III. Background

The City furnishes on-site fueling for the majority of the City's fueling needs. However, it does not provide premium fuel for the City's motorcycles. Many other City vehicles (such as emergency and law enforcement) must have the capability of fueling locally in addition to the City's on-site fueling stations. Moreover, those City vehicles that must travel away from the City's on-site fueling stations must be able to acquire fuel from major fuel providers, often times out of state. The City therefore seeks to enter into a contractual agreement with an established Vendor to obtain fuel card services that will provide universal fuel cards for employee use, as well as fuel system management software. Fleet Services oversees these fuel cards. During FY 2016/2017, approximately 3900 gallons of regular unleaded, 2200 gallons of premium unleaded, and 23,000 gallons of diesel fuel, totaling close to \$53,000, were purchased at multiple fuel sites locally and nationally using approximately 80 current off-site fuel cards.

All addenda so issued shall become part of the Contract Documents.

4.8 Subsequent to the Evaluation Committee's review and the Mayor's recommendation of a firm(s), Knoxville City Council approval may be required before the final contract may be

executed.

4.9 All expenses for making a submission of proposal shall be borne by the submitting entity.

4.10 Any submission of proposals may be withdrawn up until the date and time for opening of the submissions. **Any submission not so withdrawn shall, upon opening, constitute an irrevocable offer for a period of 120 days to the City of Knoxville for the services set forth in the Request for Proposals until one or more of the submissions have been duly accepted by the City.**

Any unauthorized contact may cause the disqualification of the proposer from this procurement transaction. Proposals must include a notarized No Contact/No Advocacy Affidavit (to be found in the "Submission Forms" section of this document).

4.13 **INCLEMENT WEATHER:** During periods of inclement weather, the Purchasing Division will enact the following procedures with regard to solicitations and weather delays:

- If City offices are closed due to inclement weather on the date that proposals/proposals/qualifications/letters of interest are due into the Purchasing Office, all solicitations due that same day will be moved to the next operational business day.
- The City of Knoxville shall not be liable for any commercial carrier's decision regarding deliveries during inclement weather.

4.14 **The successful proposer's pricing must be clear and complete.** Any erasures, strikeovers, and/or changes to prices written in numerals should be initialed by the proposer. Failure to initial may be cause to reject the proposal as irregular and disqualified from consideration. **All items required in the specifications must be included in the total proposal price.** Any option prices must be clearly labeled as such so as not to be confused with the grand total.

V. Scope of Service

The proposal shall provide a fixed cost associated with the provision of a cloud-based website and professional services requested within this Request for Proposals.

The City anticipates that a web-based software program will be made available to City-authorized Fleet staff, and that no purchase of software or installation/maintenance of hardware will be required of the City. Proposals shall include a timeline for the setup of a website for the Fleet Department and shall clearly detail any costs associated with the setup and subsequent use of this website.

Essential functions of the proposed system shall include, but not be limited to, the following:

- The proposed system shall provide monitoring, configurable reporting, and real- time oversight of the fuel service by authorized City employees; The proposed system shall allow authorized personnel to allocate purchases made on the card to various City accounts.
- The proposed system must capture fuel and vehicle usage data including type and quantity of fuel, transaction cost, transaction date and time, location, and vehicle odometer reading; The proposed system shall afford authorized personnel the ability to assign controls to each account, individual card, etc.
- The proposed system must have the ability to export fuel and vehicle data in a Microsoft Excel, CSV, as well as PDF format. **Systems that are unable to provide such reporting will not be considered.**
- The vendor's geographical coverage area must be sufficiently obtainable through major fuel providers as to be available to City employees who travel away from the City's on-site fueling stations. Proposals with more locations where City vehicles travel frequently will score higher than proposals with locations where City vehicles travel rarely
- The proposed system shall allow inquiries of up-to-date fuel site locations, provided to employees traveling locally and out of town, via website and “APP” that employees can download for exact locations and directions to next available fuel site.
- The proposed system must allow restrictions be placed on individual cards in real time to prohibit cash withdrawals and purchases other than fuel. This is a non-negotiable requirement.

