- To perform required repairs to the Water Department's high service pumps.
- To clean existing water wells.
- To perform required repairs to the well while it is out of service being cleaned.

This agreement shall be good for one (1) year from the date of the Auditor's Certification of funds.

2.0 EMERGENCY REPAIRS

The items in these specifications are what the Water Department intends to complete during the duration of the contract. However, emergency repairs and cleanings may need to be completed on an as needed emergency basis. If this need arises, the emergency repairs may need to be completed in lieu of the work identified in the scope of this bid. The contractor agrees to its willingness to enter into applicable change orders as this need may arise. The pricing for these emergency repairs will be in accordance with the parts pricing and labor charges listed in this bid.

The awarded contractor, by signing this contract, agrees to be able to service the City for the above mentioned emergency services within a one week time period from the time of being contacted.

3.0 STANDARD HIGH SERVICE PUMP REPAIR

The high service pump repair shall be performed as follows:

- 1) The high service pump is to be disconnected from the motor. It shall then be removed, disassembled, and cleaned for inspection. The City is to be offered the opportunity to inspect the disassembled pump.
- 2) The contractor shall provide the City with a written recommendation of pump repairs.
- 3) Any pump repairs authorized by the City are to be performed.
- 4) Possible repairs include:

**Turbine Service Pump Repair and Well Maintenance Program

 - C. The bearing retainer assembly shall be sandblasted and the line shaft bearing shall be replaced.
 - D. Overhaul of the pump shall include sandblasting and repainting the bowl castings.
 - i. In the event that the bowl bearings are over 0.010” larger in inside diameter than the impeller shaft is in outside diameter, new bowl bearings and/or a new impeller shaft shall be provided.
 - ii. If the impeller clearance is less than .030”, new bronze wear rings shall be installed to bring the pump back to factory tolerances.
 - iii. If new bowl bearings, new impeller shaft or new bronze wear rings are required, the cost of these parts shall be per the itemized list in Section 5.0 and be in addition to the bid price for the overhaul of the pump.
- 5) Any pump repairs not listed above shall be billed on time and material. The time and material shall be based upon the itemized list in Section 5.0 of this agreement. In the event that a required item is not listed in Section 5.0, a cost shall be negotiated with the City.

- 2) The pump is to be removed, disassembled and cleaned for inspection. The City is to be offered the opportunity to inspect the disassembled pump.
- 3) The contractor shall provide the City with a written recommendation of pump repairs and well cleaning. The report must include an evaluation of the step drawdown pumping test by a Certified Professional Geologist.
- 4) Any pump repairs authorized by the City are to be performed. Refer to Section 3.0 “High Service Pump Repair” regarding pump repairs.
- 5) A well cleaning, once authorized by the City, shall consist of the following steps:
 - A. The well is to be flushed with clean water for at least 24 hours and then video-logged. A recording of the video log is to be provided to the City.
 - B. A cable-tool drilling rig is to be set up over the well and any loose material in the well is to be bailed out.

Turbine Service Pump Repair and Well Maintenance Program
The City of Canton Water Department

- C. The contractor shall shoot the entire length of the screen with explosives. The shooting must be in 5 foot increments with two strands of 25 grain/foot detonating cord per shot. Each shot must be contained within a cage in order to protect the well screen.
 - D. Any debris brought in by the shooting must be bailed out.
 - E. Any settling of the pack gravel must be offset by installation of rounded silica gravel to maintain the pack height above the screen. The gravel size shall be the same as that of the original pack gravel.
 - F. Muriatic acid shall be placed on the screen by using a line in order to distribute the acid throughout the screen. The acid shall be a minimum 20° Baume and shall be allowed to react for at least 24 hours.
 - G. The drilling rig shall be used to swab the entire length of the screen with the acid.
 - H. A temporary pump of similar capacity to the well pump shall be provided and installed by the contractor. This pump will be used to pump and backwash the acid in the well. An air compressor with a minimum rating of 250 cfm shall be used to increase the force of the backwash.
 - I. Once the acid has reacted, it shall be pumped off to a location designated by the City.
 - J. The well shall be disinfected by introduction of a solution of 12.5% Sodium Hypochlorite. The temporary pump shall be used to pump and backwash the bleach in the well. An air compressor with a minimum rating of 250 cfm shall be used to increase the force of the backwash.
 - K. A step drawdown test is to be performed at the same rates corresponding to 60%, 80% and 100% of the nominal capacity of the pump. If the average specific capacity of the well is lower than the original specific capacity of the well when originally drilled and developed, then the City may direct the contractor to repeat steps 5.B through 5.K.
 - i. If the City directs the contractor to repeat steps 5.B through 5.K, these steps shall be repeated and billed based upon the time and material itemized in Section 5.0. The bid price for water well cleaning shall be based on the assumption of one (1) cleaning cycle (steps 5.B through 5.K) per well.
 - L. The temporary test pump is to be removed and any material which has accumulated in the well is to be bailed out.
 - M. A post-cleaning video log is to be performed and a recording of the log provided to the City.
- 6) The well is to be disinfected with sufficient 12.5% Sodium Hypochlorite solution to obtain a concentration of 50 ppm.
- 7) The City's well pump is to be reinstalled. Prior to turning the pump back into the line, a step drawdown test is to be performed at rates corresponding to 60%, 80% and 100% of the nominal capacity of the pump.
- 8) The contractor shall provide the City with a written report on the work performed. This report must include an evaluation of each step drawdown pumping test by a Certified Professional Geologist.

