**ADDENDUM-2**

**TO**

**RFP #2019-544(KD) RECORDING SYSTEM FOR  
SULLIVAN COUNTY 800 MHz TRUNKED RADIO SYSTEM**

This addendum is issued to answer a follow up question from Addendum #1 that has been submitted regarding the RFP for a Recording System for the Sullivan County 800 MHz Trunked Radio System.

15. **Question:** 21.3-This requirement states “the Recorder shall provide the previous 2 years of local calls and 5 years of call from a NAS” are these existing calls that need to be imported to the new recorder or is this strictly a requirement for the new server in the future?

***Answer: The vendor would either need to import old data or maintain the old recorder for a minimum of 2 years.***

16. **Question:** Is it possible to learn what the existing recorder is?

***Answer: NICE Recorder.***

**END OF ADDENDUM #2**
