This project includes modules essential to the day-to-day management of law and order and support operations including but not limited to an incident, arrest, citation and evidence module. Upfront pricing shall include RMS subscription, setup, hosting services, data conversion, interface with CAD and onsite training. Annual subscription, hosting and maintenance shall also be included.