Certified Payroll Heading:

Employer name and address: Company's full name and address... Indicate if the company is a subcontractor.

Subcontractor: Check and list the name of the General Contractor or Prime.

Project: Name and location of the project, including county.

Contracting Public Authority: Name and address of the contracting public authority... (Owner of the project).

Week Ending: Month, day, and year for last day of reporting period.

Payroll #: Indicates first, second, third, etc. payroll filed by the company for the project.

Page indicator: number of pages included in the report.

Project Number: Determined by the public authority... If there is no number leave blank.

Payroll Information by column:

1. **Employee Name, Address and Social Security number:** This information must be provided for all employees that perform physical labor on the project. The Social Security number is required; the last four digits may be permitted by the public authority. Corporate officers, partners, and salaried employees are considered employees and must be paid the prevailing rate. Individual sole proprietors do not have to pay themselves prevailing rate but must report their hours on the project.
2. **Work Class:** List classification of work actually performed by employee. If unsure of work classification, consult the Ohio Department of Commerce-Division of Industrial Compliance & Labor-Bureau of Wage and Hour Administration. Employees working more than one classification should have separate line entries for each classification. Indicate what year/level for Apprentices. Be specific when using laborer and operator classifications; for example, Backhoe Operator or Asphalt Laborer or by "Group".
3. **Hours Worked, Day & Date:** In the first row of column 3, enter days of the company's pay period for example; M T W TH F S S. The second row is for the date that corresponds with each day for the pay period. In the employee information section, enter the number of hours worked on the prevailing wage project and which day the hours were worked. Separate rows are labeled for (ST) straight time hours and (OT) overtime hours. All hours worked after 40, must be paid at the appropriate overtime rate.
4. **Project Total Hours:** Total the hours entered for pay period.
5. **Base Rate:** Enter actual rate per hour paid to the employee. The overtime hourly rate is time and one-half the base rate listed in the prevailing wage schedule plus fringe benefits at straight time rate. The prevailing wage schedule lists the base rate plus fringe benefit amounts. These amounts added together equal the total prevailing wage rate. Employers must pay this total amount in one of three ways.
 - 1) Total rate may be paid in entirety in the base rate to the employee; in which case, the cash designation will be checked for fringe benefits.
 - 2) Total rate may be paid as listed in prevailing wage rate schedule with total fringe amounts paid approved plans.
 - 3) Total rate may be paid with a combination of base rate and fringe payments to approved plans in amounts other than those listed in schedule.
6. **Project Gross:** Enter total gross wages earned on the project for straight time and overtime. Project hours "X" base rate should equal project gross.
7. **Fringes:** If fringe benefits are paid in the hourly base rate, indicate this by marking the Cash space. If fringe benefits are paid to approved plans as listed in the prevailing wage rate schedule, mark the space Approved Plans. If fringe benefits are paid partially in the base rate and partially to approved plans, mark the space Cash & Approved Plans. List the hourly amount paid to approved plans for each fringe. If payments are not made on a per hour basis, calculate the hourly fringe credit by dividing the yearly employer contribution by the lesser of: hours actually worked in the year (these must be documented) or 2080. Fringe benefits include: Employer's share of health insurance, life insurance, retirement plan, bonus/profit sharing, sick pay, holiday pay, personal leave, vacation, and education/training programs. If unsure of a possible fringe benefit, contact the Ohio Department of Commerce-Division of Industrial Compliance & Labor-Bureau of Wage and Hour Administration.
8. **Total Hours All Jobs:** Total all hours worked during the pay period including non-prevailing wage jobs.
9. **Total Gross All Jobs:** Gross amount earned in the pay period for all hours worked.
10. Self explanatory.
11. Self explanatory.

