

Addendum #1 2122-005 Foaming Hand Soap 9/17/2021

- 1) Could you kindly let us know whether or not this is a onetime purchase? Also, would this be one bulk delivery? Would there be a loading dock available? **Yes, this will be a one time purchase. This will be one bulk delivery. This would be delivered to 1855 Calhoun Rd Greenwood SC 29649 and we do have a loading dock at this site to unload.**
- 2) With the Kutol dispensers, I think they can be proprietary meaning that the fitments or “collars” that go on the refill bags will only align and be used with certain dispensers. I’ve seen some where even if the item number is the same, the collar was made differently.

Would it be possible for me to run a refill bag from one of our cases of Item # 69041 to you and/or Jeremy to make sure they will fit work in the dispensers? I could come tomorrow afternoon or first thing Monday.

Thank you for your concern. We have never had an issue as long as the brand was Kutol and we have never had an issue with that particular item number. We will not be able to have vendors on site because we cannot discuss bids that are open with individual vendors.