As emergency and law enforcement vehicles must be able to reliably utilize the fuel cards at all times, under no circumstances shall the fuel cards be disabled without 30 days prior written notification to the City of Knoxville Fleet Department. Liquidated damages shall be assessed by the City in the event that the cards are disabled without the City's advance knowledge. Data provided via software MUST to be “live” data and any changes made MUST be immediate. Failure to provide updated “live” data puts City staff at risk of out of town travel with insufficient support. Additionally, any planned down time or any time services are unavailable the City MUST be given prior notice. There shall be NO software updates made that change access, data, and functionality without advance notice given to the City. The City and the contractor mutually agree response time compliance and performance compliance are critical and failure to provide service in accordance with this Agreement is a detriment to City services and the public, and therefore the City reserves the right to assess liquidated damages. (See liquidated damages section.)

When fuel cards are due to expire, new cards must be sent 60 days ahead of expiration date and all cards due to expire shall have replacements sent regardless of activity level. PIN numbers

linked to the cards shall remain the same unless changed by the City of Knoxville Fleet staff.

The potential Vendor should determine all website functions and services necessary to maximize fulfillment of the City's stated requirements. All functions/reports used to provide the capabilities claimed in the responses to these requirements should be listed along with their cost in the pricing section of the Proposal. All questions should be answered based on the system version currently available for customer shipment as of the Proposal response date. Please do not quote functions or systems not currently available.

The cost of customization required to meet specifications must be included in the price submitted by the Vendor. It should be fully understood that the City considers this document and the Vendor responses to all the requirements to be the legally binding agreement of the capabilities of the software package whose complete listing is specified on the pricing sheets of their Proposal.

To assure that misrepresentation of the Vendor's package does not occur, vendors should seek clarification of any requirement that they do not fully understand. Misunderstandings resulting in an improper response to this document will not be considered a valid reason for failure to supply **all** features indicated. Bid prices must be fixed for the term of the contract, using the calculation based on the OPIS rack average (not the branded average) on the day the fuel is purchased, plus a fixed mark-up or minus discount. No guarantee is made that a specific amount of fleet fuel card services will be purchased. For sites in the Knoxville metropolitan region, the OPIS Knoxville, TN rack average price, as reported by the Oil Price Information Service each Thursday ("OPIS Newsletter Price") for each product purchased that calendar week shall apply. Vendor may price transactions outside the Knoxville metropolitan area based on the applicable OPIS rack average price for the location where the fuel is purchased.

LIQUIDATED DAMAGES: The ability of City vehicles (especially emergency and law enforcement vehicles) to reliably use the fleet fuel cards for the purchase of fuel is consistent with the operations of the City's fleet. If the fleet fuel cards are disabled for any reason without the City's prior knowledge, the inability to purchase fuel in a timely manner will interfere with the proper function of the City's programs and put at risk the safety and security of citizens and personal, to the loss and damage of the City; for this reason, the Contractor is required to give the City 30 days' written notice prior to disabling of the fleet fuel cards. From the nature of the case, it would be impracticable and extremely difficult to fix the actual damages sustained in the event of any such disabling of the fuel cards. The City and the contractor, therefore, presume that in the event of any such disabling, the amount of damage which will be sustained from the disabling of the fuel cards will be the amount set forth herein, and they agree that in the event of any such a circumstance, the contractor shall pay such amount as liquidated damages will be the amount of \$1,000 per consecutive calendar day that the fuel cards are disabled; and they agree that in the event of any such disabling, the contractor shall pay such amount as liquidated damages and not as a penalty. Amounts due the City as liquidated damages may be deducted by the City from any money payable to the contractor pursuant to this contract. The City shall notify the contractor in writing of any claim for liquidated damages pursuant to this paragraph.

Exception: The contractor shall not be liable for liquidated damages when delays arise out of causes beyond the control and without the fault or negligence of the contractor. Such causes may include, but are not restricted to, acts of God or of The Public Enemy, acts of the County in either its sovereign or contractual capacity, fire, floods, epidemics, quarantine restrictions, strikes, freight embargoes and unusually severe weather: but in every case the delays must be beyond the control and without the fault or negligence of the contractor. If the delays are caused by the default of a subcontractor, and if such default arises out of causes beyond the control of both the contractor and subcontractor, and without the fault or negligence of any of them, the contractor shall not be liable for liquidated damages for delays, unless the supplies or services to be furnished by their subcontractors were obtainable from other sources in sufficient time to permit the contractor to meet the required performance schedule.

If this Agreement is terminated in whole or in part for default, the City may procure, upon such terms and in such manner as the Purchasing Agent may deem appropriate, supplies or services similar to those terminated.

DIVERSITY BUSINESS ENTERPRISE (DBE) PROGRAM