- (a) The number of hours worked in each day and the total number of hours worked each week.
 4. Hourly rate for each employee.
 - (a) The minimum rate paid must be the wage rate for the appropriate classification. The Department's Wage Rate Schedule sets this rate.
 - (b) All overtime worked is to be paid at time and one-half for all hours worked more than forty (40) per week.
 5. Where fringes are paid into a bona fide plan instead of cash, list each benefit and amount per hour paid to program for each employee.
 - (a) When the amount contributed to the fringe benefit plan and the total number of hours worked by the employee on all projects for the year are documented, the hourly amount is calculated by dividing the total contribution of the employer by the total number of hours worked by the employee.
 - (b) When the amount contributed to the fringe benefit is documented but not the total hours worked, the hourly amount is calculated by **dividing the total yearly contribution by 2080.**
 6. Gross amount earned on all projects during the pay period.
 7. Total deductions from employee's wages.
 8. Net amount paid.
- J. The reports shall be certified by the contractor, subcontractor, or duly appointed agent stating that the payroll is correct and complete; and that the wage rates shown are not less than those required by the O.R.C. 4115.
- K. Provide a Final Affidavit to the Prevailing Wage Coordinator upon the completion of the project.

Prevailing Wage Determination Cover Letter

County: STARK
Determination Date: 01/15/2019
Expiration Date: 04/15/2019

THE FOLLOWING PAGES ARE PREVAILING RATES OF WAGES ON PUBLIC IMPROVEMENTS FAIRLY ESTIMATED TO BE MORE THAN THE AMOUNT IN O.R.C. SEC. 4115.03 (b) (1) or (2), AS APPLICABLE.

Section 4115.05 provides, in part: "Where contracts are not awarded or construction undertaken within ninety days from the date of the establishment of the prevailing wages, there shall be a redetermination of the prevailing rate of wages before the contract is awarded." The expiration date of this wage schedule is listed above for your convenience only. This wage determination is not intended as a blanket determination to be used for all projects during this period without prior approval of this Department.

Section 4115.04, Ohio Revised Code provides, in part: "Such schedule of wages shall be attached to and made a part of the specifications for the work, and shall be printed on the bidding blanks where the work is done by contract..."

The contract between the letting authority and the successful bidder shall contain a statement requiring that mechanics and laborers be paid a prevailing rate of wage as required in Section 4115.06, Ohio Revised Code.

The contractor or subcontractor is required to file with the contracting public authority upon completion of the project and prior to final payment therefore an affidavit stating that he has fully complied with Chapter 4115 of the Ohio Revised Code.

The wage rates contained in this schedule are the "Prevailing Wages" as defined by Section 4115.03, Ohio Revised Code (the basic hourly rates plus certain fringe benefits). These rates and fringes shall be a minimum to be paid under a contract regulated by Chapter 4115 of the Ohio Revised Code by contractors and subcontractors. The prevailing wage rates contained in this schedule include the effective dates and wage rates currently on file. In cases where future effective dates are not included in this schedule, modifications to the wage schedule will be furnished to the Prevailing Wage Coordinator appointed by the public authority as soon as prevailing wage rates increases are received by this office.

"There shall be posted in a prominent and accessible place on the site of work a legible statement of the Schedule of Wage Rates specified in the contract to the various classifications of laborers, workmen, and mechanics employed, said statement to remain posted during the life of such contract." Section 4115.07, Ohio Revised Code.

Apprentices will be permitted to work only under a bona fide apprenticeship program if such program exists and if such program is registered with the Ohio Apprenticeship Council.

Section 4115.071 provides that no later than ten days before the first payment of wages is due to any employee of any contractor or subcontractor working on a contract regulated by Chapter 4115, Ohio Revised Code, the contracting public authority shall appoint one of his own employees to act as the prevailing wage coordinator for said contract. The duties of the prevailing wage coordinator are outlined in Section 4115.071 of the Ohio Revised Code.

Section 4115.05 provides for an escalator in the prevailing wage rate. Each time a new rate is established, that rate is required to be paid on all ongoing public improvement projects.

A further requirement of Section 4115.05 of the Ohio Revised Code is: "On the occasion of the first pay date under a contract, the contractor shall furnish each employee not covered by a collective bargaining agreement or understanding between employers and bona fide organizations of Labor with individual written notification of the job classification to which the employee is assigned, the prevailing wage determined to be applicable to that classification, separated into the hourly rate of pay and the fringe payments, and the identity of the prevailing wage Coordinator appointed by the public authority. The contractor or subcontractor shall furnish the same notification to each affected employee every time the job classification of the employee is changed."

Work performed in connection with the installation of modular furniture may be subject to prevailing wage.

Prevailing Wage Determination Cover Letter

County: TUSCARAWAS
Determination Date: 01/15/2019
Expiration Date: 04/15/2019

THE FOLLOWING PAGES ARE PREVAILING RATES OF WAGES ON PUBLIC IMPROVEMENTS FAIRLY ESTIMATED TO BE MORE THAN THE AMOUNT IN O.R.C. SEC. 4115.03 (b) (1) or (2), AS APPLICABLE.

Section 4115.05 provides, in part: "Where contracts are not awarded or construction undertaken within ninety days from the date of the establishment of the prevailing wages, there shall be a redetermination of the prevailing rate of wages before the contract is awarded." The expiration date of this wage schedule is listed above for your convenience only. This wage determination is not intended as a blanket determination to be used for all projects during this period without prior approval of this Department.

Section 4115.04, Ohio Revised Code provides, in part: "Such schedule of wages shall be attached to and made a part of the specifications for the work, and shall be printed on the bidding blanks where the work is done by contract..."

The contract between the letting authority and the successful bidder shall contain a statement requiring that mechanics and laborers be paid a prevailing rate of wage as required in Section 4115.06, Ohio Revised Code.

The contractor or subcontractor is required to file with the contracting public authority upon completion of the project and prior to final payment therefore an affidavit stating that he has fully complied with Chapter 4115 of the Ohio Revised Code.

The wage rates contained in this schedule are the "Prevailing Wages" as defined by Section 4115.03, Ohio Revised Code (the basic hourly rates plus certain fringe benefits). These rates and fringes shall be a minimum to be paid under a contract regulated by Chapter 4115 of the Ohio Revised Code by contractors and subcontractors. The prevailing wage rates contained in this schedule include the effective dates and wage rates currently on file. In cases where future effective dates are not included in this schedule, modifications to the wage schedule will be furnished to the Prevailing Wage Coordinator appointed by the public authority as soon as prevailing wage rates increases are received by this office.

"There shall be posted in a prominent and accessible place on the site of work a legible statement of the Schedule of Wage Rates specified in the contract to the various classifications of laborers, workmen, and mechanics employed, said statement to remain posted during the life of such contract." Section 4115.07, Ohio Revised Code.

Apprentices will be permitted to work only under a bona fide apprenticeship program if such program exists and if such program is registered with the Ohio Apprenticeship Council.

Section 4115.071 provides that no later than ten days before the first payment of wages is due to any employee of any contractor or subcontractor working on a contract regulated by Chapter 4115, Ohio Revised Code, the contracting public authority shall appoint one of his own employees to act as the prevailing wage coordinator for said contract. The duties of the prevailing wage coordinator are outlined in Section 4115.071 of the Ohio Revised Code.

Section 4115.05 provides for an escalator in the prevailing wage rate. Each time a new rate is established, that rate is required to be paid on all ongoing public improvement projects.

A further requirement of Section 4115.05 of the Ohio Revised Code is: "On the occasion of the first pay date under a contract, the contractor shall furnish each employee not covered by a collective bargaining agreement or understanding between employers and bona fide organizations of Labor with individual written notification of the job classification to which the employee is assigned, the prevailing wage determined to be applicable to that classification, separated into the hourly rate of pay and the fringe payments, and the identity of the prevailing wage Coordinator appointed by the public authority. The contractor or subcontractor shall furnish the same notification to each affected employee every time the job classification of the employee is changed."

Work performed in connection with the installation of modular furniture may be subject to prevailing wage.

**THIS PACKET IS NOT TO BE SEPARATED BUT IS TO REMAIN COMPLETE AS IT IS SUBMITTED TO YOU.
